Re: *In the Matter of the Application of Doylestown Telephone Company to Reduce its Intrastate Access Rates in Accordance with FCC Requirements and PUCO Case No. 10-2387-TP-COI*
PUCO Case No. 13-988-TP-ATA
TRF Docket No. 90-5017-TP-TRF

Dear Ms. McNeal:

Enclosed herewith are the original and four (4) copies of the **Application of Doylestown Telephone Company to Reduce its Intrastate Access Rates in Accordance with FCC Requirements and PUCO Case No. 10-2387-TP-COI** for filing in the above matter. Please time-stamp and return the extra copies of the Application to our courier.

Thank you for your assistance.

Very truly yours,

BAILEY CAVALIERI LLC

William A. Adams

Notes:

Section I and II are Pursuant to Chapter 4901:1-6 OAC.

Section III – Carrier to Carrier is Pursuant to 4901:1-7 OAC, and Wireless is Pursuant to 4901:1-6-24 OAC.

Section IV – Attestation.

(1) Indicate the Carrier Type and the reason for submitting this form by checking the boxes below.

(2) For requirements for various applications, see the identified section of Ohio Administrative Code Section 4901 and/or the supplemental application form noted.

(3) Information regarding the number of copies required by the Commission may be obtained from the Commission's web site at www.puco.ohio.gov under the docketing information system section, by calling the docketing division at 614-466-4095, or by visiting the docketing division at the offices of the Commission.

(4) An Incumbent Local Exchange Carrier (ILEC) offering basic local exchange service (BLES) outside its traditional service area should choose CLEC designation when proposing to offer BLES outside its traditional service area or when proposing to make changes to that service.

All Filings that result in a change to one or more tariff pages require, at a minimum, the following exhibits.

Exhibit	Description:
A	The tariff pages subject to the proposed change(s) as they exist before the change(s)
B	The Tariff pages subject to the proposed change(s), reflecting the change, with the change(s) marked in the right margin.
C	A short description of the nature of the change(s), the intent of the change(s), and the customers affected.
D	A copy of the notice provided to customers, along with an affidavit that the notice was provided according to the applicable rule(s).

AFFIDAVIT
Compliance with Commission Rules

I am an officer/agent of the applicant corporation, Doylestown Telephone Company, and am authorized to make this statement on its behalf.

Thomas J. Brockman, President
(Name)

Please Check ALL that apply:

☒ I attest that these tariffs comply with all applicable rules for the state of Ohio. I understand that tariff notification filings do not imply Commission approval and that the Commission's rules as modified and clarified from time to time, supersede any contradictory provisions in our tariff. We will fully comply with the rules of the state of Ohio and understand that noncompliance can result in various penalties, including the suspension of our certificate to operate within the state of Ohio.

☐ I attest that customer notices accompanying this filing form were sent to affected customers, as specified in Section II, in accordance with Rule 4901:1-6-7, Ohio Administrative Code.

I declare under penalty of perjury that the foregoing is true and correct.

Executed on (Date) April 18, 2013 at (Location) Doylestown, Ohio

*(Signature and Title) Thomas J. Brockman, President (Date) April 18, 2013

- This affidavit is required for every tariff-affecting filing. It may be signed by counsel or an officer of the applicant, or an authorized agent of the applicant.

VERIFICATION

I, William A. Adams, verify that I have utilized the Telecommunications Filing Form for most proceedings provided by the Commission and that all of the information submitted here, and all additional information submitted in connection with this case, is true and correct to the best of my knowledge.

*(Signature and Title) William A. Adams (Date) April 19, 2013

*Verification is required for every filing. It may be signed by counsel or an officer of the applicant, or an authorized agent of the applicant.

Send your completed Application Form, including all required attachments as well as the required number of copies, to:

Or

Make such filing electronically as directed in Case No 06-900-AL-WVR

EXHIBIT A
(Current Tariff Sheets)

INTRASTATE ACCESS SERVICE

A. Intrastate Carrier Access Service

1. Doylestown Telephone Company, hereinafter called the concurring company, assents to, adopts and concurs in the regulations, rates and charges for the provision of intrastate Carrier Access Service as specified in the Access Service Tariff, F.C.C. No. 5 filed with the Federal Communications Commission by the National Exchange Carrier Association ("NECA") as such tariff now exists, or as it may be revised, added to or supplemented by superseding sheets or issues; provided, however, that the regulations, rates and charges specified in Section 4, End User Access Service, have been excluded from intrastate customers by order of the Public Utilities Commission of Ohio. The rates, terms, and conditions for Intrastate Carrier Common Line Access Service are set forth in Section 7A herein.
2. Sections of the ICORE, Inc. Access Service Tariff, F.C.C. No. 1 to be concurred in are as follows:
 - a. Section 6.10.3 and 17.14.2 Switched Access Service

