Exhibit C-9 Merger Information

On October 8, 2010, Constellation Energy closed a transaction to acquire CPower, a leading energy management and demand response provider managing approximately 850 megawatts of demand response capacity that can be dispatched in energy markets throughout North America. Subsequent to the acquisition of CPower, CNE integrated the assets and operations of CPower into CNE and on October 18, 2010 CPower was merged with and into CNE, with CNE as the surviving entity. On October 3, 2014 CNE signed an agreement with Comverge to sell its commercial and industrial demand response business.

On October 1, 2012, the electric supply assets of one of Constellation NewEnergy, Inc.'s corporate affiliates, Exelon Energy Company, merged with and into CNE with CNE as the surviving entity. In accordance with Ohio Administrative Code Chapter 4901:1:27-10 "Material changes in business", notice was provided to the Public Utilities Commission of Ohio. A copy of the docketed notice is available as Attachment C-9.

Exelon Energy Company, Case No. 00-1784-EL-CRS
Ohio Competitive Retail Electric Supplier No. 00-006E(6)**

Dear Ms. McCauley,

In accordance with Ohio Administrative Code Chapter 4901:1-27-10 "Material changes in business", Exelon Energy Company ("Exelon Energy") herein provides notice to the Public Utilities Commission of Ohio ("Commission") of a change in Exelon Energy's corporate structure.

On March 22, 2012, the Commission was notified that Exelon Corporation, parent company of Exelon Energy, acquired Constellation Energy Group, Inc. and its subsidiaries, including Constellation NewEnergy, Inc. ("CNE"), Constellation NewEnergy – Gas Division, LLC ("CNEG"), and Constellation Energy Gas Choice, Inc. ("CEGCI"). CNE is a licensed Competitive Retail Electric Supplier (CRES) in Ohio (Certificate No. 00-003E(6)); both CNEG and CEGCI are licensed Competitive Retail Natural Gas Suppliers (CRNGS) in Ohio (Certificate Nos. 09-153G(2) and 02-021G(6), respectively). All Constellation entities are in good standing with the Commission.

On October 1, 2012, as part of the ongoing integration of the company, Exelon Energy merged with and into two of its corporate affiliates. More specifically, Exelon Energy's gas assets and operations merged with and into CNEG with CNEG as the surviving entity. At the same time, Exelon Energy's electric supply assets and operations merged with and into CNE with CNE as the surviving entity. As of October 1, 2012, Exelon Energy Company has ceased to exist. A chart showing the organizational structure after giving effect to the Change in Corporate Structure is attached hereto as Exhibit A.

Both CNE and CNEG have assumed all obligations for Exelon Energy's respective electric and natural gas activities in Ohio. However, to provide a more seamless transition for Exelon Energy's natural gas choice customers in Ohio, Exelon Energy assigned its gas choice contracts to CEGCI effective September 30, 2012 on the same terms and conditions as with Exelon

Energy. Exelon Energy, CNE, CNEG and CECGI provided advance notice of these transactions to all of its customers in Ohio via bill insert and direct mail pieces, copies of which are attached as Exhibit B.

The officer and director slate, management team and financial qualifications for CNE, CECGI and CNEG remain intact as previously submitted to the Commission. Also, all previously appointed points of contact for CNEG, CECGI and CNE will remain. Thus, no updates are required to this information.

In light of these changes and the fact that CNE possesses its own CRES license and both CNEG and CECGI possess their own CRNGS licenses, in the near future we will be submitting a notice of termination of Exelon Energy's CRES and CRNGS licenses.

Should you have any questions or need additional information, please do not hesitate to contact me by telephone at 410.470.3582 or via email at joseph.donovan@constellation.com.

Yours Sincerely,

Exelon Energy is becoming Constellation, an Exelon Company.

Exelon Energy is pleased to announce that as a result of Exelon Corporation's recent merger with Constellation Energy we are integrating with one of the largest retail energy providers in the country. The combination provides your business access to the nation's largest and cleanest generation fleet, industry-leading products and services available in many markets throughout the U.S., and a continued priority to provide you with the highest level of service.

We appreciate your business and are committed to serving your energy needs today and in the future.

Dear Customer:

Exelon Corporation and Constellation Energy Group completed their merger in March 2012, creating the nation's largest competitive energy supplier, and one of the industry's cleanest and lowest-cost power generators. As part of the ongoing integration related to that merger, on October 1, 2012 Exelon Energy Company's ("Exelon Energy") retail natural gas customers will start to be served by Constellation's retail natural gas organization - Constellation NewEnergy - Gas Division, LLC ("Constellation"). We are sending this letter to you so you have advance notice of this upcoming change.

Rest assured that no changes are being made to your contract term and price as a result of this change and you will continue to deal with your current sales representative. On October 1, 2012 your Exelon Energy gas supply contract will become a Constellation contract by operation of law. Constellation hereby confirms its assumption of all obligations of Exelon Energy under your contract, including any active transaction confirmations or pricing exhibits, as of October 1, 2012. One thing that will change is our notice information. Effective October 1, 2012, any legal notices under your contract should be directed to:

Constellation NewEnergy - Gas Division, LLC
9960 Corporate Campus Drive, Suite 2000
Louisville, KY 40223
Attn: Contract Administration
Phone: (502) 426-4500
Fax: (502) 214-6381

Due to this reorganization, there are also some logistical changes that will occur. Before your next contract renewal date your current sales representative will discuss with you the need to execute a new Constellation contract. Constellation's contract structure differs from Exelon Energy's structure. Constellation utilizes a base enabling agreement that contains terms and conditions that govern the purchase and sale of natural gas and related services. Specific transactions are then entered into and documented in "Transaction Confirmations" that attach to and are subject to the base agreement. This means that each transaction will not need a new base agreement, only a new Transaction Confirmation, which contains the details of the particular deal.

