Notes:

Section I and II are Pursuant to Chapter [4901:1-6 OAC](#)
Section III – Carrier to Carrier is Pursuant to [4901:1-7 OAC](#), and Wireless is Pursuant to [4901:1-6-24 OAC](#).
Section IV – Attestation

- (1) Indicate the Carrier Type and the reason for submitting this form by checking the boxes below.
- (2) For requirements for various applications, see the identified section of Ohio Administrative Code Section 4901 and/or the supplemental application form noted.
- (3) Information regarding the number of copies required by the Commission may be obtained from the Commission's web site at www.puco.ohio.gov under the docketing information system section, by calling the docketing division at 614-466-4095, or by visiting the docketing division at the offices of the Commission.
- (4) An Incumbent Local Exchange Carrier (ILEC) offering basic local exchange service (BLES) outside its traditional service area should choose CLEC designation when proposing to offer BLES outside its traditional service area or when proposing to make changes to that service.

All Filings that result in a change to one or more tariff pages require, at a minimum, the following exhibits.

Exhibit	Description:
A	The tariff pages subject to the proposed change(s) as they exist before the change(s)
B	The Tariff pages subject to the proposed change(s), reflecting the change, with the change(s) marked in the right margin.
C	A short description of the nature of the change(s), the intent of the change(s), and the customers affected.
D	A copy of the notice provided to customers, along with an affidavit that the notice was provided according to the applicable rule(s).

Registrant hereby attests to its compliance with pertinent entries and orders issued by the Commission.

AFFIDAVIT
Compliance with Commission Rules

I am an officer/agent of the applicant corporation, Mary C. Latek, and am authorized to make this statement on its behalf.

(Name) Mary C. Latek

Please Check ALL that apply:

☒ I attest that these tariffs comply with all applicable rules for the state of Ohio. I understand that tariff notification filings do not imply Commission approval and that the Commission's rules as modified and clarified from time to time, supersede any contradictory provisions in our tariff. We will fully comply with the rules of the state of Ohio and understand that noncompliance can result in various penalties, including the suspension of our certificate to operate within the state of Ohio.

☒ I attest that customer notices accompanying this filing form were sent to affected customers, as specified in Section II, in accordance with Rule 4901:1-6-7, Ohio Administrative Code.

I declare under penalty of perjury that the foregoing is true and correct.

Executed on (Date) April 11, 2014 at (Location) Chicago, IL

*(Signature and Title) /s/Mary C. Latek,
Manager

(Date) April 11, 2014

- *This affidavit is required for every tariff-affecting filing. It may be signed by counsel or an officer of the applicant, or an authorized agent of the applicant.*

VERIFICATION

I, Mary C. Latek verify that I have utilized the Telecommunications Filing Form for most proceedings provided by the Commission and that all of the information submitted here, and all additional information submitted in connection with this case, is true and correct to the best of my knowledge.

*(Signature and Title) /s/Mary C. Latek, Manager

Exhibit A

ISSUED: APRIL 10, 2013

EFFECTIVE: MAY 10, 2013

LINDA GUAY, DIRECTOR

208 S AKARD ST., DALLAS, TX, 75202

2. GENERAL REGULATIONS

2.3. OBLIGATIONS OF THE CUSTOMER (continued)

2.3.16 Identification and Rating of Toll VoIP-PSTN Traffic

A. Scope

This section only applies to toll VoIP-PSTN traffic exchanged between the Company and the customer in time division multiplexing ("TDM") format that originates and/or terminates in Internet protocol ("IP") format. Toll VoIP-PSTN traffic originates and/or terminates in IP format if it originates from and/or terminates to an end-user customer of a service that requires Internet protocol-compatible customer premises equipment.

1. This section governs the identification of originating and terminating intrastate toll VoIP-PSTN traffic and facilities to which interstate switched access rates apply (unless the parties have agreed otherwise) in accordance with the transitional Intercarrier Compensation framework for toll VoIP-PSTN traffic adopted by the Federal Communications Commission in its Report and Order, FCC Release No. 11-161 (Nov. 18, 2011) ("FCC Order"). Specifically, this section establishes the method that will be used to identify the percentage of the customer's intrastate access traffic, that will be treated as intrastate toll VoIP-PSTN traffic (referred to in this tariff as "Relevant toll VoIP-PSTN Traffic"),
2. This section applies to originating and terminating intrastate switched access minutes of use ("MOU") and facility rate elements of all Access customers.
3. The customer shall not modify its reported PIU factor to account for the toll VoIP-PSTN Traffic for MOU and facility rate elements.

