Public Utilities Commission of Ohio
attention Case No. 14-0841-EL-SSO
180 East Broad Street
Columbus, OH. 43215

Dear Sir,

I am writing to you about the bailout Duke Energy for the old outdated coal plants they are now using. I want to reduce air pollution, save money on my electric bill and urge our utilities to provide cleaner energy sources for our electricity.

My family and I care about reducing toxic pollution and saving money on our electric bills by supporting clean energy. We need Duke Energy to be held accountable to their customers.

Sincerely

James J. Dolezal III

To Whom it May Concern
at PUCO

I do not want to bailout Duke Energy, Especially if it will raise my rates.

I want cleaner air, less toxins.

I do not support any type of bailout which would raise my energy rates

Re: Case Nos.14-841-EL-_SSO and 14-842-EL-ATA

Dear Commissioners:

Please include my comments as part of the official record of proceedings in the matters referenced above. Duke Energy's applications should be denied, as they are, at best premature. A distribution-only utility should fully address the type(s) of energy sources that are to distributed, predicted cost at auction(s), and how utility rates are likely to affect energy consumers, i.e. customers. It is difficult for PUCO to foresee the full impact upon utility rates by Duke Energy's request to become an energy source supplier.

Thank you for accepting my comments on these matters.

Respectfully submitted,

Diana I. Cahall
