## EXHIBIT C

This application is filed pursuant to section 4901:1-6-32 of the Commission's rules. AT&T Ohio proposes to change the boundary between two of its exchanges, namely the Middletown Exchange and the Monroe Exchange. No other ILEC is involved in this proposed boundary change. The boundary change will move the Monroe Exchange roughly 4,000 feet into the Middletown Exchange, extending then approximately 12,400 feet wide in order to provision service to an undeveloped tract. Presently, there are no customers being served in this tract. Thus, the proposed change does not adversely affect the service being furnished to any existing BLES subscriber. See the attached diagram for a more complete depiction of the proposed boundary change. Further, the Company will work with Staff to ensure the Commission's maps are accurate and accurately reflect this boundary change.

The Company proposes this boundary change to initially accommodate a large commercial customer that will be locating in the tract with service from its Monroe Exchange, which presently has sufficient nearby facilities in place to readily provision the required service. To provision service from the Middletown Exchange would require a costly and time consuming build-out and placement of facilities from the Middletown Central Office. Thus, the public interest would be served by the proposed change.
