October 20, 2014

Public Utilities Commission of Ohio
Attention Case No. 14-0841-EL-SSO
180 East Broad Street
Columbus, OH 43215

To Whom It May Concern:

I care about the environment and do not wish to support old, out-dated coal-fired power plants. PucO should deny any request to perpetuate the use of these old power plants.

Renewable energy is the only type of energy that anyone with a conscience can support. End the freeze on renewable energy now.

We cannot afford supporting the old coal powered energy financially or environmentally. you must act responsibly for your customers who care about the future of our families in Ohio

Sincerely,

Matthew D. Andersen
