Subject: Tell the Kasich Administration: We need Turning Point Solar

Sep 12, 2013

Chairman Todd Snitchler
OH

Dear Chairman Snitchler,

Ohio's dependence on coal and oil has gone on too long. In the 21st century we shouldn't be getting 82 percent of our electricity by burning coal. Its time Ohio moved forward to embrace proven pollution-free technologies like solar power. Turning Point Solar is clean, ready-to-go and a genuine step in the right direction. Please move Ohio's clean energy future forward by approving Turning Point Solar.

This is a no-brainer! Even if you don't believe that pollution is related to climate change (which you should), you can't deny that coal and natural gas as non-renewable energy sources, whereas solar power is essentially endless. How can a person who believes in the Free Market justify investing in coal and natural gas, when solar energy is an option!

Sincerely

Joe Lalonde
