INTRASTATE ACCESS SERVICE

A. Intrastate Carrier Access Service

1. Doylestown Telephone Company, hereinafter called the concurring company, assents to, adopts and concurs in the regulations, rates and charges for the provision of intrastate Carrier Access Service as specified in the Access Service Tariff, F.C.C. No. 5 filed with the Federal Communications Commission by the National Exchange Carrier Association ("NECA") as such tariff now exists, or as it may be revised, added to or supplemented by superseding sheets or issues; provided, however, that the regulations, rates and charges specified in Section 4, End User Access Service, have been excluded from intrastate customers by order of the Public Utilities Commission of Ohio. The rates, terms, and conditions for Intrastate Carrier Common Line Access Service are set forth in Section 7A herein.
2. (Reserved for future use.) (C)
3. (Carrier Common Line Access Service rates moved to Section 7A herein.)
4. Interexchange billing and collection services, except for recording service, are deregulated. Recording services, other than billing name and address services, while subject to regulation by the Public Utilities Commission of Ohio, are detariffed effective January 1, 1988. Upon conversion of an end office to equal access, billing name and address information or non-presubscribed traffic shall be provided to interexchange carriers upon rates, terms and conditions to be filed with the P.U.C.O.
5. Only for the Expanded Service Area of Rittman and Marshallville Exchanges (as set forth in Section 1 herein) ("Expanded Service Area"), the intrastate switched access rates will be set in accordance with the P.U.C.O.'s Finding and Order issued May 28, 2008 in Case No. 08-117-TP-WVR. The intrastate switched access rates for the Expanded Service Area shall be reduced annually by one third of the difference between the intrastate switched access rates charged by the Telephone Company in the Doylestown Exchange (as "frozen" in 1997) and the current switched access rates set forth in NECA Tariff No. 5, in accordance with the following calculations:
 - Effective February 22, 2010: $\frac{2}{3}$ multiplied by (Telephone Company Doylestown Exchange 1997 frozen intrastate switched access rates minus NECA switched access rates effective February 22, 2010) plus NECA switched access rates effective February 22, 2010;

P.U.C.O. NO. 8

IDENTIFICATION AND RATING OF VOIP-PSTN TRAFFIC

Toll VoIP-PSTN Traffic Definition

The term "Toll VoIP-PSTN Traffic" denotes a customer's interexchange voice traffic exchanged with the Telephone Company in Time Division Multiplexing format over PSTN facilities, which originates and/or terminates in Internet Protocol (IP) format. "Toll VoIP-PSTN Traffic" originates and/or terminates in IP format when it originates from and/or terminates to an end user customer of a service that requires IP-compatible customer premises equipment.

(A) Scope. This section governs the identification of Toll VoIP-PSTN Traffic that is required to be compensated at interstate access rates, unless the parties have agreed otherwise, by the Federal Communications Commission in its Report and Order in WC Docket Nos. 10-90, etc., FCC Release No. 11-161 (November 18, 2011) ("FCC Order"). This section of the tariff does not preclude customers from negotiating different rates, terms and conditions governing compensation for Toll VoIP-PSTN traffic. This tariff does not supersede rates, terms and conditions governing compensation for Toll VoIP-PSTN traffic in existing interconnection agreements. Rates, terms and conditions governing compensation for Toll VoIP-PSTN traffic in this tariff apply prospectively.

(B) The intrastate terminating switched access rates in this tariff are the same as the interstate rates for terminating switched access. Therefore, no percentage or VoIP factor is necessary to rate the intrastate Toll VoIP-PSTN Traffic, nor are modifications to the rates and/or billing necessary as a result of the Toll VoIP-PSTN provisions of the FCC Order after the effective date of this tariff sheet.
