Case No. 12-0884-EL-GAG
Corrected Opt-Out Notice

Dear Ms. McNeal:

On January 10, 2014, I filed an opt-out notice regarding the above-referenced case. The opt-out letter attached to that filing contained a non-material, typographical error. We have since corrected that error. Accordingly, please find the attached corrected opt-out notice which will still be mailed to all eligible customers on January 27, 2014. Thus, the twenty-one (21) day opt-out period will remain the same as stated in my previous correspondence.

Please contact the undersigned with any questions regarding this filing.

Sincerely,

Margeaux Kimbrough

City of Belpre is offering you savings on your electric costs.

Dear City of Belpre Resident,

Because voters in Belpre approved an electric aggregation program in 2011 to allow officials to negotiate better energy rates, you could soon be saving money on your electric bill.

Government aggregation programs allow communities to pool citizens together as a buying group to get a better deal on generation and transmission rates (the largest portion of your electric bill) from a retail electric supplier. **Your local utility, The American Electric Power (AEP) Company, will continue to deliver electricity to your home, restore power after outages, and perform maintenance and customer service.**

After researching options, the City of Belpre selected retail electric supplier DP&L Energy, an affiliate of The Dayton Power and Light Company. The Ohio-based company, certified by the Public Utilities Commission of Ohio (PUCO) will supply you with savings through July, 2014.

It's Smart.

You pay no enrollment or switching fees. And you get one easy-to-read bill from The American Electric Power (AEP) Company with your DP&L Energy charges included. If you are currently on budget billing, you will automatically be enrolled in budget billing.

It's Fair.

Your Utility	Retail Electric Supplier	Fixed Price	Term End Date	Opt-Out Deadline	Early Termination Fee
AEP Ohio (Ohio Power)	DP&L Energy	5.90¢ per kWh	July, 2014	February 17, 2014	\$150

As a member of an aggregation group, you will start seeing savings from DP&L Energy within 30-45 days after The American Electric Power (AEP) Company accepts your enrollment, depending on when your meter is read. Your savings could start as early as March.

It's Simple.

No action is needed to take advantage of the savings offered through your community program. However, if you wish to be excluded from this discounted rate, you must return the enclosed opt-out form by February 17, 2014. If you decide to opt-out of the aggregation before the program starts, you will be served by the utility's standard service offer unless you choose an alternate provider. If you decide to leave the aggregation program at any other time, the service you receive from the utility may not be under the same rates, terms and conditions that apply to other customers receiving generation from The American Electric Power (AEP) Company. If you do not opt-out at this time, you will receive a notice at least every three years asking if you wish to remain in the program.

If you do not opt-out, The American Electric Power (AEP) Company will send you a letter confirming that you selected DP&L Energy as your electric generation provider (see attached sample letter). You have seven days from the postmark date of such letter to cancel your contract with DP&L Energy if you do not want to be part of the savings program. **To start seeing savings through the City of Belpre electric aggregation program, you don't have to do anything when your letter arrives.**

If you have any questions, please call DP&L Energy at 866-838-6883 Monday through Friday from 8 a.m. to 5 p.m.

Welcome to savings with DP&L Energy,

City of Belpre

DP&L Energy's pricing is not regulated by the PUCO. This offer is subject to change by DP&L Energy. DP&L Energy and The Dayton Power and Light Company are separate but affiliated companies.

If you have any questions regarding the Utility charges, please contact the Utility directly at 1-800-672-2231. Failure to pay your Utility charges may result in disconnection as provided for in the Utility's tariff. If you do not pay your bill on time, you may incur late fees or automatically be returned to Utility's standard offer service. You may also forfeit your ability to choose another electric generation provider until arrearages are paid. We may cancel this Agreement upon 14 calendar days written notice for non-payment. We may in our sole discretion provide a budget billing option for our charges. We must be able to obtain at least six (6) months of historical usage for

your account or premise, and you may have no outstanding late payments with us. We will set your budget bill amount for our charges based on your historical usage and your pricing plan. You will be billed for any budget bill balance owed to us, or provided with a credit for any budget bill balance owed to you a) at least once per year, and b) when your service with us ends. We reserve the right to adjust your budget bill amount twice per year based on your historical usage and your current pricing plan.

