MEMORANDUM IN SUPPORT

Pursuant to Admin. Code 4901:1-40-03(C) and 4901:1-40-05, NAPG has submitted its Reports. Along with these Reports, NAPG has submitted a redacted version of Attachment 1, which contains information regarding NAPG's renewable energy credits obtained for the 2013 year and subreserve accounts.

The information contained in Attachment 1, submitted under seal with this Motion, if made public, would reveal information which NAPG considers confidential and proprietary trade secrets. The number of CRES providers competing in Ohio EDU service territories is increasing. If said information is released to the public, NAPG would suffer substantial harm as its competitors would have access to NAPG's proprietary information. As such, and given the intense competition in the competitive service arena, this information is a legitimate trade secret, access to which could negatively affect NAPG's competitive position.

The need to protect the type of information that is the subject of this Motion is recognized under Ohio law.

Ohio Admin. Code 4901-1-24(D) provides:

Upon motion of any party or person with regard to the filing of a document with the commission's docketing division relative to a case before the commission... the attorney examiner may issue any order which is necessary to protect the confidentiality of information contained in the document, to the extent that state or federal law prohibits release of the information, including where the information is deemed by ... the attorney examiner to constitute a trade secret under Ohio law, and where nondisclosure of the information is not inconsistent with the purposes of Title 49 of the Revised Code.

The Commission would have full access to the information in order to fulfill its statutory obligations and the nondisclosure of said information will not frustrate the purposes of Title 49 of the Revised Code.

Ohio law defines a "Trade Secret" as:

Information, including the whole or any portion or phase of any scientific or technical information, design, process, procedure, formula, pattern, compilation, program, device, method, technique, or improvement, or any business information or plans, financial information, or listing of names, addresses, or telephone numbers, that satisfies both of the following:

(1) It derives independent economic value, actual or potential, from not being generally known to, and not being readily ascertainable by proper means by, other persons who can obtain economic value from its disclosure or use.

(2) It is the subject of efforts that are reasonable under the circumstances to maintain its secrecy.

Rev. Code §1333.61(D). The Commission facilitates the protection of such trade secrets in its Rules in the Administrative Code as well. *See* Ohio Admin. Code 4901-1-24(A)(7).

The Ohio Supreme Court has adopted a six factor test to analyze whether information is a trade secret under Rev. Code § 1331:

(1) The extent to which the information is known outside the business; (2) the extent to which it is known to those inside the business, *i.e.*, by the employees; (3) the precautions taken by the holder of the trade secret to guard the secrecy of the information; (4) the savings effected and the value to the holder in having the information as against competitors; (5) the amount of effort or money expended in obtaining and developing the information, and (6) the amount of time and expense it would take for others to acquire and duplicate the information.

State ex rel. Plain Dealer v. Ohio Dep't of Ins., 80 Ohio St. 3d 513, 687 N.E. 2d 661 (1998) (citations omitted).

Applying the above factors to the information contained in Attachment 1, it is clear that a protective order should be granted. Further, NAPG notes that similar motions for protective order have been granted by the Attorney Examiner.¹ NAPG submits that the basis for the Attorney Examiner to grant NAPG's present Motion is equally compelling here.

For all of the foregoing reasons, North American Power and Gas, LLC hereby respectfully requests that the Commission issue a Protective Order designating as confidential
