**Case No. 14-1223-EL-REN  
Vaughn Industries, LLC-OH-PV-134.750kW Facility  
Staff Interrogatories – Initial Set**

**Question 1:**

In Section G.3 of the application, you are required to submit digital photographs that depict an accurate characterization of the renewable generating facility. The image submitted does not cover all the solar panels.

Please submit additional photograph/s that together cover all the panels **OR** indicate the row X column configuration of the panels.

**Answer 1:** There are 5 rows of 110 modules each. Each row is uniform and identical to what you see in that first full row in the front.

**Question 2:**

In Section N.1.e of the application, you are required to submit a photograph of the meters with date image taken. The image submitted in Section N.1.e does not show other important details such as the manufacturer, model, and serial number of the meters.

Please submit a photograph of each meter (see examples below) that shows these details and indicate the date/s when the photographs were taken.

**Answer 2:** Hope these photos work.

Please let me know if you have any further questions and thank you for your cooperation.

Best,

Anna Noucas  
Senior Associate  
Sol Systems, LLC