B. Rating of Toll VoIP-PSTN Traffic

The Relevant Toll VoIP-PSTN Traffic terminating from the customer to the Company and facility rate elements identified in accordance with this tariff section will be billed at rates equal to the Company's applicable tariffed terminating interstate switched access rates as specified at <http://serviceguide.att.com/ABS/ext/TariffDetails.cfm>, (Company's FCC Access Services Tariff, Sections 5.4 and 5.53), unless the corresponding intrastate rate is lower. If the intrastate rate is lower, then the intrastate rate will be applied to the relevant VoIP-PSTN traffic for billing. Relevant VoIP-PSTN Traffic originating from the Company or another provider to the customer will be rated using Intrastate rates and rate structure until June 30, 2014.

2. GENERAL REGULATIONS

2.3. OBLIGATIONS OF THE CUSTOMER (Continued)

2.3.16 Identification and Rating of Toll VoIP-PSTN Traffic (Continued)

C. Calculation and Application of Percent-VoIP-Usage Factors

The Company will determine the number of Relevant Toll VoIP-PSTN Traffic terminating MOU and facility rate elements to which VOIP rates will be applied under subsection (B) above, by applying the Percent VoIP Usage ("PVU") factor to the intrastate access terminating MOU exchanged and facilities between the Company and the customer. The PVU factors will be derived and applied as follows:

1. The customer will calculate and furnish to the Company a factor (the "PVUC") on an ACNA basis which would aggregate traffic from Carrier Identification Code(s) ("CIC") or Operating Company Numbers ("OCNs") associated with the ACNA. This PVUC represents the percentage (whole number) of the total terminating intrastate access MOU that the customer exchanges with the Company end users in the State, that is received from the Company and terminated in IP format at the end user. This PVUC shall be based on information such as the number of the customer's retail VoIP subscriptions in the state (e.g., as reported on FCC Form 477), traffic studies, actual call detail, or other relevant and verifiable information.
2. The Company will calculate and periodically update a factor (the "PVUT") representing the percentage (whole number) of the total intrastate access MOU that the Company exchanges with the customer end users in the State, that is received from the Customer and terminated in IP format at the end user. This PVUT shall be based on information such as the number of the customer's retail VoIP subscriptions in the state (e.g., as reported on FCC Form 477), traffic studies, actual call detail, or other relevant and verifiable information.

ISSUED: NOVEMBER 30, 2012

EFFECTIVE: JANUARY 1, 2013

LINDA GUAY, DIRECTOR

208 S AKARD ST., DALLAS, TX, 75202

2. GENERAL REGULATIONS

2.3. OBLIGATIONS OF THE CUSTOMER (Continued)

2.3.16 Identification and Rating of Toll VoIP-PSTN Traffic (Continued)

C. Calculation and Application of Percent-VoIP-Usage Factors (Continued)

3. The Company will develop a Customer Percent VoIP Usage ("PVU") factors combining the Customer's PVUC factor with the Company's PVUT factor.

a. The PVU calculation below is applied when the Company does not bill based on actual call detail records for the intrastate Company's IP traffic at relevant VOIP rates.

PVU = PVUC + [PVUT x (1-PVUC)] is applied to the traffic exchanged between the Company and customers end user's total intrastate MOU and facility rate elements

Example: The customer reported that their PVUC as 40%. The Company's PVUT is 10%. This results in the following:

$PVU = 40\% \text{ plus } (10\% \text{ times } (1-40\%)) = 46\%$

This means that 46% of the terminating Intrastate MOU exchanged between the customer and the Company's end users will be rated at VOIP rates.

ISSUED: NOVEMBER 30, 2012
EFFECTIVE: JANUARY 1, 2013
LINDA GUAY, DIRECTOR
208 S AKARD ST., DALLAS, TX, 75202

2. GENERAL REGULATIONS

2.3. OBLIGATIONS OF THE CUSTOMER (Continued)

2.3.16 Identification and Rating of Toll VoIP-PSTN Traffic (Continued)

3. (Continued)

- b. The PVU calculation below is applied when the Company bills are based on the actual call detail records for the intrastate Company's IP traffic at VOIP rates.

The formula for usage will be as follows:

$PVU = PVUC \times (1 - PVUT)$ applied to the traffic exchanged between the customer and the Company's TDM end user's total terminating intrastate MOU.

$PVU = PVUC + [PVUT \times (1 - PVUC)]$ is applied to the facility rate elements

Example: The Company has identified that there was 10,500 Intrastate MOU that were identified exchanged between the Customer and the Company's IP end users. The Customer reported that their PVUC as 40%. The Telephone Company's PVUT is 10%. This results in the following:

$$PVU = 40\% \text{ times } (1 - 10\%) = 36\%$$

This means that 36% of the terminating Intrastate MOU exchanged between the Customer and the Company's TDM end users will be rated at VOIP rates and the intrastate 10,500 MOU will also be rated at Interstate rates.

