What is the Village Electric Aggregation Program?

Under the Village Electric Aggregation Program, the Village acted on behalf of its electricity consumers to select an electricity supply provider who, through the power of volume buying, is able to secure electricity at competitive prices. The Public Utilities Commission of Ohio (“PUCO”) has taken steps to ensure that Ohio’s competitive electricity environment is consumer-friendly. Voters in the Village approved this aggregation program and the Village Council passed an ordinance adopting this Electric Aggregation program.

The Village has selected AEP Energy as their preferred electricity supply provider to serve their residents beginning with the November 2014 billing cycle for a period of thirty-six (36) months.

Who is AEP Energy?

AEP Energy is a certified Competitive Retail Electric Service (CRES) provider and a subsidiary of American Electric Power (AEP). With an office located in Columbus, Ohio, AEP Energy sells electricity supply to customers at market-based prices rather than regulated rates offered by your local utility.

How do I enroll?

You don’t have to do anything to enroll. All eligible customers will be automatically included in the program unless you choose to “opt-out.” If you “opt-out,” you will continue to be served by your local electric utility’s standard service offer or until you choose an alternative electric service provider. However, if you do not respond to this letter, the utility will complete the enrollment process. Once the utility completes your enrollment, you will be mailed an enrollment confirmation notice that your electric service will be provided by AEP Energy. No deposits are required to enroll.

When will this program start?

The Village Electric Aggregation Program will begin with the November 2014 billing cycle.

What is my price?

The Village of Fort Recovery has ensured that, beginning with the November 2014 billing cycle, depending on your meter-read date, you will receive an electricity generation price of 5.99 cents per kWh for a period of thirty-six (36) months.

How do I estimate my savings?

To estimate what your savings per kilowatt-hour (kWh) will be through this program, locate your ‘Price to Compare’ on your electricity bill. This is the price you pay for electric generation and transmission service from the utility. Take your ‘Price to Compare’ and subtract the offer price. This equates to your savings per kWh. Multiply your savings per kWh by your monthly usage (kWh) to determine your savings amount per month. The utility distribution charges and other utility charges and fees are not included in the savings calculation and will continue to be assessed by the local utility. (Any estimate of savings is not a guarantee of savings.)

Where do I send payment?

You will continue to receive one bill each month from your local utility. The amount that you owe to AEP Energy will be stated separately on your bill and you will continue to send payments to your local utility only.

Can I remain on budget billing?

Yes, you can remain on budget billing; however, the budget billing program does not apply to your charges from AEP Energy – only to charges from the electric utility. Your total charges from AEP Energy will fluctuate from month to month according to your usage.

Can I cancel at any time?

Yes, you may cancel without penalty and switch to another provider or revert back to DP&L, the local utility. Should you cancel your service with AEP Energy and return to standard offer service with your local utility, you may not be served under the same rates, terms, and conditions that apply to other utility customers.

What happens at the end of the program?

As the program draws to a close, the Village can choose to seek bids from electricity providers in order to negotiate a new contract on behalf of eligible households. If at that time, the program has not produced the savings originally anticipated for customers, the Village can also choose to end the program, at which time participants would be notified of their options for continuing in a different program with AEP Energy, switching to another provider, or reverting back to the local utility.

Why is this an “opt-out” program?

It enables AEP Energy to offer a lower group rate based on the Village’s size.

Why did the Village select AEP Energy as its provider?

The Village selected AEP Energy because they were able to propose a program that represented the best overall value for eligible households.

If I opt-out initially, can I choose to join the program at a later date?

If you opt-out initially, unfortunately, you will not be able to join the program at a later date.

What happens if my family moves to another home?

If you move to another home location within the Village of Fort Recovery, you will be able to continue participating in the program. If you leave the Village of Fort Recovery, you will no longer be eligible to participate.

