Docketing Case No.: 13-2385-EL-SSO

Notes:

Case # 13-2385-EL-SSO I am writing to STRONGLY OPPOSE a rate increase to cover the costs for outdated coal plants to meet new federal coal plant regulations. With the availability of natural gas and renewable energy that are so much cheaper and cleaner, it just does not make sense to provide additional support to the coal industry. The coal industry has had plenty of advanced warning and could have wisely invested in making coal energy safer for the public. The industry chose not to do that. Their lack of planning and sense of duty should not now become the responsibility of the public. It is time to let the coal industry dinosaur rest. thanks, Robin
