A-13 If not currently participating in any of Ohio's four Natural Gas Choice Programs, provide the approximate start date that the applicant proposes to begin delivering services:

Columbia Gas of Ohio	Intended Start Date
Dominion East Ohio	Intended Start Date
Duke Energy Ohio	Intended Start Date
Vectren Energy Delivery of Ohio	Intended Start Date

PROVIDE THE FOLLOWING AS SEPARATE ATTACHMENTS AND LABEL AS INDICATED.

- A-14 <u>Exhibit A-14 "Principal Officers, Directors & Partners,</u>" provide the names, titles, addresses and telephone numbers of the applicant's principal officers, directors, partners, or other similar officials.
- A-15 <u>Exhibit A-15 "Corporate Structure</u>," provide a description of the applicant's corporate structure, including a graphical depiction of such structure, and a list of all affiliate and subsidiary companies that supply retail or wholesale natural gas or electricity to customers in North America.
- A-16 <u>Exhibit A-16 "Company History</u>," provide a concise description of the applicant's company history and principal business interests.
- A-17 Exhibit A-17 "Articles of Incorporation and Bylaws, provide the articles of incorporation filed with the state or jurisdiction in which the applicant is incorporated and any amendments thereto, only if the contents of the originally filed documents changed since the initial application.
- A-18 <u>Exhibit A-18 "Secretary of State</u>," provide evidence that the applicant is still currently registered with the Ohio Secretary of the State.

SECTION B - APPLICANT MANAGERIAL CAPABILITY AND EXPERIENCE

PROVIDE THE FOLLOWING AS SEPARATE ATTACHMENTS AND LABEL AS INDICATED

- **B-1** Exhibit B-1 "Jurisdictions of Operation," provide a current list of all jurisdictions in which the applicant or any affiliated interest of the applicant is, at the date of filing the application, certified, licensed, registered, or otherwise authorized to provide retail natural gas service, or retail/wholesale electric services.
- **B-2** <u>Exhibit B-2 "Experience & Plans</u>," provide a current description of the applicant's experience and plan for contracting with customers, providing contracted services, providing billing statements, and responding to customer inquiries and complaints in accordance with Commission rules adopted pursuant to Section 4929.22 of the Revised Code and contained in Chapter 4901:1-29 of the Ohio Administrative Code.
- **B-3** <u>Exhibit B-3 "Summary of Experience</u>," provide a concise and current summary of the applicant's experience in providing the service(s) for which it is seeking renewed certification (e.g., number and types of customers served, utility service areas, volume of gas supplied, etc.).
- **B-4** Exhibit B-4 "Disclosure of Liabilities and Investigations," provide a description of all existing, pending or past rulings, judgments, contingent liabilities, revocations of authority, regulatory investigations, or any other matter that could adversely impact the applicant's financial or operational

status or ability to provide the services for which it is seeking renewed certification since applicant last filed for certification.

- **B-5** <u>Exhibit B-5 "Disclosure of Consumer Protection Violations</u>," disclose whether the applicant, affiliate, predecessor of the applicant, or any principal officer of the applicant has been convicted or held liable for fraud or for violation of any consumer protection or antitrust laws since applicant last filed for certification.
 - No Yes

If Yes, provide a separate attachment labeled as <u>Exhibit B-5</u> "Disclosure of Consumer Protection <u>Violations</u>," detailing such violation(s) and providing all relevant documents.

- **B-6** Exhibit B-6 "Disclosure of Certification Denial, Curtailment, Suspension, or Revocation," disclose whether the applicant or a predecessor of the applicant has had any certification, license, or application to provide retail natural gas or retail/wholesale electric service denied, curtailed, suspended, or revoked, or whether the applicant or predecessor has been terminated from any of Ohio's Natural Gas Choice programs, or been in default for failure to deliver natural gas since applicant last filed for certification.
 - ☑ No □ Yes

If Yes, provide a separate attachment, labeled as <u>Exhibit B-6</u> "Disclosure of Certification Denial, <u>Curtailment, Suspension, or Revocation,</u>" detailing such action(s) and providing all relevant documents.