Should you desire to enter into a new transaction with Constellation at any point after October 1, 2012, Constellation's standard transaction procedures will be used. Like most gas suppliers, Constellation enters into transactions with customers via electronic transmission, written record or orally and each party is bound by the terms of a transaction at the time the parties agree to the terms. It is then Constellation's standard practice to send the customer a Transaction Confirmation containing the details of the transaction. The customer then has two (2) business days to notify Constellation if anything contained in the Transaction Confirmation is incorrect. If the customer does not object to any terms, the Transaction Confirmation shall constitute the definitive written expression of the transaction.

Constellation has a longstanding record of quality customer service, competitive pricing and product offerings like electricity, load response, solar and energy efficiency that you will now have access to as part of this transition. Please feel free to call your current Exelon Energy Sales representative with any questions or comments and to find out more about Constellation's full offering of products and solutions.

Thank you for your business in the past and we look forward to continuing our relationship.

Yours very truly,

David Mally, Vice President Retail Operations

APPLICATION FOR RENEWAL OF CERTIFICATE TO PROVIDE RETAIL ELECTRIC SERVICE PURSUANT TO CHAPTER 4928, OHIO REVISED CODE

Exhibit D-1 Operations

Constellation NewEnergy, Inc. ("CNE") provides electricity commodity service to residential, commercial and industrial end-use customers through Ohio's electric choice programs. Currently, CNE may purchase electricity from an affiliated company or purchase supply through the open market on short and long term contracts with power providers. CNE provides all components necessary for the delivery of electricity to the end user, including transmission and ancillary services.

Based in Chicago, Illinois, CNE's Great Lakes Region retail office provides sales, pricing, supply origination, billing, and customer support for its Ohio customers.

CNE relies primarily upon its affiliate, Exelon Generation, LLC, which has a dedicated supply, trading, and scheduling group located in Baltimore, Maryland to support the local retail offices across the country. This group consists of traders, schedulers, accountants, credit analysts and legal assistance. This group is responsible for forecasting, scheduling, credit, and trading. A 24-hour desk began operation in September 1999, and since then Constellation NewEnergy has been accessible to counterparties 24 hours a day, 365 days a year.

Procurement of supply is handled in tandem between the local retail office and the Baltimore office, combining short and long term purchases, hedges, and hourly trades. Schedulers work closely with traders who in turn work closely with local regional supply originators to efficiently deliver electricity supply in the most cost effective manner to our customers.

Constellation NewEnergy, Inc.

Exhibit D-2 Operational Expertise

Since the inception of Constellation NewEnergy, Inc.'s ("CNE") predecessor in April 1995, CNE has become the leading competitive electricity supplier serving commercial, industrial, and governmental customers in all open and active restructured markets throughout North America. Furthermore, CNE has been an advocate for and an early participant in the opening of most newly restructured markets throughout North America. This participation typically starts with regulatory initiatives 12 to 24 months before a market fully opens.

And with this regulatory process also comes the staffing of a local CNE office. By regionally placing offices throughout the country, CNE's teams are able to develop and initiate the operational functions specific to the respective local electric distribution companies.

CNE's regional offices are fully operational prior to the first sale of competitive electricity. This approach has allowed customers to realize meaningful savings, accurate billing and reporting and knowledgeable customer service from the start.

Exhibit D-3 describes in more detail the experience of some of our key personnel.

Mr. Domagalski has been with CNE since 2004. In his current role, he identifies, evaluates and develops products and markets that have the potential to profitably grow the business. Previously, he was responsible for all activities related to pricing and product policies within NewEnergy's Great Lakes and Mid-Atlantic regions. His responsibilities included the timely

and accurate production of pricing proposals in connection with sales activities, and the development of pricing policies applicable across all products, services, and market segments.

Mr. Domagalski's scope of experience encompasses working as a strategy consultant advising companies on building profitable businesses and most recently as a business leader managing a team and organization through the transition to a competitive retail electric service market. Prior to joining NewEnergy, Mr. Domagalski was a strategy consultant for more than ten years with large international firms (Ernst & Young, PricewaterhouseCoopers and IBM). In particular, he worked with several incumbents and new entrants on the development of multi-product, multi-channel utility retailing businesses. Additionally, Mr. Domagalski took a sabbatical from PwC with Ofgem (the UK energy regulator) in 2003 to consider a range of issues relating to the consolidation of the UK retail energy supply market.

Mr. Domagalski has written widely on the topic of competitive trends in the utility industry as well as has spoken at conferences in the US and Europe. He is a graduate of the Kellogg School of Management's joint executive MBA program with the WHU - Otto Beisheim School of Management in Germany and received a B.S. from De Paul University *magna cum laude* in Finance.
