COMPLAINT DESCRIPTION:

As a resident of Butler County, I find it absurd that extra fees will be pass along to people in the outer lying areas without any vote in the matter. I will closely follow this subject and weigh options about switching energy providers.p in the future. It makes no sense! If Cincinnati wants the streetcar, let them pay for it!

Docketing Case No.: 12-1682-EL-AIR

Notes:

This is in reference to Case No. 12-1682-EL-AIR, the proposal for Duke energy to tax residents for the City of Cincinnati Streetcar. I am unclear on who will be taxed, city residents or residents in surrounding counties so I will be attending one of the meetings. However, I wanted to express my concern and let you know that I oppose the proposed Streetcar Electric Bill Tax. As a resident of Clermont County, I did not get to vote for or against the streetcar as it was only on the ballot in either the City of Cincinnati or Hamilton County. I should not have to pay for something that I did not have a chance to vote on! If Duke wishes to do this to residents outside of the City of Cincinnati and Hamilton County then I demand that the issue be put back on the ballot so ALL residents who would be required to pay this tax get to actually vote on it. Again I wish to let you know that I oppose this tax!

Please docket the attached in the case number above.

COMMENT DESCRIPTION:

I am writing to express my extreme displeasure at the possibility that those citizens in Butler County will be called upon to help pay for the Cincinnati Streetcar by a very substantial increase in electric/gas rates. Butler county citizens were not given the opportunity to vote on the Streetcar matter, therefore, should be under no legal obligation to help pay for this matter. I am on disability and the increase would very much hinder my ability to pay for my monthly groceries and medications. If allowed to pass this would be another case of taxation without representation that our forefathers fought against many years ago. Stop this in it's tracks now!!

I AM OPPOSED TO THAT STUPID STREETCAR PROJECT AND I SHOULDN'T HAVE TO PAY INCREASED UTILITY PRICES TO SUBSIDIZE IT! MALLORY TOOK GOVERNMENT MONEY FOR THAT BLACK-HOLE OF A PROJECT THAT HE NEVER SHOULD HAVE TOUCHED -- OR, HOW 'BOUT

THIS: USED TO BETTER THE ENTIRE CITY, NOT A STREETCAR TO NOWHERE. WHY DON'T YOU GET THE NEW CASINO TO KICK ON THIS, OR OTHER BUSINESSES THAT WILL BENEFIT FROM A STREETCAR RIDE. NOT MY UTILITIES BILL!!! I PAY ENOUGH AS IT IS. WE ALL DO! DO NOT RAISE MY RATES FOR THIS STUPID, MEANINGLESS, WASTEFUL EMBARRASSMENT OF A PROJECT. WHAT A JOKE CINCINNATI HAS BECOME...

COMMENT DESCRIPTION:

We have been reading about this street car this the city of Cincinnati mayor has been trying to get thru for the past several years of his term. I have heard a number of people in Hamilton County OH state they do not think it is needed. Now, lo and behold, Duke Energy is asked to move lines etc so the tracks for this street car can be installed. I have been reading in the paper Duke Energy is going to ask that these costs be passed along to ALL of their consumers, many not in the Hamilton county area and many more not even close enough to ever be able to use this street car. Our utility bills are already high enough...many senior citizens, and others alike, have to get help with their utility bills in order to even get by. We cannot even vote for or against this street car so why should we be forced to pay the costs of getting it running?

Should Duke Energy ask PUCO to allow them to pass this cost along to their customers, some as many as 50 miles or more from the street car site, please tell them to find another way...reduce someones fat salary or benefits a few bucks. Or let them argue with the City of Cincinnati to get THEM to pay the cost out of their tax funds.

Thank-you.

Reta Erxleben, age 67 on a fixed social security income

Docketing Case No.: 12-1682-EL-AIR

Notes:

I am very disappointed in Duke that they are even considering adding a tax onto my electric bill for the street car project; which I was not allowed to vote on, which will not impact me being 25 miles away, and which I will not be able to participate in the operation or any decision making involved with this project. This is taxation without representation. The question has to be asked how can a utility company raise revenue for a government project? Please do not allow this to happen.
