

Question 1: In section I.1 the nameplate capacity is listed as 0.0106 MW. But in section G.1 you state the facility has forty six 230 W panels. Since $46 \times 230\text{W} = 10,580\text{ W}$ or 0.01058 MW. Is the nameplate capacity 0.01058 MW?

Answer 1: precise figure is .01058 MW. I mistakenly rounded up.
