Motion for waiver(s) filed affecting this case? ☐ Yes ☒ No [Note: Waivers may toll any automatic timeframe.]

**Notes:**

Section I and II are Pursuant to Chapter [4901:1-6](#) OAC.

Section III – Carrier to Carrier is Pursuant to [4901:1-7](#) OAC, and Wireless is Pursuant to [4901:1-6-24](#) OAC.

Section IV – Attestation.

- (1) Indicate the Carrier Type and the reason for submitting this form by checking the boxes below.
- (2) For requirements for various applications, see the identified section of Ohio Administrative Code Section 4901 and/or the supplemental application form noted.
- (3) Information regarding the number of copies required by the Commission may be obtained from the Commission's web site at [www.puco.ohio.gov](http://www.puco.ohio.gov) under the docketing information system section, by calling the docketing division at 614-466-4095, or by visiting the docketing division at the offices of the Commission.
- (4) An Incumbent Local Exchange Carrier (ILEC) offering basic local exchange service (BLES) outside its traditional service area should choose CLEC designation when proposing to offer BLES outside its traditional service area or when proposing to make changes to that service.

**All Filings that result in a change to one or more tariff pages require, at a minimum, the following exhibits.**

Exhibit	Description:
A	The tariff pages subject to the proposed change(s) as they exist before the change(s)
B	The Tariff pages subject to the proposed change(s), reflecting the change, with the change(s) marked in the right margin.
C	A short description of the nature of the change(s), the intent of the change(s), and the customers affected.
D	A copy of the notice provided to customers, along with an affidavit that the notice was provided according to the applicable rule(s).

North Inc. for a Commission Determination	)	
Pursuant to Ohio Revised Code	)	
Section 4927.12(C)(3)	)	

**APPLICATION OF FRONTIER NORTH INC. FOR A COMMISSION**  
**DETERMINATION PURSUANT TO OHIO REVISED CODE SECTION 4927.12(C)(3)**

Frontier North Inc. (“Frontier”), the applicant in this proceeding, is a telephone company providing public telecommunications service to approximately 410,000 retail access line in its local service area in the State of Ohio.

Frontier submits this application and supporting memorandum, including Exhibits 1 and 2 attached hereto, pursuant to R.C. § 4927(C)(3) for a determination that it demonstrates that two or more alternative providers offer competing service to the basic local exchange service offered by Frontier in the attached exchanges, regardless of the technology and facilities used by the alternative provider, the alternative provider’s location, and the extent of the alternative provider’s service area within the exchange area. For this purpose, an alternative provider includes a telephone company, including a wireless service provider, a telecommunications carrier, and a provider of internet protocol-enabled services, including voice-over-internet-protocol.

Frontier demonstrates herein that it meets the statutory criterion in each of the exchanges included in this application. The Commission should either issue an order granting the application or allow it to be granted under the automatic approval process specified in R.C. § 4927.12(C)(3)(b).

Respectfully submitted,

/s/ Rachel G. Winder  
Rachel G. Winder  
Manager, Government and Regulatory Affairs  
Frontier Communications, Inc.

**BEFORE  
THE PUBLIC UTILITIES COMMISSION OF OHIO**

In the Matter of the Application of Frontier	)	Case No. 13-1528-TP-BLS
North Inc for a Commission Determination	)	
Pursuant to Ohio Revised Code	)	
Section 4927.12(C)(3)	)	

**MEMORANDUM IN SUPPORT OF APPLICATION**

Frontier submits this memorandum in support of the application filed in the above-captioned case. The application is filed pursuant to R.C. § 4927.12 (C)(3)(a) (effective September 13, 2010), which provides as follows:

If the commission has not made a prior determination that the exchange area qualified for alternative regulation of basic local exchange service under Chapter 4901:1-4 of the Ohio Administrative Code as that chapter existed on the effective date of this section, an incumbent local exchange carrier may not alter its rates for basic local exchange service upward for that exchange area unless the carrier first applies to the commission and the commission determines that the application demonstrates that two or more alternative providers offer, in the exchange area, competing service to the basic local exchange service offered by an incumbent local exchange carrier in the exchange area, regardless of the technology and facilities used by the alternative provider, the alternative provider's location, and the extent of the alternative provider's service area within the exchange area. An alternative provider includes a telephone company, including a wireless service provider, a telecommunications carrier, and a provider of internet protocol-enabled services, including voice over internet protocol.