Electric Aggregation in Belpre - Frequently Asked Questions

What is governmental aggregation of electricity?

Ohio's laws allow for communities – such as townships, cities and counties – to form aggregated buying groups on behalf of their citizens. Savings are possible through governmental aggregation, where community officials bring together residential and small commercial customers to gain group buying power for the purchase of electricity from a retail electric generation provider. Voters in Belpre authorized the community leaders to establish a government aggregation program for the community.

What will my rate be under the aggregation program?

Belpre has negotiated a fixed rate of \$0.059/kWh for generation from DP&L Energy for all residential customers and \$.053/kWh for commercial customers with annual usage under 700,000 kWh, through July, 2014.

What do I need to do to be included in the aggregation program?

You do not need to do anything to receive the discounted pricing under this program. You may choose to remain part of the aggregation program and begin receiving your discount simply by not returning the opt-out form.

What if I don't want to participate?

Since all eligible residential and small commercial customers are automatically enrolled in the governmental aggregation program, those customers who do not want to participate are given the opportunity to opt out. By returning an opt-out form by the due date, you can choose not to be enrolled as an electric generation customer of the community's aggregation cost savings program.

How will billing be handled?

You will receive one bill from American Electric Power Company (AEP) (the utility) that contains your charges for distribution and maintenance service from the utility as well as DP&L Energy's charges for generation.

If I join the aggregation program, can I stay on budget billing?

Residential customer with at least 6 months of usage that participates in the utility's budget billing program will automatically be enrolled in DP&L Energy's budget billing program. Your budget bill amount will be calculated based on your historic usage and will be trued up annually. Budget billing is not available under this program for non-residential accounts.

Who do I call if I have a problem with my electric service?

If you have an outage, see fallen power lines, or require emergency repairs, you will continue to contact American Electric Power (AEP) at 1-800-672-2231.

