COMMENT DESCRIPTION:

Please file this opposition comment under case #14-1297-EL-SSO.

I do not support Ohio's electric utilities' attempt to bail out their old coal plants on my dime. These plants are not competitive with today's market prices for electricity, and they spew toxic pollution into our air and water.

Coal, which generates nearly 70 percent of electricity in Ohio, is known to cause major air pollution and negatively impact public health while contributing to climate disruption. Due to Ohio's heavy reliance on coal, we have some of the worst air in the nation.

Ohio's utilities' request to bail out coal plants that are no longer economically feasible is bad public policy that, in addition to costing Ohio electric customers more, will prevent Ohio from reducing dangerous emissions of carbon, soot, smog and mercury pollution.

Do the right thing for Ohio, and its citizens, and don't allow these bailouts. Thank you.

COMMENT DESCRIPTION:

PLEASE FILE OPPOSITION COMMENT UNDER CASE #: 14-1297-EL-SSO. Allowing FirstEnergy to continue to operate the Davis Besse Nuclear Power Plant would be a catastrophic mistake given the problems that have plagued the facility. Whether it be a poor location, poorly contracted builders, or plan ineptitude on behalf of the operators of this plant, it is a danger to the entire State and to neighboring states. Furthermore, with this plant being located on Lake Erie, it would be a complete failure for you, PUCO, to allow this plant to operate and risk contaminating the region, Lake Erie, and the Great Lakes in their entirety with radiation. In regard to coal power plants, allowing these dirty and outdated facilities to operate would also be a huge mistake on your behalf. These plants cause many forms of pollution, health problems, and are NOT reducing energy costs because of their inefficiency. The Great State of Ohio and Her citizens deserve a Public Utilities Commission that puts the health, safety, and well-being of its citizens over utility companies that are unwilling to change their operational ways. Once again, I ask you to choose the citizens of Ohio over the selfish and irresponsible proposal from FirstEnergy and PLEASE FILE OPPOSITION COMMENT UNDER CASE #: 14-1297-EL-SSO. Thank you.
