

**Case No. 14-1298-EL-REN  
Lambert Residential  
Staff Interrogatories – Initial Set**

Question 1: In Section A of the application, the facility street address and the facility latitude and longitude are 1 mile apart. Please provide the correct facility latitude and longitude with at least 6 decimal places.

Answer 1: Exact location 41 degrees 40' 34.89"N, (-)81 degrees 08' 51.70"W

Question 2: In section M you stated that the facility is Distributed Generation with both on-site use and wholesale sales. Systems with wholesale sales are usually larger than 100 kW and are connected to the transmission grid through PJM. Is your system connected to the to the transmission grid through PJM? Or perhaps is your system:

— Distributed Generation with a net metering and interconnection agreement with a utility.  
Identify the utility: CEI

Answer 2:

Yes: Distributed Generation with a net metering and interconnection agreement with a utility.

Identify the Utility: CEI

No: Distributed Generation with both on-site use and wholesale sales.

Identify the Utility:

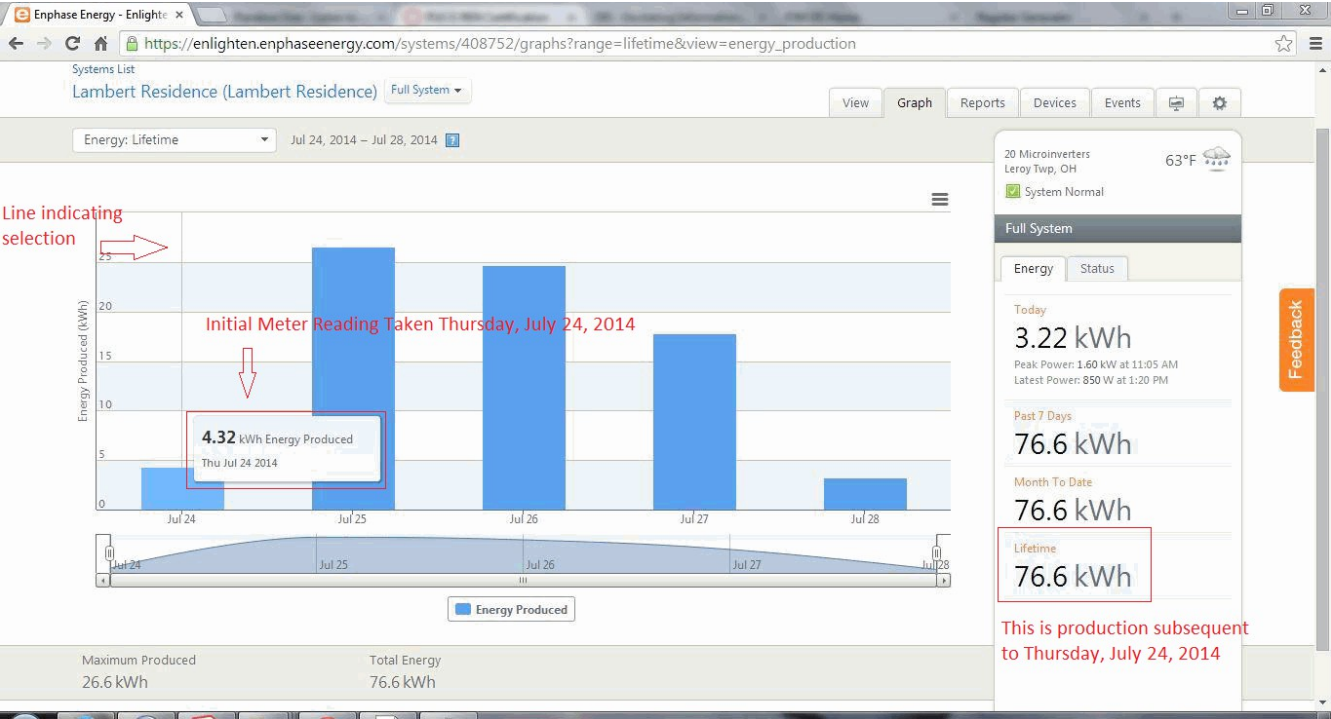

Question 3: In section N.1.e you state that that the meter reading is 4.32 kWh. But the enphase screen shot shows the meter reading as

Is the meter reading 76.6 kWh?

Answer 3: The initial meter reading was 4.32 kWh on July 24, 2014, the day the system went online. The production since that date had accumulated to 76.6kWh at the time of the picture (picture was taken July 28, 2014 @ 12:00pm noon). Please see picture below for clarification.