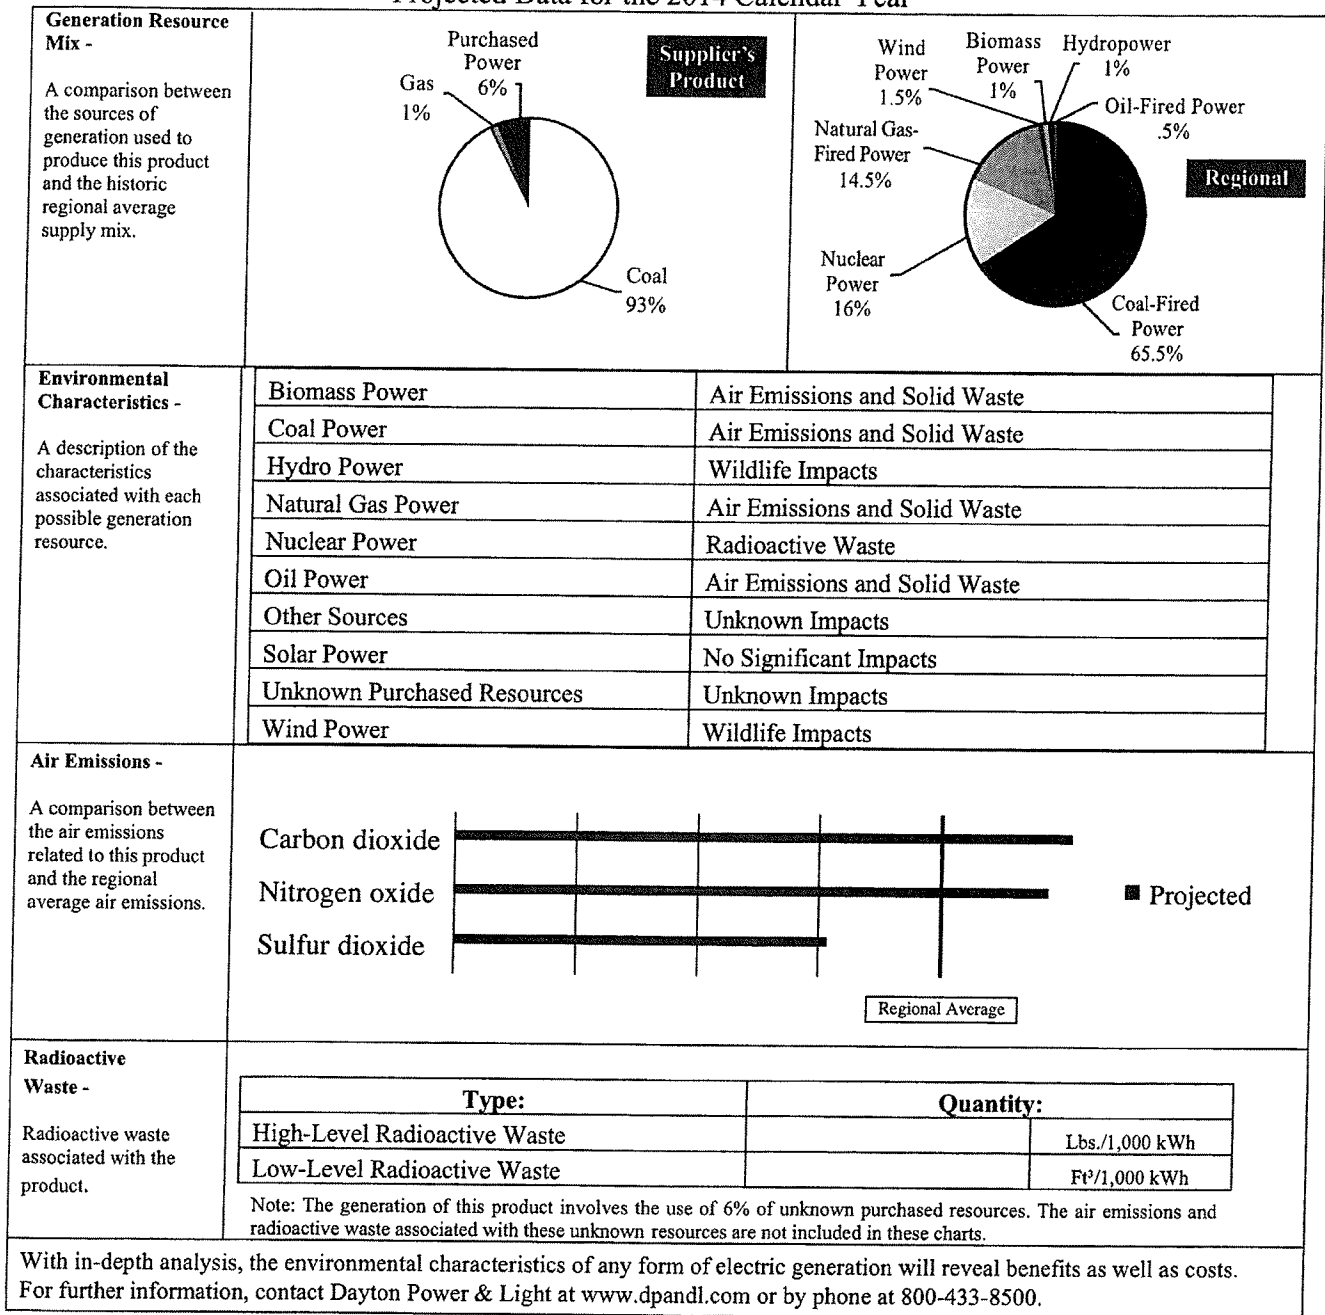

Who is DP&L Energy?

