# Competitive Retail Electric Service Provider Alternative Energy Resource Report for Calendar Year 2012

## APN Starfirst, LP

APN Starfirst, LP (hereunder, "CERS") in accordance with Sections 4928.64 and 4928.65, Revised Code and Commission Rules 4901:1-40-03 and 4901:1-40-05 hereby submits this Annual Alternative Energy Report ("AER") detailing compliance with the Ohio Alternative Energy Portfolio Standards.

### I. Determination that an Alternative Energy Resource Report is required.

During the calendar year 2012, the CERS states that it conducted retail sales of generation to customers who utilized the generation in a load center located in the state of Ohio.

### II. Determination of the sales baseline for 2012:

- a) During the past three calendar years, the CERS made retail sales of generation in the amounts below:

2009 \_\_\_\_\_ 0 \_\_\_\_\_ MWh  
2010 \_\_\_\_\_ 51,731 \_\_\_\_\_ MWh  
2011 \_\_\_\_\_ 75,003 \_\_\_\_\_ MWh

- b) The CERS was not active during 2009, but did make sales in calendar year 2010 and 2011. The CERS states that the average baseline to be used is:

\_\_\_\_\_ 63,367 \_\_\_\_\_ MWh

### III. Determination of the number of Solar and Total Renewable Energy Credits (RECs) required and statement of the number of RECs claimed:

Types	No of RECs required (a)	No of RECs obtained (b)	Registry (c)	No of RECs sited in Ohio (d)
Solar	38	38	PJM GATS	19
Non-Solar	912	912	PJM GATS	456
Total	950	950	PJM GATS	475

- a) Column (a) above represents the unadjusted number of solar and Total RECs required for the CERS in 2012. The determinations were calculated by multiplying the baseline sales by 0.06% for Solar RECs and 1.5% for Total RECs. Total RECs include both Solar and Non-Solar RECs.
- b) The CERS states that it has obtained the number of both Solar and Non-Solar RECs listed in column (b) above for 2012.
- c) The CERS used the PJM GATS registry for the RECs detailed above.

- d) The CRES states that of the RECs obtained for 2012, the number listed in column (d) above represents RECs with generation facilities sited within the state of Ohio.

#### **IV. Compliance**

The CRES states that it has obtained the required number of Solar and Total RECs without adjustments permitted pursuant to rule 4901:1-40-05 (A)(3).

#### **V. Ten Year Forecast**

- a) In accordance with Rule 4901:1-40-03 (c), the CRES hereby provides a projection for the next ten years of Non-Solar RECs and Solar RECs.

<b>Year</b>	<b>Solar RECs</b>	<b>Non-Solar RECs</b>	<b>Total RECs</b>
2013	60	1,270	1,330
2014	90	1,875	1,965
2015	113	2,625	2,738
2016	135	3,375	3,510
2017	165	4,125	4,290
2018	195	4,875	5,070
2019	225	5,625	5,850
2020	255	6,375	6,630
2021	285	7,125	7,410
2022	300	7,500	7,800

- b) Supply portfolio projection

The CRES does not own a generation asset that can be utilized for Ohio compliance and does not usually carry forward for longer than 3 years a Total REC position in a supply portfolio and generally purchases Total RECs on an as needed basis.

- c) Methodology used to evaluate Compliance

The CRES generally utilizes REC broker markets for procurement options and does not see any future impediments. The CRES will continue to use REC broker markets to evaluate compliance options.

- d) Comments on perceived impediments to achieving compliance of Solar and Total REC requirements

Current lack of in-state resources will make annual compliance challenging for Solar and Non-Solar requirements in future years.
