To: The Public Utility Commission of Ohio;

I am totally against the increase of my Gas & Electric to pay for moving Gas & Electric lines to accommodate the Street Car in Cincinnati, Ohio.

Cincinnati is moving forward in a big way without the Street Car. Most everyone I know do not want & will never use the Street Car!

The Metro Busses are a lot more economical than the Street Car will be and the sidewalks & streets won't have to be torn up for the Metro Busses.

I (like so many others in Cincinnati) am a Senior Citizen on Soc. Sec. & can barely afford my Gas & Electric rates already. Without a 6.00 per mo for Electric and 10.00 per mo. for Gas Increases. I already pay a 25.00 monthly fee just to have the Gas in my home & all I have is a stove that uses Gas. — This rate increase Duke is asking for is for something I neither need nor want!

I understand that Mayor Mallory, a Brother & Cousin own the Section of Property the city (we) need to buy for moving Gas & Electric lines for the Street Car.

I say let Mayor Mallory pay this expense, since he's about the only Person who wants the Street Car!

I beg you; Do Not approve this request from Duke Energy to Increase our Rates.

I Agree With This
