 COMMENT DESCRIPTION:
 PUCO,

My name is Tim Staggs and I live in Lebanon OH. Although I don't get my electric directly from Duke, Lebanon buys it's electric from Duke and any rate increases are passed on by the City of Lebanon. This letter is concerning electric case # 12-1682-EL-AIR. The City of Cincinnati council wants to build a street car system in Cincinnati and electric lines must be moved. Cincinnati council wants every Duke customer to pay for their pet project even though the suburban Duke customers NEVER had input or got to vote on this street car system as

the city customers did get to vote. Cincinnati Council is claiming that it should be charged to all Duke customers because this is a public project. If they get this passed, this will be a precedent for the city to claim that all bad projects they want to pass should be paid for by citizens that have no voice in the process. It simply is not fair or right that the City of Cincinnati should be able to pass these costs on to people that have NO use or say in their projects. It does not benefit me or the people in Warren county. I strongly ask that you say "NO" to this rate increase and make the City of Cincinnati pay for their own projects. Thank you, Timothy H Staggs

Please docket the attached in the case number above.

Docketing Case No.: 12-1682-EL-AIR

Notes:

Do you intend on adding the cost of the Cincinnati street car on our electric bills? There is too much of this crap going on these days. If they don't have the money to pay for it, we don't need it. If it is such a good idea why don't they sell bonds to pay for it. I can tell you why! no one would buy them. The consumer is having a hard enough time keeping up with legitimate increases without these pie in the sky boondoggles. I ask the commission to use common sense on these decisions. Thank you Kerry L Byrd

COMMENT DESCRIPTION:

I am against Duke Energy's Rate Increase Proposals. It is also not convenient for me to attend the public hearing scheduled for 12:30 p.m. in Cincinnati, Ohio. Most who work will not be able to attend at that time either. Thanks, Lisa Daria

COMPLAINT DESCRIPTION:

I am writting in regards to Duke Energy is talking about raising the rate of their monthly Bill on Elect & Gas . \$6.50 & \$10.25 For a total increase of \$19.52 on the Customer's monthly Bill. Although I am not in the Duke Service Area I do understand this will hurt the very low income Customer's who are already having a hard time paying their monthly bills. There are a lot of people in Duke service area who are living on \$650.00 TO \$1000.00 per month.

I know one family Father & 2 Sons who gets \$960.00 per month and his bills are \$600.00 per month which leaves him with \$350.00 to try and live on. If Cincinnati wants to put in Street cars then they should pass a local Levey to pay the cost of moving Dukes Energy Gas & Electric Lines. The people of Butler County should not have help pay for Dukes cost to move their Utilities in Cincinnati because THE street Cars in Cincinnati is not going to Benefit the People in Butler County,Middletown,West Chesta etc

Please docket the attached in the case number above.