Except that local switched access rates applied to the intrastate jurisdictions shall remain at the levels existing on December 31, 1997.
3. (Carrier Common Line Access Service rates moved to Section 7A herein.)
4. Interexchange billing and collection services, except for recording service, are deregulated. Recording services, other than billing name and address services, while subject to regulation by the Public Utilities Commission of Ohio, are detariffed effective January 1, 1988. Upon conversion of an end office to equal access, billing name and address information or non-presubscribed traffic shall be provided to interexchange carriers upon rates, terms and conditions to be filed with the P.U.C.O.
5. Only for the Expanded Service Area of Rittman and Marshallville Exchanges (as set forth in Section 1 herein) ("Expanded Service Area"), the intrastate switched access rates will be set in accordance with the P.U.C.O.'s Finding and Order issued May 28, 2008 in Case No. 08-117-TP-WVR. The intrastate switched access rates for the Expanded Service Area shall be reduced annually by one third of the difference between the intrastate switched access rates charged by the Telephone Company in the Doylestown Exchange (as "frozen" in 1997) and the current switched access rates set forth in NECA Tariff No. 5, in accordance with the following calculations:
 - Effective February 22, 2010: $\frac{2}{3}$ multiplied by (Telephone Company Doylestown Exchange 1997 frozen intrastate switched access rates minus NECA switched access rates effective February 22, 2010) plus NECA switched access rates effective February 22, 2010;

1. Rates

- a. The following rates and charges apply to the Company's provision of Carrier Toll Restriction Services and are in addition to all other carrier charges as specified elsewhere in the Company's tariffs.

Monthly Rates

Selective Carrier Denial	\$5.00
Residence, per line equipped	
Business, per line equipped	
Trunk, per trunk equipped	

C. FCC Required Access Reductions

Notwithstanding any other provisions of this Tariff to the contrary and as required by Federal Communications Commission Report and Order in WC Docket 10-90, etc., FCC Release No. 11-161 (November 18, 2011), the Telephone Company shall charge as follows for the specified terminating intrastate access rate elements:

Local Switching	\$0.058817
Transport Interconnection	\$0.009005
Carrier Common Line (as provided in PUCO No. 8, Section 7A, First Revised Sheet No. 10)	

(N)

(N)

7. Rate Regulations (Continued)

7.5 Determination of Premium Charges (Continued)

(E) The originating Premium Access per minute charge(s) apply to:

- all originating access minutes of use;
- less those originating access minutes of use associated with FGA Access Services where the off-hook supervisory signaling is forwarded by the IXC's equipment when the called party answers;
- less all originating access minutes of use associated with calls placed to 700, 800 and 900 numbers;
- less those originating access minutes of use associated with Wireless Switching Centers (WSCs);
- plus all originating access minutes of use associated with calls placed to 700, 800 series and 900 numbers for which the IXC furnishes for each month a report of either the number of calls or minutes or a report of the percent of calls or minutes that terminate in a Switched Access Service that is assessed Carrier Common Line charges, and for which a corresponding reduction in the number of terminating access minutes of use has been made as set forth in (D) preceding.

8. Rates

Intrastate carrier common line access service charges shall be as follows:

Premium Access, per minute

Terminating	\$0.021992
Originating	\$.0150

(R)

P.U.C.O. NO. 8

IDENTIFICATION AND RATING OF VOIP-PSTN TRAFFIC

(N)

Toll VoIP-PSTN Traffic Definition

The term "Toll VoIP-PSTN Traffic" denotes a customer's interexchange voice traffic exchanged with the Telephone Company in Time Division Multiplexing format over PSTN facilities, which originates and/or terminates in Internet Protocol (IP) format. "Toll VoIP-PSTN Traffic" originates and/or terminates in IP format when it originates from and/or terminates to an end user customer of a service that requires IP-compatible customer premises equipment.

