Dear OPSB,

PUCO

I am writing to support the Scioto Ridge Wind Farm and its ability to make a positive impact on our local economy. As a landowner for this project I am very excited with the possibilities it will bring to our region.

The Scioto Ridge Wind Farm in Hardin and Logan Counties is a project which will construct up to 176 wind turbines in the area. This will create new jobs in the area and is a great opportunity to boost the local economy with annual tax payments up to \$2.7 million.

This will also be good for the schools in our area allowing them to provide a sound education for our children with the revenue generated from this project.

I hope you will take time to learn more about this project that will provide our region with the opportunity for growth and support. Jason Dagger, project manager with EverPower has been a helpful source of information about this project and I encourage you to contact him with any questions at 937-604-8820.

Regards,

*Dale Bleininger*

**Case No.: 13-1177-EL-BGN, 13-1767-EL-BSB, 13-1768-EL-BTX**

**Project:** Scioto Ridge Wind Farm

**Company:** Hardin Wind, LLC., a subsidiary of EverPower Wind Holdings, Inc Dear OPSB,

I am writing to support the Scioto Ridge Wind Farm and the opportunity to inject \$2.7 million into the local economy annually which will make a positive impact on our community.

I am one of many landowners which feel that this is an opportunity our region cannot afford to pass up. A portion of this money will go directly to our local Hardin and Logan county schools each year. This is money that the schools need to provide a sound education for our children. Especially since I pay taxes here as well

My commitment to this project is also a commitment to clean, reliable and cost effective energy for Ohio and also our nation. Just one wind turbine creates enough energy to power 600-750 homes each year. How cool is that

The opportunity to create approximately 150 new local jobs during construction as well as injecting millions of dollars into the region will further the positive impact for our region and we cannot afford to pass it up.

I hope you will take time to learn more about this project. Please call me with any questions or my contact with EverPower is Jason Dagger, project manager. He has been able to explain the process and answer my questions about the project. You can reach out directly to him

Sincerely,

Shadd Shaffer
