To Pucco

I want to reduce air pollution, save money on my electric bill and urge our utilities to provide cleaner energy sources for our electricity.

Thank you for your time.

Dear Responsible Humans:

I love playing outside in fresh clean air. The fact that Duke is petitioning to keep outdated coal plants open and allow for continued air polluting is irresponsible. A responsible human society should be moving forward using clean energy and maintaining an environmentally conscious attitude. This means discontinuing the use of outdated energy methods. Please reconsider your decisions on behalf of animals everywhere.

Sincerely,

Bro Hymn Mojarro

Dear PUCO,

I want to Reduce Air  
Pollution , Save money on my  
electric bill and urge our  
utilities to provide cleaner  
energy sources for our electricity

My family and I should  
Not have to pay for Duke  
— to continue Polluting our Air  
with the outdated technology.

Quite frankly I am at a loss as to why this state is not interested in investing in clean energy. I mean, who cares about what happens 50 years down the road, that is not important, right? **WRONG**. Putting off long-term investments for short term gains causes nothing but problems. Failure to look to the future will only hurt Ohio more than it already has been. Don't give in to the big corporations, we, the citizens, are the ones that end up paying for it.

Be a good neighbor, don't let Duke, First Energy and the other big corporations put the issue off any longer. Make the move to push forward for the future with clean energy.

To Poco

My family and I care about  
reducing toxic pollution and  
saving money on our electric  
bill by supporting clean energy.

Our energy needs to be held  
accountable to their customers -  
not their shareholders.

Thank you,

Juni Robinson

Dear PUCO:

This issue is important to me because it impacts all of us. Customers should not be held accountable to bail ~~out~~ company out. I prefer cleaner air, and renewable resources. It needs to be done sooner than later. Our future depends on it.

This bailout would force our rates to go up. I don't like companies holding people hostage for basic utilities. The technology is outdated and we need to think about our future. Duke energy should look out for their customers, not their shareholders.

THANKS,

Dear Poco,

I am writing in regards to  
Case # ~~11-0844-EL-330~~.

It is important to keep our environment  
clean & keep our utility bills low.

Many of your customers have remained  
loyal & not chosen to sign with other  
utility providers. Please use these profits  
to clean up bad investments & out dated  
facilities. We are in this together.

Please don't penalize the people  
who are on your side.

Sincerely

Erica Thompson