(A) Scope

This section governs the identification of Toll VoIP-PSTN Traffic that is required to be compensated at interstate access rates, unless the parties have agreed otherwise, by the Federal Communications Commission in its Report and Order in WC Docket Nos. 10-90, etc., FCC Release No. 11-161 (November 18, 2011) ("FCC Order"). Specifically this section establishes the method of separating Toll VoIP-PSTN Traffic from the customer's traditional intrastate access traffic, so that Toll VoIP-PSTN Traffic can be billed in accordance with the FCC Order. This section of the tariff does not preclude customers from negotiating different rates, terms and conditions governing compensation for Toll VoIP-PSTN traffic. This tariff does not supersede rates, terms and conditions governing compensation for Toll VoIP-PSTN traffic in existing interconnection agreements. Rates, terms and conditions governing compensation for Toll VoIP-PSTN traffic in this tariff apply prospectively.

(B) Toll VoIP-PSTN Traffic identified in accordance with this tariff section will be billed at rates equal to the Telephone Company's applicable tariffed interstate switched access rate. When the Telephone Company receives sufficient call detail to permit it to determine Toll VoIP-PSTN Traffic from the customer's traditional intrastate access traffic of some or all originating and terminating intrastate minutes of use, the Telephone Company will use that call detail to render bills for those minutes of use and will not use Percent VoIP Usage (PVU) factors(s) described in (C), below, to determine the jurisdiction of those minutes of use. When the Telephone Company receives insufficient call detail to determine Toll VoIP-PSTN Traffic from the customer's traditional intrastate access traffic of some or all originating and terminating intrastate minutes of use, the Telephone Company will apply the PVU factor(s) provided by the customer or determined by the Telephone Company as set forth in (C), below, only to those minutes of use for which the Telephone Company does not have sufficient call detail. Such PVU factor(s) will be used until the customer provides an update to its PVU factor(s) as set forth in (C), below.

(N)

Issued: May 30, 2012

Effective: May 30, 2012

In Accordance with Case No. 12-1305-TP-ATA
Issued by the Public Utilities Commission of Ohio
Thomas J. Brockman, President

IDENTIFICATION AND RATING OF VOIP-PSTN TRAFFIC

(N)

(C) Calculation and Application of Percent-VoIP-Usage Factors

The Telephone Company will determine the number of Toll VoIP-PSTN Traffic minutes of use ("MOU") to which interstate rates will be applied under (B) preceding, by applying the Percent VoIP Usage ("PVU") factor to the total intrastate access MOU originated by the customer's end-user in IP format and delivered to the Telephone Company and by applying the PVU factor to the total intrastate access MOU originated by the Customer end-user and terminated by the Telephone Company in IP format. This method shall be utilized until such time that actual call detail records are available to the Telephone Company on a monthly basis with the appropriate indicators accurately set to identify such traffic.

(1) The Telephone Company will calculate and make available to the customer percent VoIP Usage-Telephone Company ("PVU-T") factor delineated by Carrier Identification Code ("CIC") or Operating Company Numbers ("OCNs") representing the whole number percentage of the Telephone Company's total intrastate access MOU that the customer exchanges with the Telephone Company in the state that is terminated in IP format and that would be billed by the Telephone Company as intrastate access MOU.

(2) The customer will calculate and furnish to the Telephone Company a Percentage VoIP Usage-Customer (PVU-C) factor delineated by Carrier Identification Code ("CIC") or Operating Company Numbers ("OCNs") representing the whole number percentage of the customer's total intrastate access MOU that the customer exchanges with the Telephone Company in the state that is sent to the Telephone Company and which originated in IP format and that would be billed by the Telephone Company as intrastate access MOU.

(3) The Telephone Company will use the PVU-C and PVU-T factors to calculate a PVU factor that represents the percentage of total intrastate access MOU exchanged between the Telephone Company and the customer that is originated in IP format by the customer and/or terminated by the Company in IP format. The PVU factor will be calculated as the sum of: (A) the PVU-C factor and (B) the PVU-T factor times (1.0 minus the PVU-C factor).

(N)

Issued: May 30, 2012

Effective: May 30, 2012

In Accordance with Case No. 12-1305-TP-ATA
Issued by the Public Utilities Commission of Ohio
Thomas J. Brockman, President

IDENTIFICATION AND RATING OF VOIP-PSTN TRAFFIC

(N)

- (4) The Telephone Company will apply the PVU factor to the intrastate access MOU exchanged with the customer to determine the number of Toll VoIP-PSTN MOU.

Example 1: The PVU calculation is applied to the customer's intrastate MOU.

$$PVU = PVU-C + (PVU-T \times (1 - PVU-C))$$

The customer reported that their PVU-C as 15%. The Telephone Company's PVU-T is 6%. This results in the following:

$$PVU = 15\% \text{ plus } (6\% \text{ times } (1 - 15\%)) = 20\%$$

This means that 20% of the customer's terminating intrastate MOU will be rated at interstate rates.