For each of the exchanges included in the application, the Commission had not made a prior determination that the exchange area qualified for alternative regulation of residential basic local exchange service ("BLES") under Chapter 4901:1-4 of the Ohio Administrative Code as that chapter existed on the effective date of that section, which was September 13, 2010. This application is being filed in compliance with that provision, and it demonstrates that two or more providers offer, in each of the exchange areas, competing service to the basic local exchange

service offered by Frontier North, the incumbent local exchange carrier in the exchange area. Under the statute, this showing can be made regardless of the technology and facilities used by the alternative provider, the alternative provider's location, and the extent of the alternative provider's service area with the exchange area. The law further provides as follows:

Upon the filing of the application under division (C)(3)(a) of this section, the commission shall be deemed to have found that the application meets the requirements of that division unless the commission, within 30 days after the filing of the application, issues an order finding that the requirements have not been met.

In addition, in PUCO Case No. 12-3127-TP-BLS, the Commission ruled that the exchanges in Frontier North territory have previously met the requirements of Section 4927.12(C)(12), on January 4, 2013, thirty-one days after an application for a competitive designation was docketed seeking a competitive designation for B1 business rates.<sup>1</sup>

Also, on May 6, 2013, Frontier Communications informed the Staff of the PUCO and the Ohio Consumers' Counsel, the Joint Applicants of the Stipulation in Case No. 09-454-TP-ACO, that Frontier had met the requirements and conditions of the Broadband Program as was required by the Stipulation and therefore, Frontier is authorized to file an application to pursue a right or opportunity to alter Tier I Basic Local Exchange Rates for residential customers.<sup>2</sup>

### **Exhibit 1 – Matrix of Competitors by Exchange**

As a guide to those reviewing the application, a matrix identifying the exchanges, for which Frontier seeks a determination under this application, and a partial listing of the competitors providing service in those exchanges is included. Those exchanges that are

---

<sup>1</sup> PUCO Case No. 12-3127-TP-BLS, Entry on Rehearing, Section (6), March 6, 2013.

<sup>2</sup> PUCO Case No. 09-454-TP-ACO Stipulation and Recommendation - Joint Applicants, Staff and The Office of the Ohio Consumers' Counsel

identified in bold font have previously qualified for alternative regulation of basic local exchange service in Case No. 08-989-TP-BLS<sup>3</sup>.

## **Exhibit 2 – Affidavit with Supporting Information**

In this exhibit, Frontier North, Inc. demonstrates how it meets the applicable statutory criterion. This information is contained within the affidavit of Rachel G. Winder, State Manager of Government and External Affairs, attesting to the veracity of the data upon which the application is premised.

The data in the exhibit meets the statutory criterion using several sources. In collecting information on alternative provider activity in its exchanges, Frontier North, Inc. reviewed and documented publicly available data. Most competitive carriers provide web tools that permit an inquiry about the availability of their services in specific areas. Sun ISP, for example, is a provider that specializes in VoIP over Satellite service meeting the statutory requirements in R.C. § 4927.12 (C)(3)(a) which require:

“...that two or more alternative providers offer, in the exchange area, competing service to the basic local exchange service offered by an incumbent local exchange carrier in the exchange area, regardless of the technology and facilities used by the alternative provider, the alternative provider’s location, and the extent of the alternative provider’s service area within the exchange area.”

Sun ISP specifically states on its website:

**“Can’t find your desired location in the list?** You may request for SunISP’s availability in your area. We can provide the service in 10 business days.”

---

<sup>3</sup> In PUCO Case No. 08-989-TP-BLS the commission made a determination that the following exchange areas qualified for alternative regulation of basic local exchange service under Chapter 4901:1-4 of the Ohio Administrative Code as that chapter previously existed: Ashland, Athens, Bowling Green, Brunswick, Cambridge, Circleville, Delaware, Englewood, Marion, Medina, Montrose, New Philadelphia, Norwalk, Plain City, Port Clinton, Sylvania, Tipp City, Trotwood, Troy, Wadsworth, and Wilmington.