SECTION C - APPLICANT FINANCIAL CAPABILITY AND EXPERIENCE

PROVIDE THE FOLLOWING AS SEPARATE ATTACHMENTS AND LABEL AS INDICATED

- C-1 <u>Exhibit C-1 "Annual Reports</u>," provide the two most recent Annual Reports to Shareholders. If applicant does not have annual reports, the applicant should provide similar information, labeled as Exhibit C-1, or indicate that Exhibit C-1 is not applicable and why.
- C-2 <u>Exhibit C-2 "SEC Filings</u>," provide the most recent 10-K/8-K Filings with the SEC. If applicant does not have such filings, it may submit those of its parent company. If the applicant does not have such filings, then the applicant may indicate in Exhibit C-2 whether the applicant is not required to file with the SEC and why.
- C-3 <u>Exhibit C-3 "Financial Statements</u>," provide copies of the applicant's two most recent years of audited financial statements (balance sheet, income statement, and cash flow statement). If audited financial statements are not available, provide officer-certified financial statements. If the applicant has not been in business long enough to satisfy this requirement, it shall file audited or officer-certified financial statements covering the life of the business.
- C-4 <u>Exhibit C-4 "Financial Arrangements</u>," provide copies of the applicant's current financial arrangements to conduct competitive retail natural gas service (CRNGS) as a business activity (e.g., guarantees, bank commitments, contractual arrangements, credit agreements, etc.)
- C-5 <u>Exhibit C-5 "Forecasted Financial Statements</u>," provide two years of forecasted financial statements (balance sheet, income statement, and cash flow statement) for the applicant's CRNGS operation, along with a list of assumptions, and the name, address, email address, and telephone number of the preparer.

- C-6 Exhibit C-6 "Credit Rating," provide a statement disclosing the applicant's current credit rating as reported by two of the following organizations: Duff & Phelps, Dun and Bradstreet Information Services, Fitch IBCA, Moody's Investors Service, Standard & Poors, or a similar organization. In instances where an applicant does not have its own credit ratings, it may substitute the credit ratings of a parent or affiliate organization, provided the applicant submits a statement signed by a principal officer of the applicant's parent or affiliate organization that guarantees the obligations of the applicant.
- Exhibit C-7 "Credit Report," provide a copy of the applicant's current credit report from Experion, C-7 Dun and Bradstreet, or a similar organization.
- C-8 Exhibit C-8 "Bankruptcy Information," provide a list and description of any reorganizations, protection from creditors, or any other form of bankruptcy filings made by the applicant, a parent or affiliate organization that guarantees the obligations of the applicant or any officer of the applicant in the current year or since applicant last filed for certification.
- Exhibit C-9 "Merger Information," provide a statement describing any dissolution or merger or C-9 acquisition of the applicant since applicant last filed for certification.

SECTION D - APPLICANT TECHNICAL CAPABILITY

PROVIDE THE FOLLOWING AS SEPARATE ATTACHMENTS AND LABEL AS INDICATED,

- Exhibit D-1 "Operations," provide a current written description of the operational nature of the **D-1** applicant's business. Please include whether the applicant's operations will include the contracting of natural gas purchases for retail sales, the nomination and scheduling of retail natural gas for delivery, and the provision of retail ancillary services, as well as other services used to supply natural gas to the natural gas company city gate for retail customers.
- D-2 Exhibit D-2 "Operations Expertise," given the operational nature of the applicant's business, provide evidence of the applicant's current experience and technical expertise in performing such operations.
- D-3 Exhibit D-3 "Key Technical Personnel," provide the names, titles, email addresses, telephone numbers, and background of key personnel involved in the operational aspects of the applicant's current business.