DP&L Energy is a competitive retail supplier of electricity based in Ohio and has been helping customers save money on their energy costs since 2001. DP&L Energy sells electricity to customers at market-based prices rather than the regulated prices offered by utilities. DP&L Energy and The Dayton Power and Light Company (a regulated Ohio electric utility) are both owned by the same parent company, DPL Inc. Although DP&L Energy and The Dayton Power and Light Company are affiliated, they are operated independently per the rules and regulations of the Public Utilities Commission of Ohio.

What is the toll-free number for questions?

If you have any questions, please call DP&L Energy at 866-838-6883 Monday through Friday between 8 a.m. and 5 p.m.

City of Belpre is offering you savings on your electric costs.

Dear City of Belpre Business,

Because voters in Belpre approved an electric aggregation program in 2011 to allow officials to negotiate better energy rates, you could soon be saving money on your electric bill.

Government aggregation programs allow communities to pool residents together as a buying group to get a better deal on generation and transmission rates (the largest portion of your electric bill) from a retail electric supplier. **Your local utility, The American Electric Power (AEP) Company, will continue to deliver electricity to your business, restore power after outages, and perform maintenance and customer service.**

After researching options, the City of Belpre selected retail electric supplier DP&L Energy, an affiliate of The Dayton Power and Light Company. The Ohio-based company, certified by the Public Utilities Commission of Ohio (PUCO) will supply you with savings through July, 2014.

It's Smart.

You pay no enrollment or switching fees. And you get one easy-to-read bill from The American Electric Power (AEP) Company with your DP&L Energy charges included. If you are currently on budget billing, you will automatically be enrolled in budget billing.

It's Fair.

Your Utility	Retail Electric Supplier	Fixed Price	Term End Date	Opt-Out Deadline	Early Termination Fee
AEP Ohio (Ohio Power)	DP&L Energy	5.30¢ per kWh	July, 2014	February 17, 2014	1.5¢/kwh x avg. monthly usage over past 12 months x the number of months remaining in the initial term or 3 months, whichever is greater.

As a member of an aggregation group, you will start seeing savings from DP&L Energy within 30-45 days after The Ohio Power Company accepts your enrollment, depending on when your meter is read. Your savings could start as early as March.

It's Simple.

No action is needed to take advantage of the savings offered through your community program. However, if you wish to be excluded from this discounted rate, you must return the enclosed opt-out form by February 17, 2014. If you decide to opt-out of the aggregation before the program starts, you will be served by the utility's standard service offer unless you choose an alternate provider. If you decide to leave the aggregation program at any other time, the service you receive from the utility may not be under the same rates, terms and conditions that apply to other customers receiving generation from The American Electric Power (AEP) Company. If you do not opt-out at this time, you will receive a notice at least every three years asking if you wish to remain in the program.

If you do not opt-out, The American Electric Power (AEP) Company will send you a letter confirming that you selected DP&L Energy as your electric generation provider (see attached sample letter). You have seven days from the postmark date of such letter to cancel your contract with DP&L Energy if you do not want to be part of the savings program. **To start seeing savings through the City of Belpre electric aggregation program, you don't have to do anything when your letter arrives.**

Electric Aggregation in Belpre - Frequently Asked Questions

What is governmental aggregation of electricity?

Ohio's laws allow for communities – such as townships, cities and counties – to form aggregated buying groups on behalf of their citizens. Savings are possible through governmental aggregation, where community officials bring together residential and small commercial customers to gain group buying power for the purchase of electricity from a retail electric generation provider. Voters in Belpre authorized the community leaders to establish a government aggregation program for the community.

What will my rate be under the aggregation program?

