We had been in American Electric Power customer for over 50 years. I feel I was over charged repeatedly by American Electric Power for over a 7 and a half year period beginning in 2003. We were told that there was a faulty meter and also a short in one of the lines going into the meter. Therefore giving a false high number reading for the billing. I would like to be reimbursed for the over charging that American Electric Power did from January 2003 to March of 2011.

Respectfully Yours,

Randy Topolosky