Corporate Structure

(See Attached)

Corporate Structure

Energy Cooperative of Ohio is a not-for-profit corporation structured as an energy cooperative, and is comprised of a Board of Trustees, and a General Manager and Treasurer employed by the Board. The Board Chair acts as the chief executive officer of the cooperative under the Code of Regulations. The General Manager oversees day-to-day operations. The Treasurer oversees the finances of the cooperative. There are no affiliates or subsidiary companies that supply retail or wholesale natural gas or electricity to customers in North America.

EXHIBIT A-16

Company History

(See Attached)

Company History

The Energy Cooperative of Ohio is a buying group organized to provide low cost services to member businesses. Cooperatives are unique because the consumers they serve own them. They are guided by principles that reflect the best interest of those consumers. According to the National Rural Electric Cooperative Association, more than 100 million Americans are members of 47,000 U.S. cooperatives providing a wide array of goods and services.

In 1998, an energy cooperative was formed in Ohio by a group of business people, to save money on natural gas costs. The Energy Cooperative of Ohio was organized under Chapter 1729.01 *et seq.*, Ohio Rev. Code, and operates under the law of the state of Ohio to provide at-cost natural gas to its Members. The Co-op has met all of the requirements of the Public Utilities Commission of Ohio, East Ohio Gas/Dominion East Ohio, Columbia Gas of Ohio and Vectren Energy Delivery of Ohio to serve residential, commercial and industrial customers under the Choice and Firm Requirements programs.

The Co-op approach combines the gas accounts of all its members into one group, secures wholesale supplies and services and then passes those supplies and services to the members in a not-for-profit fashion. This allows the total group to appear as one large customer, and achieve the bargaining power that goes along with it. The Co-op also works to minimize total fuel costs. This includes the combination of the supplier costs, the total utility costs and the management costs.

Generally, a marketer or broker may buy gas at the lowest price it can obtain and resells the gas at the highest price the market will bear. They have a different incentive than a Co-op whose mission is to provide the lowest cost natural gas to its members.

The Energy Cooperative of Ohio is a non-for-profit corporation owned by the member businesses and individuals. Over its years of operation in Ohio it has invited any creditworthy business that qualifies to apply for membership. There is no sign-up fee or deposit required.

Experience & Plans

(See Attached)

Experience and Plans

The Energy Cooperative of Ohio is a buying group organized to provide low cost services to member businesses. Cooperatives are unique because the consumers they serve own them. They are guided by principles that reflect the best interest of those consumers. According to the National Rural Electric Cooperative Association, more than 100 million Americans are members of 47,000 U.S. cooperatives in the United States providing a wide array of goods and services.

In 1998, an energy cooperative was formed In Ohio by a group of business people, to save money on natural gas costs. The Energy Cooperative of Ohio operates under the laws of the state of Ohio to provide at-cost natural gas to its members. The Co-op has met all of the requirements of the Ohio Consumers' Counsel, the Public Utilities Commission of Ohio, East Ohio Gas and Columbia Gas of Ohio to serve commercial and industrial customers under the Choice and Firm Requirements programs.

The Energy Cooperative of Ohio is modeled after the Energy Cooperative of New York, which has been operating successfully in New York for several years and currently has a sizeable number of customers. There is no financial relationship between Energy Cooperative of New York and Energy Cooperative of Ohio.

The Co-op's approach combines the gas accounts of all its members into one group, secures wholesale supplies and services and then passes those supplies and services to the members in a not-for-profit fashion. This allows the total group to appear as one large customer, and achieve the bargaining power that goes along with it. The Co-op also works to minimize total fuel costs. This includes the combination of the supplier costs, the local utility costs and the managerial costs.

Energy Cooperative of Ohio benefits:

- 1. "Consumer first" philosophy
- 2. Energy management services
- 3 Lower costs through volume aggregation
- 4. Shared ownership and revenue reallocation
- 5. Group buying power
- 6. A focus on member service and satisfaction
- 7. Local production aggregation
- 8. Toll-free customer service number
- 9. Intrastate and interstate pipeline expertise
- 10. Financially secure cooperative
- 11. Simple enrollment
- 12. Variety of billing and pricing options

Summary of Services

Physical Supply of natural gas and electricity - Natural gas accounts in Ohio can be included in an existing aggregation group or if large enough, can become a direct customer of their utilities. Accounts located in utility territories in other areas of the United States are competitively bid to approved energy suppliers in those areas. The goals of the physical supply program are to improve upon the buying strategies of the utility and maximize savings off of their avoided retail rates.

