RE: *In the Matter of the Annual Alternative Energy Status & Compliance Report Under Rule 4901:1-40-05, Ohio Administrative Code, for Ohio Power Company, Case No. 13-0880-EL-ACP.*

Dear Ms. McNeal:

Ohio Power Company ("OPCo," "the Company" or "AEP Ohio") submits the enclosed 2012 Alternative Energy Status & Compliance Report on behalf of Ohio Power Company pursuant to Rule 4901:1-40-03(C), Ohio Administrative Code.

The document filed is the public version of the report. As indicated in the motion for a protective order filed on this day in this docket, the report contains certain confidential information. The public version has been redacted accordingly. A confidential copy of the report was filed with the motion for protective order according to Commission rules.

Thank you for your attention to this matter.

Respectfully Submitted,

/s/ Matthew J. Satterwhite
Matthew J. Satterwhite

Annual Compliance Plan Status Report

Introduction

In Case No. 08-888-EL-ORD, the Public Utilities Commission of Ohio (“Commission”) approved Rules for the Alternative Energy Portfolio Standard for electric utilities (“Rules”). The Rule became effective on December 10, 2009. Applying Amended Substitute Senate Bill 221 (“S.B. 221”), the Rules require that each electric utility within the jurisdiction of the Commission adhere to specific advanced and renewable energy benchmark percentages. Each electric utility and electric services company is required to file an annual status and compliance report. This report is to be filed by April fifteenth of each year. Per Ohio Administrative Code (“OAC”) 4901:1-40-05(A), the report shall include the following items:

- The annual review will include compliance with the most recent applicable renewable- and solar-energy resource benchmark.
- The annual compliance reviews shall consider any under-compliance an electric utility or electric services company asserts is outside its control.

Ohio Power Company (“OPCo”) submits this Compliance Plan Status Report for Compliance Year 2012.

OPCo has achieved compliance in meeting the 2012 Benchmarks for the Ohio Alternative Energy Portfolio Standard. OPCo achieved the Benchmarks for both Non-Solar and Solar Renewables, as shown in the Summary Sheet.

Non-Solar Overview

Non-Solar achievement was met through REC purchases, a renewable energy purchase agreement with wind as the renewable energy resource, the OPCo customer Renewable Energy Technology program, and OPCo biomass and biodiesel co-firing for the In-State Benchmark, while the additional non-Solar Benchmark was achieved through a renewable energy purchase agreement with wind as the renewable energy resource. Additional details around the Non-Solar Benchmark are shown in the REC Details Sheet.

Solar Overview

Solar achievement was met through OPCo facilities, the OPCo customer REC Purchase and Renewable Energy Technology programs, and an In-State renewable energy purchase agreement for the In-State Benchmark, while the additional Solar Benchmark was met through adjacent-State REC purchases. Additional details around the Solar Benchmark are shown in the REC Details Sheet.

Adjustments

OPCo made adjustments for Economic Growth and Customer Choice as noted in OPCo's ESP I filing (Case Nos. 08-917-EL-SSO and 08-918-EL-SSO) in the section titled "Baselines and Benchmarks" and recommended in the Stipulation for Case Nos. 10-486-EL-ACP and 10-487-EL-ACP. In its prior filings in Case Nos. 10-486-EL-ACP and 10-487-EL-ACP, Case Nos. 11-2417-EL-ACP and 11-2418-EL-ACP, and Case No. 12-1212-EL-ACP, the adjustments for Economic Growth applied towards the 2009, 2010 and 2011 Benchmarks were based on the load associated with: 1) the special electric service agreement with Ormet Primary Aluminum Corporation, and 2) a group of customers who were recipients of the Rate Stabilization Plan economic development grants. When calculating the baseline adjustment in those prior filings, OPCo unintentionally did not include the load associated with the Reasonable Arrangements with Timken, Eramet and Globe Metallurgical that make up the Economic Development Rider. For purposes of this compliance filing for the 2012 Benchmark adjustments for Economic Growth (and the Company's intention going forward), OPCo has only included the associated kWh captured in the Economic Development Rider. Although the kWh of the recipients of the Rate Stabilization Plan grants are permissible, OPCo is excluding them because they are: 1) administratively burdensome to compile for inclusion, 2) the incremental economic development load associated with those grant recipients is only a small portion of the total applicable kWh and in turn represent a minimal change in the Benchmarks, 3) the economic development grant recipients can shop for generation service and their load would become subject to another provider's compliance mandate, and 4) OPCo doubts that the Commission's original ruling intended for the baseline exclusion to have an infinite applicable life. These adjustments are stated in the Summary Sheet.

Conclusion

OPCo is compliant with the 2012 Non-Solar and Solar Benchmarks based on the actual RECs achieved in Non-Solar as well as the actual RECs achieved in Solar. As previously recommended in April 2012 by Staff regarding the procedure for retiring OPCo's 2009, 2010 and 2011 compliance year RECs, OPCo's 2012 compliance year RECs are in the process of being transferred to OPCo's GATS reserve subaccount.