Unless you affirmatively “opt-out” by October 13, 2014, you will be automatically enrolled if you: a) have an eligible residence located in the specified city receiving electric service from AEP Ohio or AEP Energy and b) are not enrolled in the PIPP program. Participation in the program is subject to the Terms & Conditions of the Agreement between the Village and AEP Energy. ¹Estimated savings apply to the generation and transmission (if bypassable) service portions of your electricity bill and are based on an average residential customer, using 750 kWh of electricity on a monthly basis with a weighted average DP&L Price to Compare (PTC) rate of 8.93 as of September 2014 compared to our price of 5.99 cents per kWh. ²AEP Energy’s price excludes utility distribution charges and other utility charges and fees. You may terminate your agreement early without penalty. For more information, call 1-877-726-0214, write to: AEP Energy, PO Box 3489, Chicago, IL 60654, or visit AEPenergy.com.

If you have any additional questions, please contact the AEP Energy Customer Care Team at **1-877-726-0214**, Monday – Friday from 8 am to 7 pm and Saturday from 9 am to 1 pm EST.

CONDITIONS. These Terms and Conditions (this "Agreement") are your agreement for Generation Service and applicable Transmission Services with AEP Energy, Inc. ("AEP Energy"). Please keep a copy of this Agreement for your records. AEP Energy is certified by the Public Utilities Commission of Ohio ("PUCO") to offer and supply Generation Service in Ohio. As a Competitive Retail Electric Service ("CRES") provider, AEP Energy will supply the electric generation and provide applicable transmission services to your Electric Distribution Utility ("EDU") based on your usage. Your EDU then distributes or delivers the electricity to you. Your Distribution Service will remain with your current EDU, which is regulated by the PUCO.

DEFINITIONS: "Competitive Retail Electric Service Provider" or "CRES" provider means, as defined by Chapter 4901:1-21 of the Substantive Rules applicable to electric service providers, an entity that sells electric energy to retail customers in Ohio. "Generation Service" means the production of electricity. "Generation-Related Charges" means those charges or costs associated with the production, procurement and supply of electricity. "Non-bypassable utility charges and fees" means those EDU charges and fees payable by you regardless of whether the EDU or a CRES provides Generation Service. "Transmission Service" means moving high voltage electricity from a generation facility to the distribution lines of an EDU. "Distribution Service" means the physical delivery of electricity to customers by the EDU.

RIGHT OF RESCISSION. Once you have been enrolled to receive Generation Service from AEP Energy, your EDU will send you a confirmation letter. You have the right to rescind your enrollment without penalty within seven (7) calendar days following the postmark date of the confirmation letter by contacting your EDU and following the instructions contained in the letter. The Right of Rescission only applies when you initially switch to AEP Energy and not upon renewal. Your EDU will not send a confirmation notice upon any renewal of this Agreement.

TERMS AND CONDITIONS OF SERVICE

1. Eligibility. Residential customer accounts that are on residential rates codes and are not enrolled in the Percentage of Income Plan Program (PIPP) and non-national account small commercial customers with annual usage less than 700,000 kWh are eligible for this offer from AEP Energy. AEP Energy reserves the right to refuse enrollment to any customer with an outstanding, unpaid electric bill.

2. Basic Service Prices. During the term of this Agreement, you agree to pay AEP Energy a price for all applicable combined Transmission Service, Generation Service and Generation-Related Charges as