Risk Management - A corporate hedging program is utilized by ECO for aggregate volumes of natural gas for facilities whose commodity supply pricing is based upon market pricing. For natural gas accounts anywhere in the United States, future contracts based upon the New York Mercantile Exchange (NYMEX) would be utilized to hedge aggregate monthly pricing. An allocation methodology is used to allocate gains or losses from the corporate program to individual cost centers. The net financial position from the hedging strategy is then blended in with actual physical supply costs on a monthly basis to provide a final hedged cost for each account. The goals of the risk management program are reduced price risk and greater price certainty.

Utility Accounts/Utility Bill Payables Process - Utility bills are received, processed and paid out of an escrow account. Funds are wire transferred to this account by the client on a monthly or by-weekly basis. Reporting can be provided manually, electronically or via a protected web site. The goals of the utility bill payables and processing program are to verify the Integrity of charges, process invoices in the timely fashion, gather information and store that information in a convenient fashion.

The accounts receivables of cooperative members enrolled in Choice programs are purchase by the local distribution company ("LDC"). Revenues from sales are remitted to the cooperative on a monthly basis.

Reporting - Account reporting. Including all components of our service, is provided monthly. Typical reports include Cost Allocation, Energy Usage, Budget Variance and Savings Reports. The goals of the reporting service are to provide the client with access to their raw utility data, access to standardized reports and allow for interactive generation of custom reports.

EXHIBIT B-3 Summary of Experience

(See Attached)

Summary of Experience

The Energy Cooperative of Ohio ("ECO") has successfully operated as a gas supplier for its member customers in the Columbia Gas of Ohio ("COH") service territory for fourteen years, in the East Ohio Gas/Dominion East Ohio ("DEO") service territory for twelve years, currently supplying approximately 713,102 mcf to 3,126 customers. In offering its service, ECO has complied with all laws and regulations of the state of Ohio and the rules established by the COH and DEO.

Throughout its fourteen years of operation, ECO has provided its customers with the following services:

Physical Supply of natural gas and electricity - Natural gas accounts in Ohio has been included In an existing aggregation group or If large enough, can become a direct customer of their utilities. Accounts located in utility territories in other areas of the United States are competitively bid to approved energy suppliers in those areas. The goals of the physical supply program are to improve upon the buying strategies of the utility and maximize savings off of their avoided retail rates.

Risk Management - A corporate hedging program is utilized by ECO for aggregate volumes of natural gas for facilities whose commodity supply pricing is based upon market pricing. For natural gas accounts anywhere in the United States, future contracts based upon the New York Mercantile Exchange (NYMEX) would be utilized to hedge aggregate monthly pricing. An allocation methodology is used to allocate gains or losses from the corporate program to individual cost centers. The net financial position from the hedging strategy is then blended in with actual physical supply costs on a monthly basis to provide a final hedged cost for each account. The goals of the risk management program are reduced price risk and greater price certainty.

INDEPENDENT ACCOUNTANTS' REVIEW REPORT

To the Board of Directors and Members Energy Cooperative of Ohio Pickerington, Ohio

We have reviewed the accompanying balance sheets of Energy Cooperative of Ohio (a nonprofit corporation) as of December 31, 2013 and 2012, and the related statements of operations and patronage capital and cash flows for the years then ended. A review includes primarily applying analytical procedures to management's financial data and making inquiries of Organization management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for designing, implementing, and maintaining internal control relevant to the preparation and fair presentation of the financial statements.

Our responsibility is to conduct the review in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. Those standards require us to perform procedures to obtain limited assurance that there are no material modifications that should be made to the financial statements. We believe that the results of our procedures provide a reasonable basis for our report.

