Re: Notice of Comlink, LLC d/b/a Netrino, L.L.C. ("Comlink") request for adoption of an Interconnection Agreement with Cincinnati Bell in the State of Ohio

Gary:

This letter serves as written notice of Comlink's intent to request the adoption of an Interconnection Agreement with Cincinnati Bell in the State of Ohio pursuant to 47 USC §252(i).

On May 31, 2013 in Case No. 13-1145-TP-ACE, Comlink filed an Application with the Public Utilities Commission of Ohio ("Commission") for authority to become a licensed CLEC in the State of Ohio. One of the requirements for the approval of an Application is the submission of a "bona fide" request for the adoption or negotiation of an ICA pursuant to 47 USC §251/252. Upon approval, Comlink will provide Cincinnati Bell with a copy of the certification.

Exhibit A1 (Public Interest Explanation)

Comlink's provision of local and access service is targeted to business and residential customers. It will encourage, through competition, the efficient use of the local exchange telecommunications networks. Customers will have more alternatives to choose from and they will benefit from general improvements in price, options and features created by competitive pressures.

Enhanced competition in telecommunications services will likely further promote economic development in Ohio. Competition generally lowers prices, creates incentives to offer more innovative services and to deliver more responsive customer service.

The granting of this Application is also expected to convince other local telecommunications providers to improve their existing services, increase the quality and efficiency of their operations, and introduce groundbreaking services of their own. In addition to this, the approval of this Application will not negatively affect the incumbent carriers' service.

Local exchange service competition will also stimulate the demand for the services supplied by all local service carriers, including those of the incumbent carriers.

As shown above, approval of this Application will deliver substantial benefits to consumers in the state of Ohio in terms of carrier selection, price, enhanced reliability, responsiveness and the launching of new services.
