Dear Ms. Rainey:

RE: Blue Racer 138 kV Transmission Line, Franklin Township, Monroe County, Ohio

This is in response to the receipt, on April 24, 2014, of *Phase I Archaeological Survey, Proposed SCPC Blue Racer 138 kV Transmission Line Project, Franklin Township, Monroe County, Ohio*. The comments of the State Historic Preservation Office are submitted in accordance with the provisions of Section 106 of the National Historic Preservation Act of 1966, as amended.

Intensive visual inspection and subsurface testing of the project area did not identify any archaeological remains. Therefore, based on the information provided, I agree with the recommendation that no further archaeological work is necessary in the proposed project area. It is my opinion that the proposed project will not affect historic properties. No further coordination is required unless the project changes or archaeological remains are discovered during the course of the project. In such a situation, this office should be contacted as per 36 CFR 800.13.

If you have any questions, please contact me at (614) 298-2000, or by email at nyoung@ohiohistory.org

Sincerely,

Nathan J. Young, Project Reviews Manager
Resource Protection and Review
