BRIEF

In the within action, Respondent filed Interrogatories and a Request for Production of Documents which Complainant answered on or about May 15, 2014. In its answer to said request, Complainant agreed to supplement its response when it received further documentation from various tree contractors and the City of Hudson. Complainant expects to have such additional data within thirty days. In addition, on or about May 20, 2014, Complainant sent a set of Requests for Admission to Respondent, who has not yet responded to same.

On May 22, 2014, undersigned counsel discussed settlement options with Respondent's counsel as well as the within request for delay of the scheduled settlement conference. Respondent's counsel was undecided as to whether she would oppose said request.

Complainant believes that a settlement conference will be more productive when it receives and forwards to Respondent the additional documentation, cost estimates and data from its sources, all of which it expects will be available within the next thirty days.

Respectfully submitted,