- (5) The customer shall not modify their reported PIU factor to account for Toll VoIP-PSTN traffic.

- (6) Basis for the PVU-C shall be as follows:

(a) The customer provided PVU-C shall be based on traffic studies, actual call detail or other relevant and verifiable information (e.g., FCC Form 477). This shall be the case unless otherwise agreed on an individual case basis between the customer and Telephone Company. The customer shall retain call detail records to substantiate the PVU factors developed by the customer pursuant to (C)(7). The retained records shall be furnished to the Telephone Company upon request.

(N)

P.U.C.O. NO. 8

IDENTIFICATION AND RATING OF VOIP-PSTN TRAFFIC

(N)

(7) The customer shall retain for a minimum of six (6) months call detail records that substantiate the PVU-C factors provided to the Telephone Company as set forth in (C), above. Such records shall consist of (i) and (ii), below, if applicable.

- (i) All call detail records such as work papers and/or backup documentation including paper, digital media or any other form of records for billed customer traffic, call information including call terminating address (i.e., called number), the call duration, all originating and terminating trunk groups or access lines over which the call is routed, and the point at which the call enters the customer's network and;
- (ii) If the customer has a mechanized system in place that calculated the PVU, then a description of that system and the methodology used to calculate the PVU-C must be furnished and any other pertinent information (such as but not limited to flowcharts, source code, etc.) relating to such system must also be made available.

(N)

Issued: May 30, 2012

Effective: May 30, 2012

In Accordance with Case No. 12-1305-TP-ATA
Issued by the Public Utilities Commission of Ohio
Thomas J. Brockman, President

P.U.C.O. NO. 8

IDENTIFICATION AND RATING OF VOIP-PSTN TRAFFIC

(N)

(8) If the customer does not furnish the Telephone Company with a PVU-C factor, the Telephone Company will utilize a customer PVU-C of 0% and the PVU will be equal to the Telephone Company's PVU-T.

(D) Initial Implementation of PVU Factors

(1) If the PVU factor is not available and/or cannot be implemented in the Telephone Company's billing systems by the effective date of this tariff provision, once the factor is available and can be implemented, the Telephone Company will adjust the customer's bills to reflect the PVU factors retroactively to December 29, 2011 if the PVU-C factor is provided by the customer to the Telephone Company no later than 30 days from the effective date of this tariff.

(2) The Telephone Company shall provide credits based on the reported PVU-C factors on a quarterly basis until such time as the billing system modifications can be implemented.

(E) PVU Factor Updates

The customer may update the PVU-C and the Telephone Company may update the PVU-T factors quarterly using the method set forth in (C)(1) and (2) preceding. If the customer chooses to submit such updates, it shall forward to the Telephone Company, no later than 15 days after the first of January, April, July and/or October of each year, revised PVU-C and the Telephone Company PVU-T factors based on data for the prior three months, ending the last day of December, March, June and September, respectively. The revised PVU-C factors will serve as the basis for future billing and will be effective on the next bill date, and shall serve as the basis for subsequent monthly billing until superseded by new PVU-C factors. No prorating or back-billing will be done based on the updated PVU-C factors.

If the customer does not supply the revised reports, the Telephone Company will assume the PVU-C percentages to be the same as those provided in the last quarterly report. For those cases in which a quarterly report or an initial PVU-C has never been received from the customer, the Telephone Company will assume the PVU-C percentages to be 0% as set forth in (C)(8).

(F) PVU Factor Verification

(1) Not more than twice in any year, the Telephone Company or the customer (Requesting Party) may request from the other party an overview of the process used to determine the PVU factors, the call detail records, description of the method for determining how the end user originates or terminates calls in IP format, and other information used to determine the PVU factors furnished to the other party in order to validate the PVU factors supplied.

(N)

Issued: May 30, 2012

Effective: May 30, 2012

In Accordance with Case No. 12-1305-TP-ATA
Issued by the Public Utilities Commission of Ohio
Thomas J. Brockman, President

P.U.C.O. NO. 8

IDENTIFICATION AND RATING OF VOIP-PSTN TRAFFIC

The other party shall comply, and shall reasonably supply the requested data and information within 15 days of the Requesting Party's request; and the Requesting Party shall complete the reverification within 15 days of receipt.

