It is time to give some consideration to the environment. Our coal resources will only last for so long. We can do ourselves, and more importantly, our future generations a favor by starting to truly utilize our renewable energy standards. It is time to put a halt to Duke's ~~tyrannical~~ rule. We don't want to pay more for these damaging services. Bailout the guy that is paying for Duke and can barely afford the energy costs as it is, not the Duke. Thanks
