BEFORE

THE PUBLIC UTILITIES COMMISSION OF OHIO

In the Matter of the Filing of Annual Reports for Calendar Year 2013 by all Regulated Entities.	)))	Case No. 14-01-AU-RPT

FINDING AND ORDER

The Commission finds:

(1) R.C. 4905.10 provides an annual assessment based upon the intrastate gross earnings of each railroad and public utility for the purpose of maintaining the operations of this Commission. In order to calculate such assessment, R.C. 4905.14 requires every public utility to file an annual report at the time and in the form prescribed by the Commission. R.C. 4905.02 defines the term "public utility" to include every corporation, company, person, or certain other entities as defined in R.C. 4905.03, but excludes certain municipal utilities, cooperatives, and telecommunications service providers. R.C. 4905.03(A) defines public utility companies to include telephone companies, electric light companies (except regional transmission organizations), heating or cooling companies, natural gas distribution companies, pipeline companies, water-works and sewage disposal system companies. R.C. 4907.20 requires a railroad company to complete forms submitted to it by the Commission. R.C. 4907.02 defines railroad companies to include bridge and water transportation companies engaged in the conveyance of persons or property within this state.

(2) R.C. 4928.06 requires every certified competitive retail electric service (CRES) provider and governmental aggregator subject to certification under R.C. 4928.08 to file an annual report of sales and receipts for those services for which it is subject to certification. R.C. 4929.23 requires every certified retail natural gas (CRNG) supplier and governmental aggregator under R.C. 4929.20 to file an annual report of sales and receipts for those services for which it is subject to certification. R.C. 4905.10(D) provides that, for the purpose of annual assessment, "public utility" includes not only electric utilities as defined in R.C. 4928.01, and natural gas companies as defined in R.C. 4929.01, but also CRES and CRNG suppliers subject to certification under R.C. 4928.08 and 4929.20, respectively.

(3) R.C. 4905.10(A) requires that any reporting entity pay a $100 minimum assessment regardless of intrastate gross revenues.

(4) R.C. 4905.54 empowers the Commission to assess a forfeiture of not more than $10,000 per day for each violation or failure of a public utility or railroad, or an officer of a public utility or railroad, to comply with an order, direction, or requirement of the Commission made under authority of R.C. Chapter 4905.

(5) The Commission has implemented a new on-line annual report filing system for all industry segments that can be accessed on the Commission's website by clicking on the "Annual Reports" link at www.puc.ohio.gov. This system automatically sends a copy of all reports to the Ohio Consumers Counsel (OCC), and eliminates the requirement that reports be filed in a formal case docket. Instructions for completing the on-line form will be sent to all filer, fiscal and docketing contacts listed on each company's report for the prior year as soon as the system is available for filing. Each company listed on Appendix A of the attachment to this order should submit its annual report by April 30, 2014, or file for an automatic 30-day extension in this docket. Company contact information can be updated by sending a message to the Annual Reports mailbox at (annualreports@puc.state.oh.us). Any reporting company that is unable to use the on-line system should contact the Commission's Docketing Division at (614) 466-4095 to request paper forms and instructions.

(6) In the Commission's August 7, 2013 Entry in Case No. 13-01-AU-RPT, all reporting companies were put on notice that the Commission intends to begin assessing a $1,000 civil forfeiture, pursuant to R.C. 4905.54, for any company that fails to comply by the April 30, 2014 deadline, absent good cause shown. Such an assessment would be in addition to any amounts owed to this Commission or the OCC.

(7) Each company listed on Appendix A must submit an annual report for each certificate or authority held during 2013, even if the company did not have intrastate gross earnings during the 2013 calendar year. No report is required for certificates issued in 2014. CRES and CRNG suppliers should note that all certified suppliers, including brokers and aggregators who do not take title to the power or gas, and were previously

permitted to report zero sales, must now report all gross revenues derived from Ohio intrastate transactions. All certified suppliers should also note that this annual report filing requirement for assessment purposes is in addition to any biennial filings a supplier must make to renew its certificate(s).

(8) Each company's annual report should note any changes during the 2013 calendar year or thereafter in the company's name, dba (doing business as) designations, or legal entity (such as a corporate merger or acquisition). Reference to any related Commission case or filings should also be included. All information required to be submitted in a company's report is subject to audit by the Commission. All annual reports received by the Commission are public records and will not be accorded confidential treatment.

(9) The Commission has adopted the use of e-mail service to reduce expenses wherever practical. Any regulated entity that wishes to continue receiving paper copy service from the Commission via regular mail should contact the Commission's Docketing Division at (614) 466-4095 to be sent a Request for Paper Service form. Companies that have filed for paper service in past years that still wish to receive paper copies must renew their request to continue receiving paper documents by filing a Request the Paper Service form in this docket. All other reporting companies should subscribe to the appropriate industry listserve(s) and take appropriate actions to ensure that e-mail from the Commission is not blocked or disabled. The use of company mailboxes and multiple addresses should be considered to facilitate e-mail service.

