Public Utilities Commission of Ohio ~
I care about this issue because
I care about the world we are passing
on to our kids. With technology
available today, there is absolutely
no reason Duke cannot step up and
make much needed changes that
will help pass on a better, cleaner,
less polluted Earth onto our kids,
but will make it much more
manageable for families like mine,
that live pay check to pay check, to
be able to afford to properly heat, cool,
and use electricity / electrical items through
our house. My family should NOT have
to pay for Duke to continue to pollute
our air with this outdated technology.
And this bailout would cause ALL of
our rates to go up, no matter what energy
company we buy from. Who will bail
all of us "little people" out??!
