I. INTRODUCTION

1	Q.	PLEASE STATE YOUR NAME AND BUSINESS ADDRESS.
2	А.	My name is Peggy A. Laub, and my business address is 139 East Fourth Street,
3		Cincinnati, Ohio 45202.
4	Q.	BY WHOM ARE YOU EMPLOYED AND IN WHAT CAPACITY?
5	A.	I am employed by Duke Energy Business Services LLC (DEBS) as Director,
6		Rates and Regulatory Planning. DEBS provides various administrative and other
7		services to Duke Energy Ohio, Inc., (Duke Energy Ohio or Company) and other
8		affiliated companies of Duke Energy Corporation (Duke Energy).
9	Q.	PLEASE BRIEFLY SUMMARIZE YOUR EDUCATION AND
10		PROFESSIONAL EXPERIENCE.
11	A.	I earned a Bachelor of Business Administration degree, with a major in
12		accounting, from the University of Cincinnati.
13		I began my career with The Cincinnati Gas & Electric Company, the
14		predecessor of Duke Energy Ohio, as a co-operative education student in the
15		Accounting Department. In 1984, I was employed full-time in the Tax
16		Department. I progressed through various positions to Coordinator, State & Local
17		Taxes. In 1998, I was transferred to the Regulated Business Unit's financial
18		group. In 2000, I was transferred to Fixed Assets Accounting and I was promoted
19		to manager in 2002. In May 2006, following the merger between Cinergy Corp.
20		and Duke Energy, I transferred to the Midwest U.S. Franchised Electric & Gas
21		accounting group. In November 2008, I transferred to Midwest Wholesale

PEGGY A. LAUB DIRECT 1

Accounting as Manager, Accounting. In May 2010, I transferred to the Rate
 Department in my current position, now titled Director, Rates and Regulatory
 Planning.

4 Q. PLEASE DESCRIBE YOUR DUTIES AS DIRECTOR, RATES AND 5 REGULATORY PLANNING.

A. As Director, Rates and Regulatory Planning, I am responsible for the preparation of
financial and accounting data used in retail rate filings and various other rate
recovery mechanisms for Duke Energy Ohio and Duke Energy Kentucky, Inc.

9 Q. HAVE YOU PREVIOUSLY TESTIFIED BEFORE THE PUBLIC 10 UTILITIES COMMISSION OF OHIO?

A. Yes. I have previously testified in a number of cases before the Public Utilities
Commission of Ohio (Commission) and other regulatory commissions.

13 Q. WHAT IS THE PURPOSE OF YOUR TESTIMONY IN THESE 14 PROCEEDINGS?

A. The purpose of my testimony is to support various aspects of Duke Energy Ohio's
proposed electric security plan (ESP). I will provide testimony describing the
proposed Distribution Capital Investment Rider (Rider DCI), the proposed
Distribution Storm Rider (Rider DSR), and the Company's proposal for
calculations addressing the significantly excessive earnings test (SEET).

II. <u>RIDER DCI – DISTRIBUTION CAPITAL INVESTMENT</u>

20 Q. PLEASE DESCRIBE RIDER DCI.

A. Rider DCI, as proposed in the Application, is intended to recover a return on
 incremental capital investment and the associated depreciation and property tax

expense for distribution-related reliability investment that is not otherwise
 recovered through base rates or another rider. Rider DCI would be used as a
 mechanism for all distribution upgrades, excluding the Company's current
 SmartGrid deployment program.

5

Q. PLEASE DESCRIBE HOW RIDER DCI WILL BE CALCULATED.

A. The incremental revenue requirement applicable to Rider DCI would be
determined by calculating the revenue requirement associated with the projected
rate base at the end of the next quarter, and subtracting out the revenue
requirement for rate base that is recovered through base rates. An example of the
calculation is shown in Attachment PAL-1, as described later in my testimony.

11 Q. HOW WILL THE COMPANY DETERMINE WHICH CAPITAL 12 INVESTMENTS TO INCLUDE IN THE RIDER?

A. All capital investments (excluding those recovered via Rider DR-IM) recorded in
FERC Plant accounts 360 through 374 will be included in this rider. In addition,
the portions of the electric and common general plant accounts in FERC Plant
accounts 389 through 398 and account 303 that are allocated to distribution will
also be included.

