Village of Addyston has arranged a lower, fixed price for electric supply

Dear Village of Addyston Electric Customer,

Voters in the Village of Addyston have approved an electric governmental aggregation program in 2012 to bring citizens together as a buying group and lower the cost of electricity. Through governmental aggregation, savings are possible on the generation and transmission service of your electricity (the largest portion of your electric bill) by buying from a retail electric supplier certified by the Public Utilities Commission of Ohio. **Your local utility, DUKE ENERGY OHIO, continues to handle the distribution of the power to your home, restores power after outages and maintains your lines.**

It's Smart.

Village of Addyston has researched competitive electricity pricing options. DP&L Energy, an affiliate of Dayton Power & Light, was selected to provide you with savings on your electric generation through May 2014. DP&L Energy is an Ohio-based company. There is no cost for enrollment and you will not be charged a switching fee.

It's Fair.

As a member of the aggregation group, your price will be 4.55 cents per kilowatt-hour for electric generation charges which is approximately 25% less than Duke's current Price-To-Compare¹. You will begin to see savings from DP&L Energy once your enrollment has been established after acceptance by DUKE ENERGY OHIO in approximately 30 to 45 days and depending on when DUKE ENERGY OHIO reads your meter. You will continue to receive a single, easy-to-read bill from DUKE ENERGY OHIO with your DP&L Energy charges included.

No action is needed to take advantage of the savings offered through your community program. However, if you wish to be excluded from the discounted rate, you must return the enclosed opt-out form by July 22, 2013. If you choose to opt-out of the aggregation prior to the commencement of the program, you will be served by the utility's standard service offer unless you choose an alternate provider. If you do not opt out at this time, you will receive a notice at least every three years asking if you wish to remain in the program.

It's Simple.

DUKE ENERGY OHIO will send you a letter confirming your selection of DP&L Energy as your electric generation provider and grant you seven days from the postmark date to cancel your contract with DP&L Energy. Enclosed is a sample copy of the utility letter. To remain in the Village of Addyston electric governmental aggregation program and ensure your savings, you do not have to take any action when this letter arrives—it serves as your confirmation that you are successfully enrolled for savings!

If you have any questions, please call DP&L Energy at 800-319-1356 Monday through Friday, 8 a.m. to 5 p.m.

Regards,

Daniel L. Pillow, Mayor
Village of Addyston

¹Savings based on Duke Energy Ohio standard offer of 5.99¢ per kilowatt-hour (kWh) as of May, 2013. Your actual savings will vary based on usage. DP&L Energy's pricing is not regulated by the Public Utilities Commission of Ohio. This offer is subject to change by DP&L Energy.

Electric Aggregation in the Village of Addyston - Frequently Asked Questions

What is governmental aggregation of electricity?

Ohio's laws allow for communities – such as townships, cities and counties – to form aggregated buying groups on behalf of their citizens. Savings are possible through governmental aggregation, where community officials bring together residential and small commercial customers to gain group buying power for the purchase of electricity from a retail electric generation provider. Voters in the Village of Addyston authorized the community leaders to establish a government aggregation program for the community.

What will my rate be under the aggregation program?

The Village of Addyston has negotiated a two year fixed rate of \$.04550/kWh for generation from DPL Energy for all residential customers and commercial customers with annual usage under 700,000 kWh. To estimate your month's savings associated with this program, multiply your typical monthly usage against the difference between \$.04550 and the "Price to Compare" identified on your utility invoice. The "Price to Compare" is the portion of your total electric bill associated with your generation charges, and changes based on your utility's rates.

What do I need to do to be included in the aggregation program?

You do not need to do anything to receive the discounted pricing under this program. You may choose to remain part of the aggregation program and begin receiving your discount simply by not returning the opt-out form.

What if I don't want to participate?

Since all eligible residential and small commercial customers are automatically enrolled in the governmental aggregation program, those customers who do not want to participate are given the opportunity to opt out. By returning an opt-out form by the due date, you can choose not to be enrolled as an electric generation customer of the community's competitive electric generation supplier.

How will billing be handled?

You will receive one bill from Duke Energy Ohio, Inc. (the utility) that contains your charges for distribution and maintenance service from the utility as well as DPL Energy's charges for generation.

Who do I call if I have a problem with my electric service?

If you have an outage, see fallen power lines, or require emergency repairs, you will continue to contact Duke Energy Ohio, Inc. at 1-800-544-6900.

Who is DPL Energy?

DPL Energy is a competitive retail supplier of electricity based in Ohio and has been helping customers save money on their energy costs since 2001. DPL Energy sells electricity to customers at market-based prices rather than the regulated prices offered by utilities. DPL Energy and The Dayton Power and Light Company (a regulated Ohio electric utility) are both owned by the same parent company, DPL Inc. Although DPL Energy and The Dayton Power and Light Company are affiliated, they are operated independently per the rules and regulations of the Public Utilities Commission of Ohio.

What is the toll-free number for questions?

If you have any questions, please call DPL Energy Monday through Friday between 8am-5pm; Residential – 1-800-319-1356 OR Commercial – 1-800-319-1324.

In return, the Customer agrees to receive and pay for that Service. DPLER's provision of the Service herein is subject only to Force Majeure. If you have any questions regarding the Duke Energy Ohio, Inc. charges, please contact Duke Energy Ohio, Inc. directly at 1-800-544-6900. Failure to pay your Duke Energy Ohio, Inc. charges may result in disconnection as provided for in the Duke Energy Ohio, Inc. tariff. If you do not pay your bill on time, you may incur late fees or automatically be returned to Duke Energy Ohio, Inc.'s standard offer service. You may also forfeit your ability to choose another electric generation provider until arrearages are paid. We may cancel this Agreement upon fourteen (14) days written notice for non-payment.
7. **Actions of Governmental and Regulated Entities** - If action is taken by Duke Energy Ohio, Inc., applicable regional transmission organization, transmission provider, or any federal, state or local governmental authorities which materially changes the amounts charged by such entities to us or charged by such entities to our wholesale supplier and charged to us, or which materially changes the manner in which we provide Service to you, we may, in our sole discretion, elect to adjust the price for Service under this Agreement to account for any such cost increases or other changes.
