PUCO

Docketing Case No.: 12-1682-EL-AIR

Notes:

I understand Duke Energy is going to raise rates to help pay for the Cincinnati Streetcar. I didn't have a voice in if we wanted the Streetcar and object to the PUCO letting Duke raise rates for this unwanted money drain. If Cincinnati wants a streetcar, let them pay for it. Therefore, I am requesting the PUCO not let DUKE raise my rates in Hamilton County or for that matter not to raise rates in any county.

Please docket the attached in the case number above.

COMPLAINT DESCRIPTION:

Re:Case No.12-1682-EL-AIR Streetcar Hamilton County I am a resident in Butler County who had no say/vote in building this trolley. Therefore it is not at all ethical for Duke Energy to collect from me a Butler Co resident monies regarding this streetcar. This rider FRT portion should not be allowed to be collected from other Duke customers if people in Hamilton County do not pay their electric bill. Let's use some common sense. Additionally,our economy is on the brink of collapse....the last thing we need is a trolley to take someone from downtown to a place where no one really goes. (over the rhine)This would be an expensive ride and serve no real purpose. Take the bus!!! Studies have shown we would need 200 riders per hour to maintain the cost of trolley. That goal will never be attained and the costs will be passed along to hardworking taxpayers that do not even use it. This is not San Francisco and will never be! Building a streetcar is like asking a worker to give up his computer for a typewriter...Why do we want to go backwards? It is not fiscally responsible either. Portland's streetcar may be attractive but it is a drain on taxpayers. <http://www.scribd.com/doc/96744187/The-Great-Streetcar-Conspiracy-Cato-Policy-Analysis-No-699> Sincerely,ClyDean Cook-Weber
