

BEFORE

THE PUBLIC UTILITIES COMMISSION OF OHIO

In the Matter of the Joint Petition of )  
Ohio Edison Company and )  
Cleveland Electric Illuminating Company ) Case No. 13-0397-EL-PEB  
Requesting Revision to Territorial )  
Boundary Map. )

ENTRY

The Commission finds:

- (1) Ohio Edison Company (OE) and Cleveland Electric Illuminating Company (CEI) are electric suppliers as defined in Section 4933.81, Revised Code.
- (2) Certification by the Commission of the territories of OE and CEI was approved by entries in Case No. 78-1311-EL-ORD.
- (3) OE and CEI have jointly petitioned the Commission to reallocate their service territories in Summit County, Northfield Township, Ohio. Specifically, they request the following relocation:

On Quadrangle map D-27 located in Summit County, within Northfield Township, beginning at existing boundary and at the western edge right-of-way of Northfield Road and Sagamore Road coordinates 41.350547, -81.526779, extend proposed boundary south along the western edge right-of-way of Northfield Road 999 feet to coordinates 41.347845, -81.52739, thence east for 1,107 feet to coordinates 41.347145, -81.523467, thence north 686 feet to coordinates 41.349025, -81.52355 thence west 887 feet to coordinates 41.34959, -81.526689 thence north along the eastern edge right-of-way of Northfield Road 710 feet ending at existing boundary line coordinates 41.351536, -81.526572.

- (4) In support of their request, OE states it does not have existing capacity in the area to serve a new customer. CEI does have the capacity in the area and is the least cost alternative for the customer.

- (5) Section 4933.83(E), Revised Code, provides in pertinent part:

Notwithstanding the effectuation of certified territories established by or pursuant to sections 4933.81 to 4933.90 of the Revised Code, and the exclusive right of electric suppliers to serve within such territory, and notwithstanding any other provisions of such sections establishing rights of electric suppliers to furnish electric service, any two or more electric suppliers may jointly petition the commission for the reallocation of their own territories and electric load centers among them and designating which portions of such territories and electric load centers are to be served by each of the electric suppliers.

- (6) No objections to the reallocation described in Finding (3) have been brought to the Commission's attention.
- (7) The Commission finds that granting the requested relief will promote the purposes of Sections 4933.81 to 4933.90, Revised Code, and will further promote the provision of adequate service to all territories and electric load centers affected by the relocation as required by Section 4933.83(E), Revised Code. Accordingly, the Commission finds that the joint petition is reasonable and should be approved.
- (8) The Commission, therefore, directs that the territorial boundaries of OE and CEI be appropriately modified as delineated in Finding (3) and amends the maps of the certified territories accordingly.

It is, therefore,

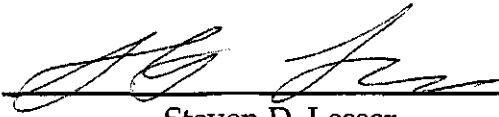

ORDERED, That the request of OE and CEI to relocate their territory boundary be granted. It is, further,

ORDERED, That the change on quadrangle map D-27, described in Finding (3), be approved to show the boundary line change. It is, further,

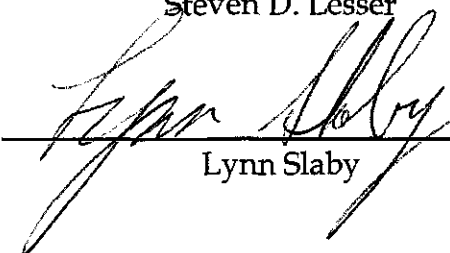

ORDERED, That a copy of this Entry be served upon each party of record.
