180 EAST BROAD STREET
COLUMBUS, OH 43215

Dear PUBLIC UTILITIES COMMISSION OF OHIO:

I want to reduce air pollution, save money on my electric bill and urge our utilities to provide energy sources for our electricity

I care about this issue because I want cleaner air and environment. My family and I care about reducing toxic pollution and saving money on our electric bill.

My family and I should not have to pay for duke to continue polluting our air with this outdated technology. I feel that there should be a way that Duke can achieve this mission without raising our rates. Rates are already at an all-time high and keep going up.

We need duke energy to be held accountable to their customers and not their shareholders.

Sincerely,

M. Cross *Marissa Cross*
Daughter and concerned citizen

Columbus OH 43215

To Whom It May Concern,

This letter is concerning the plans submitted by Duke and First Energy for financial bailouts for some of their most outdated and expensive coal plants. They want to force us to buy power from these old expensive plants even though purchasing power from the market has saved consumers a lot of money. My family and I care about reducing toxins and supporting cleaner energy. A bailout would cause our rates to increase dramatically for no greater good. We need Duke energy to be held accountable to it's customers and not just there shareholders. Please deny any and all requests concerning this issue from Duke or First Energy.

Sincerely yours,

Mr and Mrs. Jeffrey Hickenlooper

Sept. 23, 2014

To the Public Utilities Commission of Ohio,
Case # 14-0841-EL-SSO

I watched a program last week on television. It was either 20/20 or 60 Minutes. The issue being save money and fix the old outdated technology.

The bailout would not be the answer. All of our rates would go up no mater what energy company we would use. I do want to save money on my electric bill, but with that in mind, I also want cleaner air.

We want Duke Energy to be held accountable to their customers.

Attention Case No 14-0841-EL-SSO

To Whom it May Concern at the PUCO

I hope you will read all the letters regarding the actions of Duke and First Energy. I am concerned for a number of reasons. First, I don't think it's right that we should use outdated technology to produce energy for Ohio. Second, I think we really need to reduce pollution by reducing carbon emissions from coal-fired power plants. I don't understand why renewable energy sources are not being considered instead of these old power plants. Please end the freeze on Ohio's renewable energy standards. I care about reducing air pollution and saving money on my electric bill by supporting clean energy instead.

Thank you,

Dorothy Elsaesser

Duke Energy,

I would like to voice my opinion on clean air. I am in favor of using cleaner energy sources. My family would like to reduce toxic pollution & use proven energy sources being used elsewhere - like harnessing wind & solar power.

Thank you -

Dear PucO,

14/841-EL-SSO

9/22/14

I urge you to please consider your customers and fellow Ohio citizens when moving forward with any decisions around having your customers pay for ~~their~~ your old coal plants.

This is irresponsible and outdated. I also care about how deadly these plants are and their continuing impact on the environment. I appreciate your consideration on this matter and hope you all choose to do the right thing.

Best,

Kelley Andersen

1. I AM A SENIOR AND HAVE VERY LITTLE INCOME AND PASSING THESE COSTS ON TO ME HURTS ME FINANCIALLY.
2. UTILITY COMPANIES SHOULD INVEST THEIR MONEY AND TAKE ANY RISKS JUST AS WE DO - WE SHOULD NOT HAVE TO BAIL THEM OUT - WHO BAILS US OUT?
3. THEY SHOULD CLEAN UP THEIR ACT AS WELL AS CLEAN UP ~~THEIR~~ THEIR POLLUTION!
4. DUKE ENERGY HAS PROVIDED POOR SERVICE AT A HIGH PRICE (ELECTRIC & GAS)!
5. YOU (PUCO) NEED TO TAKE A CLOSE LOOK AT ~~THESE~~ THESE COMPANIES AND THEIR PRACTICES - BAD PRACTICES AND WASTE SHOULD NOT BE REWARDED.

Dear PUCO,

14-841-EL-SSO

We are a Small family living on a ~~Single~~ Income ~
As a ~~Single~~ Income family we are constantly looking to
Save Where ever we can... We drive one car, walk when
We can, buy Energy Saving light bulbs! On top of that we
Recycle everything Cut back on Waste and Only eat Organic.

We care about reducing toxic pollution and Saving money
and are always looking for ways to do this!

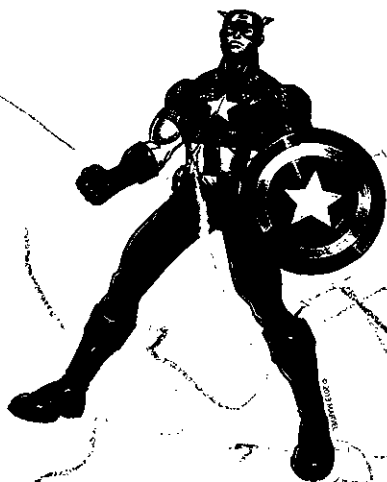

It Would be Super Awesome if Duke ENERGY
Would Wake up and Be our SUPER HERO and
Save The ~~ENERGY~~ UNIVERSE!

Sincerely,

The Sweeney family

Dear PUCO,

As a paying customer of Duke energy for over a decade, myself and others are tired of the rate increases. My family should not have to pay for Duke to continue polluting our air with this out dated technology. I know plenty of people who deal with extreme hot and cold temperatures in their home before they turn on their air conditioner or ~~heat~~ heat. They do this because of how much Duke charges. Duke should be willing to update their technology to provide cleaner air, ~~and~~ if not for their customers, do it for their families who breathe the same air. PUCO should make Duke use the funds they already collect from customers ~~on~~ outrageous bills.

Jonas S. S.

Dear Puco

I'm writing this letter about case no.
14-0841-EL&SSO.

We don't want to pay for outdated
coal plants that cause pollution.
We want Duke to start using
clean energy to reduce toxic pollution
and save us money on our
electric Bill. We should not have
to pay for Duke to continue
polluting our air with outdated
technology.

Thank you

To Whom it May Concern:

2014 SEP 26 AM 11: 50

I am writing this in regard to Case Number 14-0841-EL-SS0

PUCO

I am writing to you today to express my concern about the general state of affairs with energy and Ohio. Ohio has developed a reputation as being anti-green. The place I first noticed this was in the area of removing incentives for independent home owners to use clean energy e.g. solar panels to provide energy for homes.

Now I learn we will be paying to clean up the factories of dirty energy producers. This isn't good for me or my family. This isn't good for Cincinnati. And, it certainly isn't good for Ohio.

I pay Duke enough already and don't think it's my problem that they have created a mess. They can clean it up by using their profits, not penalizing me.

Please reconsider and take care of our Ohio citizens.

Sincerely, 
Amy Martin Elfner

9.23-14

Dear PUCO-

14-841-EL-SSU

I am concerned about toxic pollution and am against the bailout of Duke Energy's outdated coal plants. Also, please end the freeze on Ohio's renewable energy standards. We need to continue to find alternative energies for our earth to survive and thrive. Please support the Clean Power Plan - we need a federal standard to have a level playing field.

Thank you for considering
my children's and all of
our children's - futures

Sincerely,

Jobey