Belpre has negotiated a fixed rate of \$0.059/kWh for generation from DP&L Energy for all residential customers and \$.053/kWh for commercial customers with annual usage under 700,000 kWh, through July, 2014.

What do I need to do to be included in the aggregation program?

You do not need to do anything to receive the discounted pricing under this program. You may choose to remain part of the aggregation program and begin receiving your discount simply by not returning the opt-out form.

What if I don't want to participate?

Since all eligible residential and small commercial customers are automatically enrolled in the governmental aggregation program, those customers who do not want to participate are given the opportunity to opt out. By returning an opt-out form by the due date, you can choose not to be enrolled as an electric generation customer of the community's aggregation cost savings program.

How will billing be handled?

You will receive one bill from American Electric Power Company (AEP) (the utility) that contains your charges for distribution and maintenance service from the utility as well as DP&L Energy's charges for generation.

If I join the aggregation program, can I stay on budget billing?

Residential customer with at least 6 months of usage that participates in the utility's budget billing program will automatically be enrolled in DP&L Energy's budget billing program. Your budget bill amount will be calculated based on your historic usage and will be trued up annually. Budget billing is not available under this program for non-residential accounts.

Who do I call if I have a problem with my electric service?

If you have an outage, see fallen power lines, or require emergency repairs, you will continue to contact American Electric Power (AEP) at 1-800-672-2231.