specified in "Generation Service Charges" listed above including any applicable taxes, if any. For the "Term" listed above, all kilowatt-hours ("kWh") of electric energy metered by the EDU shall be billed at the rate per kWh specified above. In addition to AEP Energy's charges, you will be charged by your EDU for Distribution Service and other EDU charges and fees. An average residential customer, using 750 kWh of electricity on a monthly basis, would incur approximately \$35 to \$40 per month in such EDU charges and fees. Also, AEP Energy will charge you for any and all fees, costs, and obligations for transmission services imposed by a Regional Transmission Organization ("RTO"), such as PJM Interconnection, LLC, or an Independent System Operator (ISO), such as the Midwest Independent Transmission System Operator (MISO) or any successor organizations (collectively, referred to as the RTO), that are not otherwise reimbursed to AEP Energy, regardless of whether such charges are greater than, less than, or equal to the charges you currently pay for these services ("RTO/Transmission and Ancillary Services Charges"). AEP Energy will pass through to you any RTO/Transmission and Ancillary Services Charges, which may be variable, related to AEP Energy's providing electricity to you and any additional or increased fees or charges that are beyond AEP Energy's reasonable control. That could include, but not be limited to, fees for switching, disconnecting, reconnecting or maintaining electric service or equipment, changes to capacity related charges, transmission or transmission-related charges, or changes to retail electric customer access programs, that are imposed by law, rule, regulation or tariff, or PUCO rule or order. These charges or fees will be passed through to you and added to your price.

3. Length of Agreement. Your service from AEP Energy will begin with the next available meter-reading following: a) the seven (7) day rescission period; b) the acceptance of the enrollment request by AEP Energy (at its discretion and consistent with Paragraph 7 below), and c) processing of the enrollment by your EDU, and will continue for the Term, unless otherwise terminated or renewed, ending on the meter read for the last month of service.

4. Billing. You will continue to receive a single bill from your EDU that will contain both your EDU and AEP Energy charges. AEP Energy does not offer budget billing for AEP Energy's charges. If you do not pay your bill by the due date, AEP Energy may cancel this Agreement after giving you a minimum of fourteen (14) days written notice. Upon cancellation you will be returned to your EDU as a customer. You will remain responsible to pay AEP Energy for any electricity used before this Agreement is cancelled as well as any late payment charges. Further, your failure to pay EDU charges

may result in your electric service being disconnected in accordance with the EDU tariff.

5. Penalties, Fees and Exceptions. Your EDU may charge you a switching fee. If you do not pay the full amount owed to AEP Energy by the due date of the bill, AEP Energy may charge a late payment fee up to one and one-half (1.5%) percent of the outstanding balance per month, or the maximum legally allowed interest rate, whichever is lower until such payment is received by AEP Energy. AEP Energy reserves the right to demand adequate assurances from you in the form of prepayment or other form of credit support in the event you fail to make payments in accordance with the terms herein. Customers requiring financial assurance will be required to post that assurance within 3 business days of notice.

6. Cancellation/Termination Provisions/Failure to Pay. If this Agreement is not rescinded during the rescission period, enrollment will be sent to your EDU. You may terminate this Agreement, without penalty, if you move outside AEP Energy's service area or into an area where AEP Energy charges a different price, by providing AEP Energy with a thirty (30) day written notice prior to such move. Any failure to pay your bill shall be deemed a breach of this Agreement permitting AEP Energy to terminate this Agreement upon fourteen (14) days advance written notice. Should you cancel service with AEP Energy and return to standard offer service with your EDU, you may not be served under the same rates, terms, and conditions that apply to other EDU customers.

7. Customer Consent and Information Release Authorization. By accepting this offer from AEP Energy, you understand and agree to the terms and conditions of this Agreement with AEP Energy. You authorize AEP Energy to obtain information from the EDU that includes, but is not limited to: billing history, payment history, historical and expected electricity usage, meter-readings, and characteristics of electricity service. AEP Energy reserves the right to check your credit with a consumer credit reporting agency to determine if your credit standing is satisfactory before accepting your enrollment request. This Agreement shall be considered executed by AEP Energy following: a) acceptance of your enrollment request by AEP Energy; b) the end of the seven (7) day rescission period, and c) acceptance of enrollment by your EDU.

8. Contract Renewal. At the end of its term, this Agreement will expire. As prescribed by the PUCO, at least every three years, you will be given the opportunity to "opt-out" of your community program at no cost. You are responsible for arranging your electric supply upon the expiration of the Agreement.