For the facility rate elements the formula that is applied to the intrastate dedicated facilities is as follows:

$$PVU = 40\% \text{ plus } (10\% \text{ times } (1 - 40\%)) = 46\%$$

Therefore 46% of the Intrastate facilities will be rated at VOIP rates.

4. If the customer does not furnish the Company with a PVUC pursuant to the preceding paragraph (C) (1), the Company will utilize a customer PVUC of 0%.

Exhibit B

ISSUED: APRIL 11, 2014

EFFECTIVE: MAY 12, 2014

LINDA GUAY, DIRECTOR

208 S AKARD ST., DALLAS, TX, 75202

2. GENERAL REGULATIONS

2.3. OBLIGATIONS OF THE CUSTOMER (continued)

2.3.16 Identification and Rating of Toll VoIP-PSTN Traffic

A. Scope

This section only applies to toll VoIP-PSTN traffic exchanged between the Company and the customer in time division multiplexing ("TDM") format that originates and/or terminates in Internet protocol ("IP") format. Toll VoIP-PSTN traffic originates and/or terminates in IP format if it originates from and/or terminates to an end-user customer of a service that requires Internet protocol-compatible customer premises equipment.

1. This section governs the identification of originating and terminating intrastate toll VoIP-PSTN traffic and facilities to which interstate switched access rates apply (unless the parties have agreed otherwise) in accordance with the transitional Intercarrier Compensation framework for toll VoIP-PSTN traffic adopted by the Federal Communications Commission in its Report and Order, FCC Release No. 11-161 (Nov. 18, 2011) ("FCC Order"). Specifically, this section establishes the method that will be used to identify the percentage of the customer's intrastate access traffic, that will be treated as intrastate toll VoIP-PSTN traffic (referred to in this tariff as "Relevant toll VoIP-PSTN Traffic"),
2. This section applies to originating and terminating intrastate switched access minutes of use ("MOU") and facility rate elements of all Access customers.
3. The customer shall not modify its reported PIU factor to account for the toll VoIP-PSTN Traffic for MOU and facility rate elements.

B. Rating of Toll VoIP-PSTN Traffic*

(T)

The Relevant Toll VoIP-PSTN Traffic terminating from, or originating to the customer, or from the Company or other provider, and facility rate elements identified in accordance with this tariff section will be billed at rates equal to the Company's applicable tariffed interstate switched access rates as specified at <http://serviceguide.att.com/ABS/ext/TariffDetails.cfm>, if those interstate rates are lower than their respective Ohio state access rates (Access Services Tariff). Conversely, if the Ohio state access rates are lower, then this traffic will be billed utilizing the rates from the Access Services Tariff. Hereafter, these billed rates will be referred to in this tariff as the relevant VoIP Rates.

2. GENERAL REGULATIONS

2.3. OBLIGATIONS OF THE CUSTOMER (Continued)

2.3.16 Identification and Rating of Toll VoIP-PSTN Traffic (Continued)

C. Calculation and Application of Percent-VoIP-Usage Factors

The Company will determine the number of Relevant VoIP-PSTN Traffic originating MOU and the originating facility rate elements, if applicable, to which VOIP rates will be applied under subsection (B) above, by applying the Percent VoIP Usage ("PVU") factor to the intrastate access originating MOU exchanged and facilities between the Company and the customer. The PVU factors will be derived and applied as follows:

1. The customer will calculate and furnish to the Company a factor (the "PVUC") on an ACNA basis which would aggregate traffic from all Carrier Identification Code(s) ("CIC") or Operating Company Numbers ("OCNs") associated with the ACNA. This PVUC represents the percentage (whole number) of the originating intrastate access MOU that the customer receives from the Company end users in the state which is sent from the Company that is terminated in IP format at the customer's end user. This PVUC shall be based on information such as the number of the customer's retail VoIP subscriptions in the state (e.g., as reported on FCC Form 477), traffic studies, actual call detail, or other relevant and verifiable information satisfactory to the Company. (T)
2. The Company will calculate and periodically update a factor (the "PVUT") representing the percentage (whole number) of the total intrastate access MOU that the Company exchanges with the customer's end users in the state which is received from the Customer and terminated in IP format at the end user. This PVUT shall be based on information such as the number of the customer's retail VoIP subscriptions in the state (e.g., as reported on FCC Form 477), traffic studies, actual call detail, or other relevant and verifiable information. (T)

ISSUED: APRIL 11, 2014

LINDA GUAY, DIRECTOR

208 S AKARD ST., DALLAS, TX, 75202

2. GENERAL REGULATIONS

2.3. OBLIGATIONS OF THE CUSTOMER (Continued)

2.3.16 Identification and Rating of Toll VoIP-PSTN Traffic (Continued)

C. Calculation and Application of Percent-VoIP-Usage Factors
(Continued)

3. The Company will develop a Customer Percent VoIP Usage ("PVU") factors combining the Customer's PVUC factor with the Company's PVUT factor.

a. The PVU calculation below is applied when the Company does not bill based on actual call detail records for the intrastate Company's IP traffic at relevant VOIP rates.