Based on our reviews, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with accounting principles generally accepted in the United States of America.

ENERGY COOPERATIVE OF OHIO

NOTES TO FINANCIAL STATEMENTS

Note A - Organization and Purpose

Energy Cooperative of Ohio (the Organization) was incorporated in the State of Ohio on July 14, 1998. The Organization was formed as a cooperative for the purpose of purchasing, storing, transporting and selling natural gas to its members located in Central Ohio. Natural gas is transmitted to members of the Organization via the local utilities' pipelines.

Note B - Significant Accounting Policies

The following is a summary of certain significant accounting policies which is presented as an integral part of the financial statements. The policies conform to generally accepted accounting principles.

<u>Cash Equivalents</u> - For purposes of the statements of cash flows, the Organization considers all short-term debt securities purchased with a maturity of three months or less to be cash equivalents. The Organization maintains its cash in one financial institution.

<u>Accounts Receivable</u> - Accounts receivable are from the Organization's members for the purchase of natural gas and are recorded when gas is shipped and are presented in the balance sheet net of any allowance for doubtful accounts. Accounts receivable are written off when they are determined to be uncollectible. Any allowance for doubtful accounts is estimated based on the Organization's historical losses, the existing economic conditions in the industry, and financial stability of the members. The Organization considers all receivables to be fully collectible at December 31, 2013 and 2012, accordingly no allowance is deemed necessary. Bad debt expense during 2013 and 2012 was \$0 and \$290, respectively.

Inventory - Inventory consists of natural gas and is priced at the lower of cost (first-in, first-out) or market.

<u>Property and Equipment</u> - The Organization carries property and equipment at cost. Contributed property and equipment is recorded at fair value. Asset costs in excess of \$200 are capitalized. Maintenance, repairs and renewals are expensed as incurred.

<u>Depreciation</u> - Depreciation is provided using the straight-line method for financial reporting purposes at rates based on estimated useful lives ranging from three to five years. Depreciation expense for the years ended December 31, 2013 and 2012 was \$2,850 and \$4,785, respectively.

<u>Revenue Recognition</u> - Revenue is recorded based on the actual volume of natural gas shipped to members using contractual rates. Interest is charged on all past due accounts. Accounts are considered past due 20 days from billing.

Advertising Costs - Advertising costs are expensed as incurred. Advertising expense for the years ended December 31, 2013 and 2012 was \$5,336 and \$4,557, respectively.

 $\underline{Financial Instruments}$ – Substantially all of the Organization's current assets and liabilities are considered financial instruments. These assets and liabilities are reflected at fair value, or at carrying amounts that approximate fair value because of the short maturity of the instrument.

<u>Functional Expenses</u> - The costs of providing the various programs and other activities have been summarized on a functional basis in the statements of operations and patronage capital. Accordingly, certain costs have been allocated among the program and supporting services benefited. Purchased gas and other costs and payroll, benefits, and related taxes are program expenses; Sales, promotion and commissions are fundraising expenses; and administrative and general and depreciation are administrative and general expenses.

<u>Presentation of Sales Tax</u> - The State of Ohio and counties within the State impose a sales tax on all of the Organization's sales to non-exempt customers. The Organization collects that sales tax from customers and remits the entire amount to the State. The Organization's accounting policy is to exclude the tax collected and remitted to the State from revenue and cost of sales.

ENERGY COOPERATIVE OF OHIO

NOTES TO FINANCIAL STATEMENTS

Note B - Significant Accounting Policies (continued):

<u>Income Taxes</u> - The Organization follows accounting rules that prescribe when to recognize and how to measure the financial effects, if any, of income tax positions taken or expected to be taken on its income tax returns, including the position that the Organization continues to qualify to be treated as non-for-profit organization exempt from income tax provisions. Management is required to evaluate the likelihood that, upon examination by relevant taxing jurisdictions, those income tax positions would be sustained.