18 Q. WHAT IS THE RATE OF RETURN THAT WOULD BE APPLICABLE

- 19
 TO THE INCREMENTAL CAPITAL INVESTMENT RECOVERED VIA

 20
 RIDER DCI?
- A. The rate of return grossed up for taxes (*i.e.*, the pre-tax rate of return) would be
 based on the weighted-average cost of capital and gross revenue conversion factor
 approved in the Company's then most recent electric distribution rate case, which

1		currently is 10.70 percent. Included in the rate of return is the Commission
2		approved 9.84% return on equity.
3	Q.	IF RIDER DCI IS APPROVED, WILL THE COMPANY CONTINUE
4		SEEKING RECOVERY OF ITS SMARTGRID INVESTMENT THROUGH
5		RIDER DR-IM?
6	A.	Yes. The Company will continue to recover its SmartGrid investment separately
7		through Rider DR-IM until that program is fully deployed, with the determination
8		of full deployment to be made by the Staff of the Commission ¹
9	Q.	WILL RIDER DCI RECOVER ONLY THE INCREMENTAL REVENUE
10		REQUIREMENT ON DISTRIBUTION INVESTMENT, EXCLUDING
11		GRID MODERNIZATION?
12	A.	Yes.
13	Q.	WHAT BASELINE WILL BE USED TO MEASURE THE
14		INCREMENTAL COSTS?
15	A.	The baseline for the Rider DCI calculation is the revenue requirement on
16		distribution and distribution-related rate base for the sum of (1) return, (2) income
17		taxes, (3) depreciation, and (4) property taxes.
18	Q.	HOW WILL THE INCREMENTAL REVENUE REQIREMENT TO BE
19		RECOVERED IN RIDER DCI BE CALCULATED?

20 A. The incremental revenue requirement will be calculated as shown on Attachment

¹ See In the Matter of the Application of Duke Energy Ohio, Inc. to Adjust Rider DR-IM and Rider AU for 2010 SmartGrid Costs and Mid-Deployment Review, Case No. 10-2326-GE-RDR, Opinion and Order (June 13, 2012), at pg. 14 (Commission approved stipulation in its entirety).

PAL-1. Our actual filings will include projected capital for the next upcoming
 quarter.

3 Q. IS DUKE ENERGY OHIO PROPOSING TO RECOVER INCREMENTAL

4 **OPERATING AND MAINTENANCE EXPENSE THROUGH RIDER DCI?**

- A. No. The Company has modeled its Rider DCI to be similar to AEP Ohio's Rider
 DIR (Distribution Investment Rider) and the FirstEnergy distribution utilities'
 Rider DCR (Delivery Capital Rider). As the specific riders of these other Ohio
 electric distribution companies only recover capital costs, Duke Energy Ohio is
 not seeking recovery of operating and maintenance (O&M) expenses through
 Rider DCI.
- 11 Q. IS DUKE ENERGY OHIO PROPOSING TO RECOVER POST IN
 12 SERVICE CARRYING COSTS THROUGH RIDER DCI?
- 13 A. No.

14 Q. IS RIDER DCI PROPOSED TO BE A NON-BYPASSABLE RIDER?

- A. Yes. Rider DCI addresses distribution issues and, hence, relates to all customers,
 whether they purchase competitive generation supply from Duke Energy Ohio or
 from a competitive supplier.
- 18 Q. WHAT PROCEDURAL TIMELINE DO YOU PROPOSE FOR THIS
 19 RIDER?
- A. The Company proposes a timeline similar to those used by AEP Ohio for its Rider
 DIR and the FirstEnergy utilities for their Rider DCR. Filings will be made
 quarterly, at least 60 days prior to the start of a calendar quarter. Rates are to be

automatically approved, absent a Commission Order that states otherwise, within 60
 days of the quarterly filing.

3 Q. HOW WILL THE INCREMENTAL REVENUE REQUIREMENT BE 4 ALLOCATED TO THE VARIOUS CUSTOMER CLASSES?

- A. The incremental revenue requirement will be allocated based on the same allocation
 as used in Schedule E in the Company's then most recently approved distribution
 base rate case.
- 8 Q. PLEASE EXPLAIN ATTACHMENT PAL-1.
- 9 Schedule PAL-1 is a template for the revenue requirement calculation for the A. proposed Rider DCI, using historical December 2013 data. As shown on this 10 11 attachment, the filing will include detailed plant in service and accumulated 12 depreciation schedules similar to the format used in Duke Energy Ohio's most 13 recent distribution rate case. There are also detailed schedules showing the 14 depreciation expense, deferred tax and property tax calculations for both the current period and the amount in base rates for distribution related property. The revenue 15 requirement also includes an amount for the CAT (Commercial Activity Tax). 16

III. <u>RIDER DSR – DISTRIBUTION STORM RIDER</u>

17

Q. PLEASE DESCRIBE RIDER DSR.

18 A. Rider DSR, as proposed in the Application, is intended to mitigate the financial
19 impact of major storms experienced by Duke Energy Ohio. For each calendar
20 year, the Company has \$4.4 million in its base distribution rates for major storm

