Re: Margaret Malcolm
1311 Highland Ave
Dayton, OH 45410

Docketing Case No.:

12-426-EL-SSO

Notes:

Please docket the following in the case number above. Thank you.

COMPLAINT DESCRIPTION:

While I applaud DP&L and their new owner, AEP, to start switching to a market-based pricing format, I do not agree that that change should place a additional burden on the average electricity user. To give the larger, industrial & business customers a break on their electricity rates and costs, and then ask for two new surcharges to replace that lost revenue is ridiculous. Furthermore, asking the average citizen/customer to fund any loss of income while switching to a market-based cost structure is even more ridiculous.

I realize that DP&L/AEP investor's are in it for the monetary returns, but they also need to shoulder some of the burden. I refuse to accept that these two new/additional surcharges are needed. DP&L/AEP and their investor need to step back and accept a little less income while the new market-based cost structure is developed & put into place,

Sincerely,

Mitchell D. Kearns