The Organization is a not-for-profit organization exempt from income taxes under Section 501(c)(12) of the Internal Revenue Code. Accordingly, no provision for federal income taxes has been made in the financial statements. The Organization's informational returns for tax years 2010 and beyond remain subject to examination by the Internal Revenue Service.

The Organization did not have unrecognized tax benefit as of December 31, 2013 and 2012 and does not expect this to change significantly over the next 12 months. The Organization will recognize interest and penalties accrued on any unrecognized tax benefits as a component of income tax expense. As of December 31, 2013 and 2012, the Organization has not accrued interest or penalties related to uncertain tax positions.

<u>Estimates</u> - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

Note C -- Patronage Capital

The Organization's member equity plan provides for distributions of excess capital to members on a monthly basis by altering monthly gas supply prices. Cash dividends can also be declared by the Board of Directors.

Note D - Retirement Plan

The Organization has a 403(b) plan covering its employees which was authorized by the Board Members in December 2006 and effective beginning in January 2007. The Organization's matching contribution is 100% of the employee contribution up to the first 3% deducted from their compensation. The Organization's matching contribution expense was \$5,396 and \$7,193 for the years ended 2013 and 2012, respectively.

Note E – Leases

In September 2007, the Organization signed a sublease agreement with Volunteer Energy Services, Inc. (a related party) for office space located in Pickerington, Ohio. The lease agreement expired in September 2010 but continues on month-to-month basis requiring monthly payments of \$1,500. The total expense under these agreements was \$18,000 and \$18,000 for the years ended 2013 and 2012, respectively.

Note F – Concentrations of Credit Risk

The Organization maintains cash deposits at a financial institution that at times exceeds the federally insured limit of \$250,000. The Organization has not experienced any losses in the account. The Organization believes it is not exposed to any significant credit risk on cash and cash equivalents.

Approximately 97% and 92% of the Organization's accounts receivable at December 31, 2013 and 2012, respectively, are owed by Columbia Choice and Dominion Choice and therefore guaranteed by the utility.

ENERGY COOPERATIVE OF OHIO

NOTES TO FINANCIAL STATEMENTS

Note H - Related Party Transactions

The Organization conducts various transactions with Volunteer Energy Services, Inc (VESI) including purchasing natural gas, providing services, renting office space, etc. The following are expenses paid to VESI during the years ending December 31, 2013 and 2012.

	2013	2012
Natural gas purchases	\$ 3,511,032	\$ 2,298,727
Gas management fee	39,983	30,426
Interest	14,299	19,882
Reimbursement of health & disability	44,586	57,639
Rent & building expense	22,117	21.707

The amount due to VESI for the purchase of natural gas at December 31, 2013 and 2012 was \$1,632,683 and \$1,273,257, respectively. The Organization pays interest to VESI in the amount of .00375 for accounts payable greater than 30 days.

The Organization is offering members electricity services through VESI and is paid a commission by VESI in the amount of \$9,920 and \$8,955 during the years ended December 31, 2013 and 2012.

Two individuals related to the CFO of the Organization perform administrative services for the Organization and were paid a total salary of \$128,013 and \$114,177 during 2013 and 2012, respectively.

Board Members receive a stipend of \$300 per meeting attended as well as mileage reimbursement, as applicable, which totaled \$18,426 and \$19,775 for the years ended December 31, 2013 and 2012, respectively. The CFO of the Organization is also the President of the Board of Directors and Members and received a board member stipend of \$3,000 and \$3,300 during 2013 and 2012, respectively. One employee of Volunteer Energy Services, Inc (VESI) was a Board Member of the Organization and was paid a stipend of \$2,700 during the year ended December 31, 2013 and \$2,700 during the year ended December 31, 2012. Various Board Members and/or related businesses of Board Members were paid commissions in the amount of \$11,829 and \$13,131 during the years ended December 31, 2013 and 2012, respectively. All Board Members are members of the Organization who receive natural gas either individually or through their business from the Organization.

Note I - Subsequent Events

Management has evaluated subsequent events through April 7, 2014 the date on which the financial statements were available to be issued.