(10) On December 18, 2013, the Commission issued a Finding and Order in Case No. 13-01-AU-RPT that revoked certificates issued to 17 companies for failure to file 2012 annual reports. Thereafter, reports were filed by Sourceone, Inc. for Certificate No. 12-458E, Sperian Energy Corp. for Certificate No. 12-503E, and The Council on Northeast Energy for Certificate No. 12-502E. As each of these certificates was recently issued, the Commission will, on a one-time basis pursuant to R.C. 119.14, restore these certificates to active status without penalty. However, each of these competitive suppliers should note that any future failure to comply with reporting requirements or

payment of assessments may result in the sanctions described above.

(11) The December 18, 2013 Finding and Order in Case No. 13-01-AU-RPT also included an Appendix B that showed each certificate or operating authority that became classified as inactive on the Commission's records in the past year. The listed certificates may have expired by operation of law, or have been cancelled due to mergers, abandonment, termination of the authority holder, or revoked by prior Commission order. The use of Appendix B was initiated to help Staff track certificates that should be removed from the rolls of active certificates, and excluded from the calculation of any future assessments. Certificate Nos. 09-158G issued to Muirfield Energy, Inc. and 90-6076 issued to Telecom North America Inc., were erroneously included on the December 18, 2013 Appendix B and the Commission's records will now be corrected to show these certificates as active.

(12) An updated Appendix B is attached to this order to show any certificate or operating authority that became classified as inactive on the Commission's records in the 2013 calendar year. As noted above, all certified suppliers are reminded that in addition to the annual April 30th deadline for the filing of fiscal annual reports all competitive retail gas and electric service provider certificates must be renewed every two years, pursuant to R.C. 4928.08(C) and 4929.20(B) and Ohio Adm.Code 4901:1-24-09 and 4901:1-27-09. Further information, including renewal deadlines, can be found at the website

(13) Appendix C of the attachment to this order lists each reporting entity that has failed to pay its assessment for 2013. The Commission's records reflect that invoices were sent to all reporting entities on September 30, 2013, and were due on October 28, 2013. Past due invoices were sent to all delinquent companies on January 2, 2014. Each company listed on Appendix C is hereby granted until February 3, 2014, to pay the assessed amount for 2013 or show cause why its certificate or operating authority should not be revoked. Each listed company is also hereby notified that failure to comply with this directive may result in the revocation of the entity's certificate or operating authority, and/or the assessment of a forfeiture pursuant to R.C. 4905.54, in addition to any assessment

amounts owed to this Commission or the OCC, absent good cause shown.

(14) Finally, the Commission received correspondence from Noble Americas Gas and Power Corp. (Noble) on December 30, 2013, notifying the Commission that it ceased serving Ohio customers under Certificate No. 12-237G(1) through an energy choice pooling service agreement with Dominion East Ohio in March 2013. Noble requested that its 2013 assessment be reduced prorata from $44,404 to $11,100, and that its OCC assessment be reduced from $7,782 to $1,945. Similarly, by correspondence received October 22, 2013, Delta Energy, LLC (Delta) requested that its 2013 assessment be prorated from $54,496 to $13,624. Delta states that it completed its term as a standard choice offer supplier as of March 31, 2013, and asserts that its assessment for 2013 should be reduced accordingly. As fiscal matters effect both the Commission and the OCC, these parties should have counsel file formal motions in this docket substantiating their previous correspondence and renewing these requests by February 3, 2014, in order for these matters to be more fully considered by the Commission and OCC.

It is, therefore,

ORDERED, That each reporting company listed on Appendix A submit its annual report using the on-line system by April 30, 2014, or contact the Commission's Docketing Division to receive paper forms and instructions. It is, further,

ORDERED, That Certificate Nos. 12-458E issued to Sourceone Inc., 12-503E issued to Sperian Energy Corp, and 12-502E issued to The Council on Northeast Energy, be restored to active status. It is, further,

ORDERED, That the Commission's records be corrected to show Certificate Nos. 09-158G issued to Muirfield Energy, Inc., and 90-6076 issued to Telecom North America Inc., as active. It is, further,

ORDERED, That each company listed on Appendix C pay the amount assessed, or show cause why its certificate or operating authority should not be revoked, by February 3, 2014. It is, further,

ORDERED, That Noble and Delta file motions for reductions of their 2013 assessments or pay the full assessment amounts by February 3, 2014. It is, further,

ORDERED, That notice of this Finding and Order be served via the Electric-Energy, Gas-Pipeline, Railroad, Telephone, and Water industry listserves, and upon each entity listed on Appendices A and B of this entry. It is, further,

ORDERED, That the Docketing Division serve a copy of this Finding and Order with the attached Appendix C to each listed company, via certified and regular mail in addition to any electronic service.