**Conclusion**

Frontier North, Inc. has demonstrated that it meets the statutory criterion in each of the exchanges included in this application. The Commission should either issue an order granting the application or allow it to be granted under the automatic approval process specified in R.C. § 4927.12 (C)(3)(b).

## SUN ISP

<http://www.sun-isp.com>

### Business and Residential Plans

- [SunISP](http://www.voip-info.org/wiki/view/VOIP+over+Satellite) VOIP and Internet Satellite have converged to become VOIP over Satellite. Sun-ISP is a Satellite Internet and VOIP provider serving the global market. Satellite internet and VOIP or Satellite VOIP has riled much skepticism to quality due to packet loss. SunISP was founded with the goal in mind of replacing this skepticism with crystal clear VOIP over Satellite to many Satellite users. Hughes and VOIP over Satellite work perfectly because our system has been configured to run on only 16Kbps of bandwidth unlike other providers. Starband and our VOIP Satellite along with Wild Blue Satellite VOIP work perfectly as well with minimum latency or delay. VOIP over Satellite is the ultimate solution to rural communities as international countries with limited dedicated infrastructure. We are a friendly VOIP over Satellite as well as standard VOIP company who ensures that a welcoming voice will answer on the other end when dialing for Support.
  - <http://www.voip-info.org/wiki/view/VOIP+over+Satellite>

### **for VoIP Services**

Make calls to any one of the 50 states of the USA, Canada or anywhere in the world for pennies. By using **SunISP** Broadband, DSL **or Satellite Internet Access**, you don't even need expensive hardware.

## Satellite Coverage

Welcome to our Satellite Coverage, where you can find detailed coverage information from Hughesnet, BroadSAT and StarBand. Based on your location anywhere in the world we can provide coverage for North America, Caribbean, West Indies and Europe.

Providing VoIP and Satellite anywhere in the world is what we do! No matter if you are in Latin America, the Caribbean, Asia or even in Europe we will provide the right Service and hardware at a reasonable cost.

### As low as \$9.95 per month

Staying in touch with family and friends has never been this easy! Forget those annoying ten-digits security codes. Calling cards are a thing from the past. Simply plug in your phone system to your existing internet access and voila.... Best of all, calls within the network is free.

SunISPs customers in the Caribbean and Latin America can take full advantage of our VoIP network by signing up for our talk plan. All that is required is an existing Internet access, DSL, Cable **or Satellite**. For pennies per minute, SunISP customers can place high quality telephone calls anywhere in the world.

Need to call Europe or even Latin America? We have the right price for you! SunISP allows you the chance to benefit like thousands of our clients do every day by using our Global Rates, our rates are always dropping so we are constantly changing the prices so that you get more for your buck.

### Can't find your desired location in the list?

You may request for SunISP's availability in your area.

We can provide the service in 10 business days.