PEGGY A. LAUB DIRECT 6

1		O&M recovery. ² The Company is proposing to establish a regulatory asset
2		account to defer the costs above or below this amount in each calendar year. The
3		Company will recover the balance of this deferral in its next base distribution case
4		unless the cumulative balance exceeds \$5 million at the end of a calendar year.
5		Once the balance exceeds \$5 million, as either a regulatory debit or a regulatory
6		credit, the Company will adjust Rider DSR to collect the balance in the regulatory
7		account.
8	Q.	HOW DOES DUKE ENERGY OHIO DEFINE A MAJOR STORM?
9	A.	The Company uses the methodology outlined in the IEEE (Institute of Electrical and
10		Electronics Engineers) Guide for Electric Power Distribution Reliability Indices to
11		determine when a major storm has affected its service territory.
12	Q.	WILL THIS RIDER INCLUDE CAPITAL?
13	A.	No. Any capital costs will be addressed in Rider DCI or in a subsequent distribution
14		rate case.
15	Q.	IS THE COMPANY PROPOSING ONLY TO DEFER COSTS IN EXCESS
16		OF THE \$4.4 MILLION?
17	A.	No. In years when storm costs are below the \$4.4 million baseline, there will be a
18		corresponding credit to the regulatory asset account.
19	Q.	WILL RIDER DSR INCLUDE CARRYING COSTS?
20	A.	Yes. Any monthly positive or negative balance in this deferral account would

² In the Matter of the Application of Duke Energy Ohio, Inc., for an Increase in its Electric Distribution Rates, Case No. 12-1682-EL-AIR, et al.

accrue a carrying cost at the Company's long-term cost of debt as approved in its
 most recent base distribution case.

IV. <u>SIGNIFICANTLY EXCESSIVE EARNINGS TEST</u>

3 Q. DOES THE COMPANY PROPOSE ANY CHANGES TO THE WAY ITS 4 CURRENT SEET TEST IS PERFORMED?

5 A. No. The Company administers its annual significantly excessive earnings test 6 (SEET) as required under R.C. 4928.143(F) and Rule 4901:1-35-10, Ohio 7 Administrative Code. The Company proposes the calculation as detailed in 8 Attachment PAL-2, which is similar to Commission-approved manner in which the 9 SEET is applied to Duke Energy Ohio under its current ESP.³

V. <u>CONCLUSION</u>

10 Q. WERE ATTACHMENT PAL-1 AND ATTACHMENT PAL-2 PREPARED

- 11 **BY YOU OR UNDER YOUR SUPERVISION?**
- 12 A. Yes.
- 13 Q. IS THE INFORMATION CONTAINED IN ATTACHMENT PAL-1 AND
- 14 ATTACHMENT PAL-2 TRUE AND ACCURATE TO THE BEST OF
- 15 **YOUR KNOWLEDGE AND BELIEF?**
- 16 A. Yes.
- 17 Q. DOES THIS CONCLUDE YOUR PRE-FILED DIRECT TESTIMONY?
- 18 A. Yes.

³ In the Matter of the Application of Duke Energy Ohio for Authority to Establish a Standard Service Offer Pursuant to Section 4928.143, Revised Code, in the Form of an Electric Security Plan, Accounting Modifications and Tariffs for Generation Service, Case No. 11-3549-EL-SSO, et al., Stipulation and Recommendation (October 24, 2011), Attachment H, and Opinion and Order (November 22, 2011).

Formula for Calculating Duke Energy Ohio Earnings for Significantly Excessive Earnings Test

Use actual data for Duke Energy Ohio from the FERC Form 1 for the calendar year at issue.

Net Income as shown on page 117, column (c), line (78), of the Form 1, adjusted for the following, if necessary:

- Eliminate all impacts related to the purchase accounting recorded pursuant to the Duke Energy/Cinergy Corp. merger;
- Eliminate all impacts of refunds to customers pursuant to R.C. 4928.143(F);
- Eliminate all impacts of mark-to-market accounting;
- Eliminate all impacts of material, non-recurring gains or losses, including but not limited to, the sale or disposition of assets;
- Eliminate all impacts of material, non-recurring revenue or expenses:
- Eliminate all impacts of parent, affiliated, or subsidiary companies and, to the extent reasonably feasible and prudently justified in the opinion of Duke Energy Ohio, eliminate the impacts of its natural gas distribution business

The adjusted net income will be divided by Common Equity to determine the resulting ROE. Certain adjustments will be made to Common Equity.

- Common Equity used in the calculation will be the beginning and ending average common equity of Duke Energy Ohio on a stand-alone basis (i.e., equity associated with subsidiaries will be excluded and common equity will be allocated between gas and electric service to the extent practicable)
- Equity will be adjusted to eliminate the acquisition premium recorded to equity pursuant to the Duke Energy/Cinergy Corp. merger.
- Eliminate the cumulative effect of the Net Income adjustments

If the annual return on average common equity for the relevant year, as adjusted pursuant to the above, is above 15 percent, the Company will be deemed to have had "significantly" excessive earnings. Any significantly excessive earnings shall be grossed up for taxes and refunded to customers. Any refunds will be allocated to all retail customers on the same basis as is used for allocated costs under Rider RC.
