

RECORDED FEB 20 2013

5

Feb 18, 2013

PUCO Board,

12-1682-EL-AIR

Dear Sirs:

We are a resident of Trenton OH, Butler Co., we don't feel like we should pay to relocate the utilities for the city of Cincinnati to have this street car that is in the downtown area of Cincinnati, OH Hamilton Co. What do we get from it. We would have to drive 35-40 miles to ride it. We were are opinion that we should not pay this extra \$16.75 a month for how long - only God knows.

So we are very much opposed to this! If Cincinnati wants this, then they should pay all the bills.

Robert L. Poplin Sr.,
Elmer Poplin -

PUCO

COMMENT DESCRIPTION:

PROPOSED PREDATOR RATE HIKE BEING REQUESTED BY DUKE ENERGY FOR GAS AND ELECTRIC: There is no excuse for the predator amount being requested by Duke Energy for both gas AND electric at this time! The rates quoted are minimal and the average consumer is going to get hit heavily and in a much high amount that quoted in the newspaper. Ohio is just barely coming out of a recession and we can not afford any increases. In fact, my salary with the school district has gone down over the past three years due to cuts the union took in pay and increased costs of benefits so I have less money now that I did four years ago and the prices of gasoline, unaddressed by the Justice Department or Congress for their predatory increases, have resulted in people now living from pay check to paycheck - and Duke Energy just wants to add to the burden. I am strongly opposed to their predatory hikes. They simply need to decrease the huge salaries and benefits of their board and officers instead of preying on the working poor and middle income families in SW Ohio.

COMMENT DESCRIPTION:

I hope that the expenses incurred by Duke Energy for the street car in Cincinnati, Ohio will not affect the Duke Energy customers in Butler County, Ohio. I am strongly against the streetcar and will not be riding it. I do not live in Hamilton County or the City of Cincinnati due City Councils frequent stupid financial decisions. Therefore, it would not be fair for residents of Butler County to have to pay for the bad decisions coming out of Hamilton County and the City of Cincinnati!

COMMENT DESCRIPTION:

The proposed streetcar for the city of Cincinnati should be paid for by the City residents of Cincinnati not the surrounding communities . Duke Energys plan to spread the \$ 15,000,000.00 (for relocation of electric lines etc)among surrounding counties is grossly wrong . This should not be allowed , please stop it .

COMMENT DESCRIPTION:

Does Duke energy just have to ask to get an increase ? The PUCO acts like Duke is not allowed to lose money, or the two is joined at the hip. If Duke can't control their cost, maybe they should step aside for another commpany to try. Or is the PUCO going to make them profitable at the cost of consumers. Don't Duke and the PUCO have any obligations to consumers. If consumers can't make ends meet, they just have to bit the bullet. No one is going to give them more money. Duke needs to get their ducks in a row, and stop being PUCO welfare