(2) The Telephone Company may dispute the customer's PVU-C and the customer may dispute the Company's PVU-T factor based upon:

- (a) A review of the requested data and information provided by the customer.
- (b) A reasonable review of other market information, FCC reports on VoIP lines, such as FCC Form 477 or state level results based on FCC Local Competition Report or other relevant data.
- (c) A change in the reported PVU-C or PVU-T factor by more than five percentage points from the preceding quarter.

(3) If after review of the data and information, the customer and the Telephone Company establish revised PVU factors, the customer and the Telephone Company will begin using those revised PVU factors with the next bill period.

(4) If the dispute is unresolved, the Requesting Party may initiate an audit at its own expense. The Requesting Party shall limit audits of the other party's PVU factor to no more than twice per year. The other party (party receiving the request) may request that the audit be conducted by an independent auditor. In such cases, the associated auditing expenses will be paid by the other party.

(a) In the event that the customer fails to provide adequate records to enable the Requesting Party or an independent auditor to conduct an audit verifying the other party's PVU factors, the Requesting Party will bill the usage for all contested periods using the most recent undisputed PVU factors reported by the other party. These PVU factors will remain in effect until the audit can be completed.

(b) During the audit, the undisputed PVU factors from the previous reporting period will be used by the Requesting Party.

Issued: May 30, 2012

Effective: May 30, 2012

IDENTIFICATION AND RATING OF VOIP-PSTN TRAFFIC

(N)

(c) When a PVU(s) audit is conducted by the Requesting Party or an independent auditor under contract to the Requesting Party, the audit results will be furnished to the other party by Certified U.S. Mail. When a PVU(s) audit is conducted by an independent auditor selected by the other party, the audit results will be furnished to the Requesting Party by Certified U.S. Mail. The Requesting Party will adjust the other party's PVU(s) based upon the audit results. The PVU(s) resulting from the audit shall be applied to the other party's usage for the quarter the audit is completed and the usage for the quarter prior to the completion of the audit. After that time, the other party may report revised PVU(s) pursuant to (C), above. If the revised PVU(s) submitted by the other party represents a deviation of 5 percentage points or more from the audited PVU(s), and that deviation is not due to identifiable reasons, the provisions in (2), (3) and (4), above, may be applied.

(d) If the audit supports the other party's PVU factors, the usage for the contested periods will be adjusted to reflect the other party's audited PVU factors and appropriate credits will be applied.

(e) If, as a result of an audit conducted by an independent auditor, the other party is found to have over-stated its PVU factors by 20 percentage points or more, the Requesting Party shall require reimbursement from the other party for the cost of the audit. Such bill(s) shall be due and paid in immediately available funds within 30 days from receipt and shall carry a late payment penalty as set forth in the Requesting Party's intrastate tariff if not paid within the 30 days.

EXHIBIT B
(Proposed Tariff Sheets)

INTRASTATE ACCESS SERVICE

A. Intrastate Carrier Access Service

1. Doylestown Telephone Company, hereinafter called the concurring company, assents to, adopts and concurs in the regulations, rates and charges for the provision of intrastate Carrier Access Service as specified in the Access Service Tariff, F.C.C. No. 5 filed with the Federal Communications Commission by the National Exchange Carrier Association ("NECA") as such tariff now exists, or as it may be revised, added to or supplemented by superseding sheets or issues; provided, however, that the regulations, rates and charges specified in Section 4, End User Access Service, have been excluded from intrastate customers by order of the Public Utilities Commission of Ohio. The rates, terms, and conditions for Intrastate Carrier Common Line Access Service are set forth in Section 7A herein.
2. (Reserved for future use.) (C)
3. (Carrier Common Line Access Service rates moved to Section 7A herein.)
4. Interexchange billing and collection services, except for recording service, are deregulated. Recording services, other than billing name and address services, while subject to regulation by the Public Utilities Commission of Ohio, are detariffed effective January 1, 1988. Upon conversion of an end office to equal access, billing name and address information or non-presubscribed traffic shall be provided to interexchange carriers upon rates, terms and conditions to be filed with the P.U.C.O.
5. Only for the Expanded Service Area of Rittman and Marshallville Exchanges (as set forth in Section 1 herein) ("Expanded Service Area"), the intrastate switched access rates will be set in accordance with the P.U.C.O.'s Finding and Order issued May 28, 2008 in Case No. 08-117-TP-WVR. The intrastate switched access rates for the Expanded Service Area shall be reduced annually by one third of the difference between the intrastate switched access rates charged by the Telephone Company in the Doylestown Exchange (as "frozen" in 1997) and the current switched access rates set forth in NECA Tariff No. 5, in accordance with the following calculations:
 - Effective February 22, 2010: $\frac{2}{3}$ multiplied by (Telephone Company Doylestown Exchange 1997 frozen intrastate switched access rates minus NECA switched access rates effective February 22, 2010) plus NECA switched access rates effective February 22, 2010;

1. Rates

- a. The following rates and charges apply to the Company's provision of Carrier Toll Restriction Services and are in addition to all other carrier charges as specified elsewhere in the Company's tariffs.

