Commercial Operation

Dear Mr. Lambeck,

This letter is in response to the Opinion and Order and Certificate issued on December 17, 2012 for the Knox Substation Project, as well as the associated Construction Notice and Letter of Notification on the above captioned projects. In compliance with condition 9 of the Opinion and Order and Certificate, please be advised that these facilities began commercial operation on May 16, 2013. Minor construction activities, primarily maintaining erosion controls while vegetation becomes reestablished in areas disturbed by construction, are still underway and are expected to be completed in a few months. I will provide a notification letter when all construction activities are completed.

If you have any questions regarding this project, please contact me at (330) 761-4268.

Sincerely,

Ted Krauss,
Manager Siting, Survey & Right-of-Way
FirstEnergy Service Company
