Demonstration of Alternative Providers

Pursuant to R.C. 4917.12 (C)(3)(a) and Ohio Administrative Code 4901:1-6-14, Germantown Independent Telephone Company d/b/a FairPoint Communications ("FairPoint") may not increase its Exchange BLES rates upward unless the Incumbent Local Exchange Carrier ("ILEC") first applies to the Ohio Utilities Commission ("Commission") and the Commission determines that the application demonstrates that two or more alternative providers offer in the exchange area, competing service to the BLES offered by the ILEC in the exchange area, regardless of the technology and facilities used by the alternative provider, the alternative provider's location, and the extent of the alternative provider's service area within the exchange area. An alternative provider under R.C. 4927.12(C)(3)(a), includes a telephone company, including a wireless service provider, a telecommunications carrier and a provider of internet protocol-enabled services, including voice over internet protocol.

The Commission has not previously determined if FairPoint Exchanges qualified for alternative regulation of BLES. Pursuant to R.C. 4927.12(C)(3)(a), the attached information demonstrates that two or more alternative providers offer competitive service to BLES service offered by FairPoint. The alternate providers are Verizon Wireless, Sprint and AT&T Wireless.