Monthly Rates

Selective Carrier Denial	\$5.00
Residence, per line equipped	
Business, per line equipped	
Trunk, per trunk equipped	

C. FCC Required Access Revisions

Notwithstanding any other provisions of this Tariff and as required by Federal Communications Commission Report and Order in WC Docket 10-90, etc., FCC Release No. 11-161 (November 18, 2011), the Telephone Company shall charge the applicable NECA terminating access rates as now existing and as revised, added to, or supplemented from time to time. This includes carrier common line as set forth in PUCO No. 8, Section 7A, Sheet No. 10.

(R)

(R)

7. Rate Regulations (Continued)

7.5 Determination of Premium Charges (Continued)

(E) The originating Premium Access per minute charge(s) apply to:

- all originating access minutes of use;
 - less those originating access minutes of use associated with FGA Access Services where the off-hook supervisory signaling is forwarded by the IXC's equipment when the called party answers;
 - less all originating access minutes of use associated with calls placed to 700, 800 and 900 numbers;
 - less those originating access minutes of use associated with Wireless Switching Centers (WSCs);
 - plus all originating access minutes of use associated with calls placed to 700, 800 series and 900 numbers for which the IXC furnishes for each month a report of either the number of calls or minutes or a report of the percent of calls or minutes that terminate in a Switched Access Service that is assessed Carrier Common Line charges, and for which a corresponding reduction in the number of terminating access minutes of use has been made as set forth in (D) preceding.

8. Rates

Intrastate carrier common line access service charges shall be as follows:

Premium Access, per minute

Terminating	Pursuant to applicable NECA tariff rates as now existing and as revised, added to, or supplemented from time to time.	(R)
Originating	\$.0150	

P.U.C.O. NO. 8

IDENTIFICATION AND RATING OF VOIP-PSTN TRAFFIC

Toll VoIP-PSTN Traffic Definition

The term "Toll VoIP-PSTN Traffic" denotes a customer's interexchange voice traffic exchanged with the Telephone Company in Time Division Multiplexing format over PSTN facilities, which originates and/or terminates in Internet Protocol (IP) format. "Toll VoIP-PSTN Traffic" originates and/or terminates in IP format when it originates from and/or terminates to an end user customer of a service that requires IP-compatible customer premises equipment.

(A) Scope. This section governs the identification of Toll VoIP-PSTN Traffic that is required to be compensated at interstate access rates, unless the parties have agreed otherwise, by the Federal Communications Commission in its Report and Order in WC Docket Nos. 10-90, etc., FCC Release No. 11-161 (November 18, 2011) ("FCC Order"). This section of the tariff does not preclude customers from negotiating different rates, terms and conditions governing compensation for Toll VoIP-PSTN traffic. This tariff does not supersede rates, terms and conditions governing compensation for Toll VoIP-PSTN traffic in existing interconnection agreements. Rates, terms and conditions governing compensation for Toll VoIP-PSTN traffic in this tariff apply prospectively.

(B) The intrastate terminating switched access rates in this tariff are the same as the interstate rates for terminating switched access. Therefore, no percentage or VoIP factor is necessary to rate the intrastate Toll VoIP-PSTN Traffic, nor are modifications to the rates and/or billing necessary as a result of the Toll VoIP-PSTN provisions of the FCC Order after the effective date of this tariff sheet.

EXHIBIT C

The Applicant hereby modifies its intrastate access service tariff in accordance with the FCC's Report and Order and Further Notice of Proposed Rulemaking, WC Docket Nos. 10-90, et al., FCC No. 11-161 (released November 18, 2011), as well as the Commission's Entries in Case No. 10-2387-TP-COI.

With this filing, the Applicant modifies its applicable terminating access rates to equal those charged for interstate services. Per the FCC's March 26, 2013 Order, DA13-553, which delayed the effective date of interstate tariffs in order to allow for statutory notice, the effective date for its state access tariff to mirror its interstate access rates will be July 2, 2013.