## SKYPE

## Skype From Your Rv With Satellite Internet

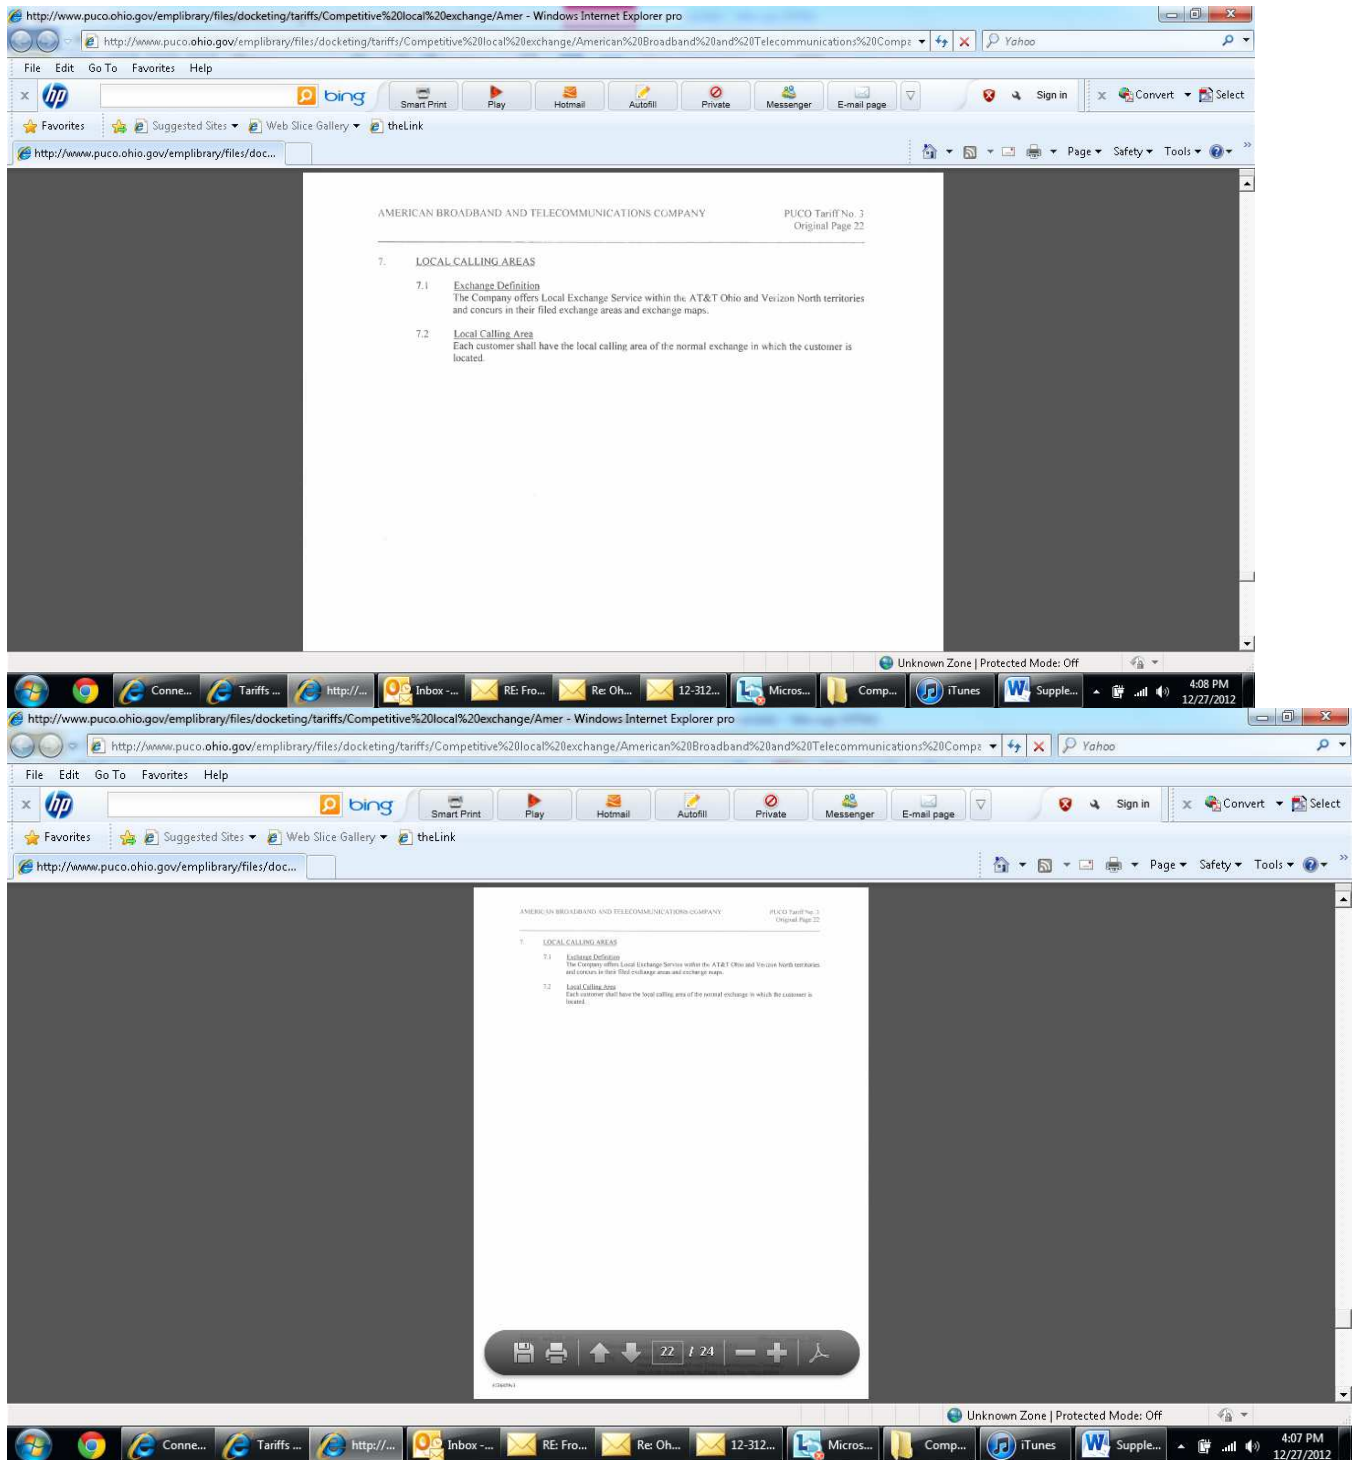

<http://www.articlesbase.com/internet-articles/skype-from-your-rv-with-satellite-internet-2029817.html>

---

Skype is a [VoIP computer](#) program that allows people to make voice calls over the Internet. It can be a great tool for people who travel a lot, who can use it to keep in touch with people from home without having to pay for phone cards or expensive long-distance and international fees. If you are on the road a lot in an RV, you may feel disconnected from home at times. If you don't have frequent access to a wired DSL or cable connection, you can access Skype with the help of [satellite Internet](#).

Skype can be used almost anywhere in the world where users have access to a high-speed Internet connection. RVers, who often spend extended periods of time outside the range of wired high-speed Internet connections like DSL and cable and sometimes find it hard to get cell phone service or find a pay phone, can take advantage of Skype technology by getting **satellite Internet**.

SunISPs customers in the Caribbean and Latin America can take full advantage of our VoIP network by signing up for our talk plan. All that is required is an existing Internet access, DSL, Cable **or Satellite**. For pennies per minute, SunISP customers can place high quality telephone calls anywhere in the world.

Need to call Europe or even Latin America? We have the right price for you! SunISP allows you the chance to benefit like thousands of our clients do every day by using our Global Rates, our rates are always dropping so we are constantly changing the prices so that you get more for your buck.

### Can't find your desired location in the list?

You may request for SunISP's availability in your area.

We can provide the service in 10 business days.

## HOW TO USE VONAGE

Once you've signed up and chosen a calling plan, you'll receive a FREE Vonage Box™ in the mail. At this point, you'll be three steps and about five minutes away from using Vonage.

### Easy 3-Step Vonage Setup

- 1 Plug your Vonage Box™ into your existing high-speed Internet connection.
- 2 Plug any home phone into the Vonage Box™.
- 3 Pick up your phone and start dialing.

Seriously, it's that easy.

## CHOOSE A CALLING PLAN

We have plans for both international and domestic calling. Find the one that's right for you.

### International Calling Plans

Unlimited\* calling to over 60 countries for one flat rate.  
[Learn More](#)

### Domestic Calling Plans

All plans include calls to the U.S., Canada and Puerto Rico.

