

Mark,

Thank you so much for taking your valuable time to explain the process. It is apparent that (1) our power production site in Mississippi is connected to a local distribution grid, and (2) not connected to transmission lines that deliver power to Ohio - therefore making Sundial Solar's PUCO application null and void at the present time.

Again, thank you for educating me on the process. I do appreciate it and I want to stay in contact with you. Please proceed with closing our case with the PUCO.

Best,

Will

Will R. Shirley, [E.M.Sc.](#)