EXHIBIT C-6 Credit Rating

The Energy Cooperative of Ohio does not have a credit rating.

EXHIBIT C-7 Credit Report

The Energy Cooperative of Ohio does not have a credit report.

EXHIBIT C-8 Bankruptcy Information

The Energy Cooperative of Ohio has never filed for bankruptcy protection, therefore, this Exhibit is not applicable to Energy Cooperative of Ohio.

EXHIBIT C-9 Merger Information

The Energy Cooperative of Ohio has never been involved in a merger, acquisition or dissolution, therefore, this section is not applicable.

EXHIBIT D-1 Operations

Operations

The operations group for Energy Cooperative of Ohio ("ECO") is responsible for the following functions:

- Negotiate and procure natural gas supplies from various supply sources.
- Negotiate and procure transportation and storage agreements applicable interstate pipelines.
- Project and forecast, using appropriate methods, the demand for ECO end-user groups.
- Manage the daily nomination and scheduling process for transportation and storage deliveries on applicable interstate pipelines.
- Manage the daily nomination and scheduling process on appropriate local distribution companies.
- Perform Risk Management functions.
- Manage the monthly settlement of transactions as well as balancing supply and end-user pools.
- Perform imbalance trading activity as required.
- Update and maintain cost components for marketing price desk.
- Provide month end volume reports for accounting/billing group.

EXHIBIT D-2

Operations Expertise

Operations Expertise

Various members of the operations group for Energy Cooperative of Ohio have been involved in the natural gas business since 1987. Over that period, the industry has witnessed many regulatory changes and adaptations that have had direct operational impact on the natural gas business.

The current operational staff has been involved with the local utilities in many market areas on a national basis, including California, Illinois, Ohio and New York. The customer class that has been managed ranges from residential households (choice programs) to large auto and steel manufacturers.

This operations group has also been involved with the various interstate and Canadian, pipelines that feed the market areas. The interstate responsibilities include storage and balancing activity as well as the transmission scheduling.

EXHIBIT D-3

Key Technical Personnel

Key Technical Personnel

Key operational personnel for Energy Cooperative of Ohio are:

Marissa Dotson

General Manager, mdotson@ohioenergycoop.org. (614) 729-2321. Mrs. Dotson joined Energy Cooperative of Ohio ("ECO") in 2011. As General Manager, she oversees the enrollment processes for both Columbia Gas of Ohio and Dominion East Ohio, day to day monitoring of ECO accounts, reporting data to customers and agents, and the general operations of the cooperative. Mrs. Dotson previously worked as Office Manager and Account Administrator for CPA Advisory Group Inc.

Jeffrey M. Horsley

Transportation Manager, jhorsley@lepcorpohio.com. (614) 856-3224 x 225. Mr. Horsley's prior experience includes being the Director of Energy Supply and Operations for The Energy Cooperative (TEC). Mr. Horsley also served as Director of Gas Operations for Volunteer Energy Corporation as well as holding operational management positions with Broad Street Oil and Gas and Enron (Access Energy/Yankee Gas Company).

Tina M. Perkins

Operations Analyst, tperkinds@lepcorpohio.com. (614) 856-3224 x 230. Mrs. Perkins prior experience includes various operational positions with The Energy Cooperative (TEC), Volunteer Energy Corporation, and Broad Street Oil & Gas/Utilicorp, Energy One.

Brenda G. Hammons

Operations Analyst, Bhammons@lepcorpohio.com. (614) 856-3224 x 229. Mrs. Hammons prior experience includes various operational positions with The Energy Cooperative (TEC), Volunteer Energy Corporation and NGO Development.

John Zornes

Treasurer, jzornes@ohioenergycoop.org. (614) 328-2957. Mr. Zornes is a certified public accountant and previously served in the finance office of Capitol Manufacturing Company, a subsidiary of Harsco.

This foregoing document was electronically filed with the Public Utilities

Commission of Ohio Docketing Information System on