SUN ISP

ATT

Clear Rate

SUN ISP

<http://www.sun-isp.com>

## Business and Residential Plans

- [SunISP](#) VOIP and Internet Satellite have converged to become VOIP over Satellite. Sun-ISP is a Satellite Internet and VOIP provider serving the global market. Satellite internet and VOIP or Satellite VOIP has riled much skepticism to quality due to packet loss. SunISP was founded with the goal in mind of replacing this skepticism with crystal clear VOIP over Satellite to many Satellite users. Hughes and VOIP over Satellite work perfectly because our system has been configured to run on only 16Kbps of bandwidth unlike other providers. Starband and our VOIP Satellite along with Wild Blue Satellite VOIP work perfectly as well with minimum latency or delay. VOIP over Satellite is the ultimate solution to rural communities as international countries with limited dedicated infrastructure. We are a friendly VOIP over Satellite as well as standard VOIP company who ensures that a welcoming voice will answer on the other end when dialing for Support.
  - <http://www.voip-info.org/wiki/view/VOIP+over+Satellite>

### **for VoIP Services**

Make calls to any one of the 50 states of the USA, Canada or anywhere in the world for pennies. By using [SunISP](#) Broadband, DSL [or Satellite Internet Access](#), you don't even need expensive hardware.

## **Satellite Coverage**

Welcome to our Satellite Coverage, where you can find detailed coverage information from Hughesnet, BroadSAT and StarBand. Based on your location anywhere in the world we can provide coverage for North America, Caribbean, West Indies and Europe.

Providing VoIP and Satellite anywhere in the world is what we do! No matter if you are in Latin America, the Caribbean, Asia or even in Europe we will provide the right Service and hardware at a reasonable cost.

### **As low as \$9.95 per month**

Staying in touch with family and friends has never been this easy! Forget those annoying ten-digits security codes. Calling cards are a thing from the past. Simply plug in your phone system to your existing internet access and voila.... Best of all, calls within the network is free.

SunISPs customers in the Caribbean and Latin America can take full advantage of our VoIP network by signing up for our talk plan. All that is required is an existing Internet access, DSL, Cable [or Satellite](#). For pennies per minute, SunISP customers can place high quality telephone calls anywhere in the world.

Need to call Europe or even Latin America? We have the right price for you! SunISP allows you the chance to benefit like thousands of our clients do every day by using our Global Rates, our rates are always dropping so we are constantly changing the prices so that you get more for your buck.

### **Can't find your desired location in the list?**

You may request for SunISP's availability in your area.

We can provide the service in 10 business days.