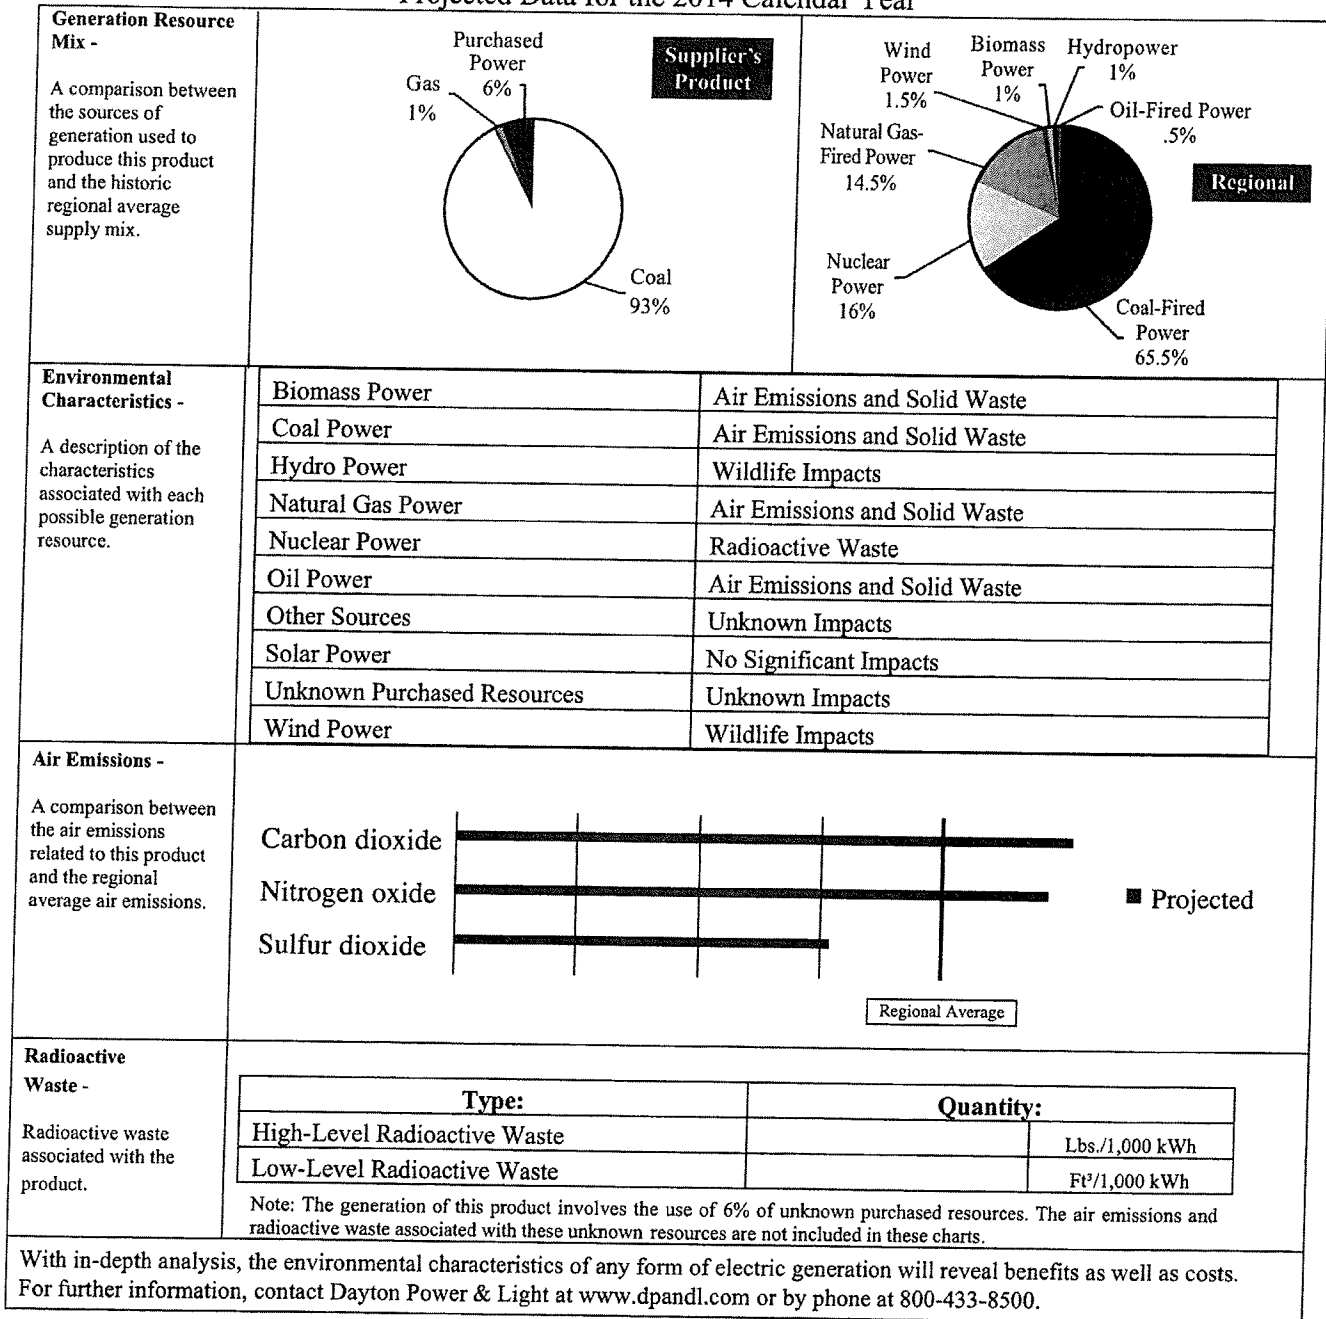

Who is DP&L Energy?

D&L Energy is a competitive retail supplier of electricity based in Ohio and has been helping customers save money on their energy costs since 2001. DP&L Energy sells electricity to customers at market-based prices rather than the regulated prices offered by utilities. DP&L Energy and The Dayton Power and Light Company (a regulated Ohio electric utility) are both owned by the same parent company, DPL Inc. Although DP&L Energy and The Dayton Power and Light Company are affiliated, they are operated independently per the rules and regulations of the Public Utilities Commission of Ohio.

What is the toll-free number for questions?

If you have any questions, please call DP&L Energy at 866-838-6883 Monday through Friday between 8 a.m. and 5 p.m.
