PUCO

I am concerned about the behavior of Duke energy company. I don't believe that my family and community should have to pay for Duke to refurbish their facilities and to continue polluting the air with its outdated technology. I think Duke energy needs to be held accountable to their customers and the citizens of this area, not exclusively just to their shareholders.

Sincerely

I, Becky Koler, am not going to stand for a bailout of DuPont's plants. Myself and my fellow citizens deserve the choice to live with clean air and a healthy environment. I choose to go against anything that may pollute my environment and the rest of the world.

Regards,

Becky Koler

To Whom It May Concern:

I am writing to you to ask you to start reducing air pollution, to help me save money on my electric bill and urge our utilities to provide cleaner energy sources for our electricity.

My family and I are also concerned about reducing toxic pollution and support clean energy.

This bailout would cause rates to go up regardless of the energy company source.

I don't feel I should have to continue to pay Duke Energy for electricity when they continue to pollute our air with outdated technology.

Duke Energy needs to be accountable to their customers not their shareholders.

Sincerely,

Dear Pwco,

I don't know much about this issue, but from what I understand, Duke energy is making their loyal customers pay more for their inefficient coal plants. This is wrong. Many families, including us, are making improvements on our homes to lessen our impact on the environment and save money on energy bills. It just seems twisted that these savings could potentially be lost because Duke is not making the same effort to improve efficiency and is raising their prices.

I can't help but notice that your name, Pwco, is that of the "Ugly" in "Good, the Bad, and the Ugly." Not to suggest a negative connotation. You put your neck in the rope for the good of us all. But in the end, only the Bad lies in the grave. Happy Halloween!

To whom it may concern,

Please do not bail out ~~the~~ Ohio's dirty coal plants. I care about this issue because I breathe the air they are polluting, and I should not have to suffer because they will not update their plants - nor should the environment.

Sincerely,
Taylor Maple

I care about this issue because
I want to reduce air pollution. Save money
on my electric bill + urge our legislators to
provide clean energy sources for our
electricals. My family + I care about
reducing toxic waste - Surely we can
find new + better technology.

Sincerely,
Nancy Sturgeon

Dear Public Utilities Commission of Ohio,

I'm writing to ask that you deny bailout support to Duke Energy. My family and I are concerned about air quality in Ohio and want to see Duke held accountable for their poor air quality standards in running their business.

Please hold them accountable by denying them bailout money.

Sincerely,
