ENTRY

The attorney examiner finds:

- (1) On July 25, 2014, Ohio Edison Company, The Cleveland Electric Illuminating Company, and The Toledo Edison Company (collectively, the Companies) filed a “notice of compliance” providing that a ten-year request for proposal (RFP) to purchase renewable energy credits (RECs) will not be held for the period of 2015 through 2024 in accordance with the Stipulation approved by the Commission in Case No. 12-1230-EL-SSO (Stipulation).
- (2) The Stipulation provides that, “[i]f the standard service offer load of the Companies is less than 15,000,000 MWh[,] no additional solar RECs will be purchased that year.” The standard service offer load is calculated “by multiplying the Companies’ prior year non-shopping percentage, as submitted by the Companies to Commission Staff in December of each year, by the Companies’ long term forecast as filed with the Commission on April 15 for the year in which an RFP may occur.”
- (3) The Companies’ notice of compliance states that their standard service offer load is less than 15,000,000 megawatt hours (MWh) for the year in which the RFP may occur (2014), based on the data provided in the Companies’ long-term forecast.
- (4) In order to accomplish a review of the Companies’ notice of compliance, the attorney examiner finds that the following procedural schedule should be established:

- (a) The deadline for the filing of comments on the Companies' notice of compliance shall be September 12, 2014.
- (b) The deadline for all parties to file reply comments shall be September 26, 2014.
- (c) The deadline for the filing of motions to intervene shall be October 10, 2014.

It is, therefore,

ORDERED, That the procedural schedule set forth in finding (4) be adopted. It is, further,

ORDERED, That a copy of this Entry be served upon each party of record.