# Bergholz Exchange

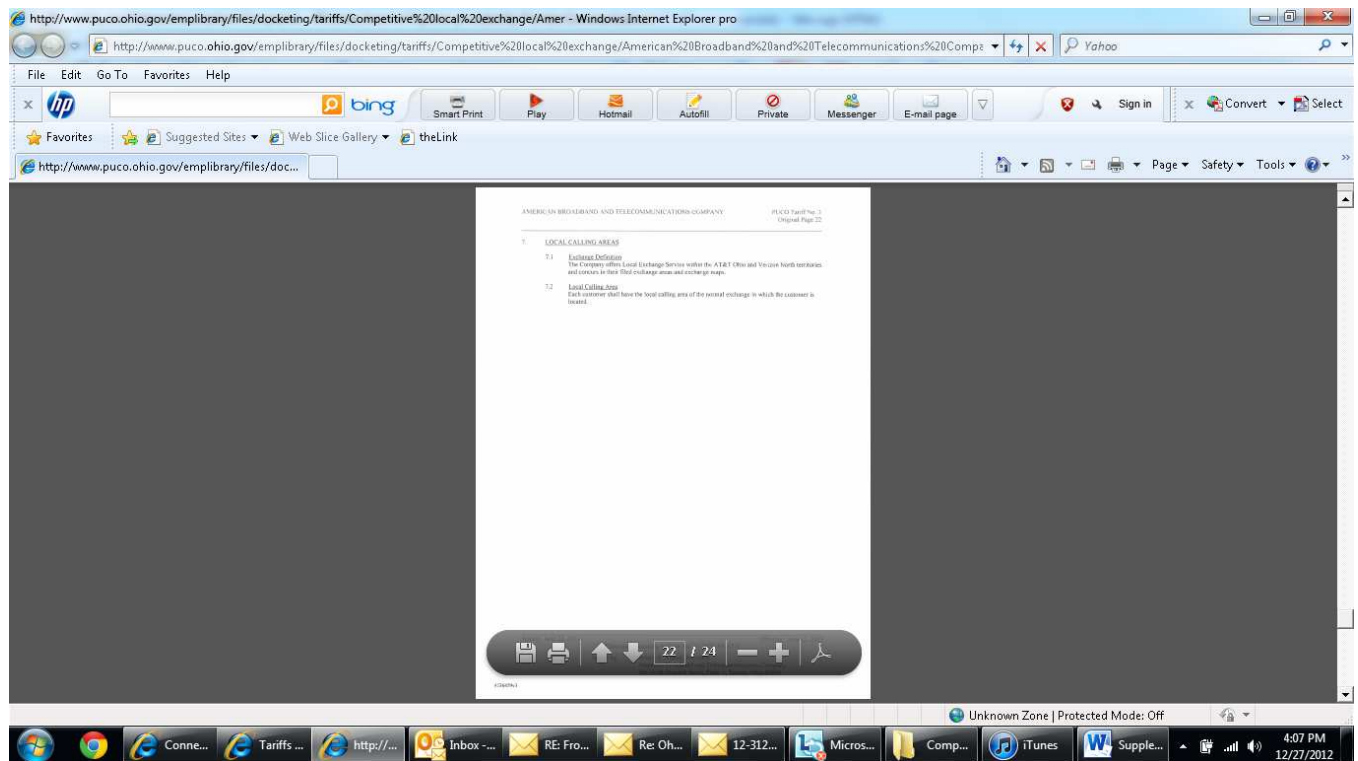

American Broadband and  
Telecommunications

Sun ISP

## American Broadband and Telecommunications

## SUN ISP

<http://www.sun-isp.com>

### Business and Residential Plans

- [SunISP](http://www.voip-info.org/wiki/view/VOIP+over+Satellite) VOIP and Internet Satellite have converged to become VOIP over Satellite. Sun-ISP is a Satellite Internet and VOIP provider serving the global market. Satellite internet and VOIP has riled much skepticism to quality due to packet loss. SunISP was founded with the goal in mind of replacing this skepticism with crystal clear VOIP over Satellite to many Satellite users. Hughes and VOIP over Satellite work perfectly because our system has been configured to run on only 16Kbps of bandwidth unlike other providers. Starband and our VOIP Sattellite along with Wild Blue Satellite VOIP work perfectly as well with minimum latency or delay. VOIP over Satellite is the ultimate solution to rural communities as international countries with limited dedicated infrastructure. We are a friendly VOIP over Satellite as well as standard VOIP company who ensures that a welcoming voice will answer on the other end when dialing for Support.
  - <http://www.voip-info.org/wiki/view/VOIP+over+Satellite>

### for VoIP Services

Make calls to any one of the 50 states of the USA, Canada or anywhere in the world for pennies. By using **SunISP** Broadband, DSL **or Satellite Internet Access**, you don't even need expensive hardware.

## Satellite Coverage

Welcome to our Satellite Coverage, where you can find detailed coverage information from Hughesnet, BroadSAT and StarBand. Based on your location anywhere in the world we can provide coverage for North America, Caribbean, West Indies and Europe.

Providing VoIP and Satellite anywhere in the world is what we do! No matter if you are in Latin America, the Caribbean, Asia or even in Europe we will provide the right Service and hardware at a reasonable cost.

### As low as \$9.95 per month

Staying in touch with family and friends has never been this easy! Forget those annoying ten-digits security codes. Calling cards are a thing from the past. Simply plug in your phone system to your existing internet access and voila.... Best of all, calls within the network is free.

SunISPs customers in the Caribbean and Latin America can take full advantage of our VoIP network by signing up for our talk plan. All that is required is an existing Internet access, DSL, Cable **or Satellite**. For pennies per minute, SunISP customers can place high quality telephone calls anywhere in the world.

Need to call Europe or even Latin America? We have the right price for you! SunISP allows you the chance to benefit like thousands of our clients do every day by using our Global Rates, our rates are always dropping so we are constantly changing the prices so that you get more for your buck.

### Can't find your desired location in the list?

You may request for SunISP's availability in your area.

We can provide the service in 10 business days.