PVU = PVUC + [PVUT x (1-PVUC)] is applied to the Company's end users originating intrastate MOU and facility rate elements.

(T)

(T)

Example: The customer reported that their PVUC as 40%. The Company's PVUT is 10%. This results in the following:

PVU = 40% plus (10% times (1-40%)) = 46%

This means that 46% of the originating Intrastate MOU exchanged between the Company's end users and the customer will be rated at VOIP rates.

(T)

(T)

ISSUED: APRIL 11, 2014

EFFECTIVE: MAY 12, 2014

LINDA GUAY, DIRECTOR

208 S AKARD ST., DALLAS, TX, 75202

2. GENERAL REGULATIONS

2.3. OBLIGATIONS OF THE CUSTOMER (Continued)

2.3.16 Identification and Rating of Toll VoIP-PSTN Traffic (Continued)

3. (Continued)

- b. The PVU calculation below is applied when the Company bills are based on the actual originating call detail records for the intrastate Company's IP traffic at VOIP rates. (T)

The formula for usage will be as follows:

$PVU = PVUC \times (1 - PVUT)$ applied to the Company's TDM end user's total intrastate MOU. (T)

$PVU = PVUC + [PVUT \times (1 - PVUC)]$ is applied to the facility rate elements

Example: The Company has identified that there were 10,500 originating Intrastate MOU that were identified and exchanged between the Company's IP end users and the customer. The Customer reported that their PVUC as 40%. The Telephone Company's PVUT is 10%. This results in the following: (T)

$$PVU = 40\% \text{ times } (1 - 10\%) = 36\%$$

This means that 36% of the originating Intrastate MOU exchanged between the Customer and the Company's TDM end users will be rated at VOIP rates and the terminating intrastate 10,500 MOU will also be rated at VoIP rates. (T)

For the facility rate elements the formula that is applied to the intrastate dedicated facilities is as follows:

$$PVU = 40\% \text{ plus } (10\% \text{ times } (1 - 40\%)) = 46\%$$

Therefore 46% of the Intrastate facilities will be rated at VOIP rates.

4. If the customer does not furnish the Company with a PVUC pursuant to the preceding paragraph (C) (1), the Company will utilize a customer PVUC of 0%.

EXHIBIT C

Teleport Communications America, LLC (Teleport) is filing this application to modify its tariff to revise existing VOIP language.

EXHIBIT D

Customer notice was sent via bill insert, which follows, informing customers of a possible change in terms and conditions. A customer notice affidavit also follows.

Bill Message for VoIP Tariff revisions to run in May 2014 bills.

NOTICE OF CHANGE IN TERMS

The current terminations PVUC (Percent VOIP Usage Factor) factors are not used in billing currently, since the Intrastate terminating usage is at rate parity or lower than the corresponding Interstate rates.

On July 1, 2014, all current terminations PVUC, values that represented customer VOIP traffic will be changed to zero.

Pursuant to the FCC's Report and Order, FCC 11-161 and related subsequent Orders governing intercarrier compensation, AT&T's CLEC's (AT&T Communications, TCG and TCA), announces the following changes to its processes and tariffs as of July 1, 2014. Customers must provide an originating PVUC by July 1, 2014. This PVUC represents the percentage (whole number) of the originating intrastate access MOU that the customer receives from the Telephone Company end users in the state (MOU which are sent from the Telephone Company) that are terminated in IP format to the customer's end user.

AT&T will issue updates to its current state tariffs reflecting the changes stated above.

The tariff updates will be issued in advance of the July 1, 2014 effective date. The new originating PVUC factors will be applied to the July 2014 originating minutes of use, impacting August usage invoices. If the customer does not provide their new PVUC Originating factor by July 1, 2014, a factor of 0% (ZERO), will be applied to the customer provider factor until a factor is provided by the customer.

CUSTOMER NOTICE AFFIDAVIT

AFFIDAVIT

I, Mary C. Latek, am an authorized agent of the applicant corporation, Teleport Communications America, LLC., and am authorized to make this statement on its behalf. I attest that the customer notice(s) accompanying this affidavit will be sent to affected customers via bill insert in the May 2014 customer bills, in accordance with Rule 4901:1-6-07, Ohio Administrative Code. I declare under penalty of perjury that the foregoing is true and correct.
