Case No. 14-875-EL-UNC

STIPULATION AND RECOMMENDATION

I. INTRODUCTION

Rule 4901-1-30, Ohio Administrative Code (O.A.C.), provides that any two or more parties to a proceeding may enter into a written or oral stipulation concerning the issues presented in such a proceeding. This document sets forth the understanding and agreement of the parties who have signed below (Signatory Parties) and jointly recommend that the Public Utilities Commission of Ohio (Commission) approve and adopt this Stipulation and Recommendation (Stipulation) without modification, which resolves all of the issues raised in the above-captioned proceedings involving Ohio Power Company (OPCo) (AEP Ohio or the Company).

This Stipulation is submitted for purposes of this proceeding only. Except for purposes of enforcement of the terms of this Stipulation, this Stipulation (including the information and data contained therein or attached) shall not be cited as precedent in any future proceeding for or against any Signatory Party. The circumstances of this case are unique; thus, using the terms of this Stipulation in any other case is inappropriate and undermines the willingness of the parties to compromise. This Stipulation is a reasonable compromise involving a balancing of competing positions and it does not necessarily reflect the position that one or more of the Signatory Parties would have taken if these issues had been fully litigated. This Stipulation recognizes that each Signatory Party may disagree with individual provisions of this Stipulation, but also recognizes that the Stipulation has value as a whole.

II. SIGNATORY PARTIES

The Signatory Parties are AEP Ohio and Staff.¹ The Signatory Parties agree that the Stipulation violates no regulatory principle or precedent, and that it is the product of serious arm's length bargaining among knowledgeable and capable parties in an open and cooperative process in which all Signatory Parties were represented by able counsel and technical experts. While this Stipulation is not binding on the Commission, it is entitled to careful consideration by the Commission where, as here, it represents a comprehensive compromise of issues raised by parties representing a wide range of interests. The Signatory Parties believe that the Stipulation that they are recommending for Commission adoption presents a fair and reasonable result that, as a package, benefits ratepayers and is in the public interest. For purposes of resolving the issues raised by these proceedings,

Pursuant to Ohio Adm. Code 4901-1-10(C), the Staff of the Commission ("Staff") is considered a party for the purposes of entering into a stipulation under Ohio Adm. Code 4901-1-30.

the Signatory Parties, by and through their respective counsel, stipulate, agree and recommend as set forth below.

III. BACKGROUND AND PROCEDURAL RECITALS

WHEREAS, AEP Ohio is an electric utility and an electric distribution utility as those terms are defined in R.C. 4928.01 and an electric utility operating company subsidiary of American Electric Power Company, Inc.;

WHEREAS, in 2008, the Ohio General Assembly passed Substitute Senate Bill 221, which included new R.C. 4928.14, establishing the option for an electric distribution utility to provide an Electric Security Plan (ESP) as the standard service offer required by R.C. 4928.141;

WHEREAS, the Commission approved an ESP for AEP Ohio in Case Nos. 08-917-EL-SSO and 08-918-EL-SSO (*ESP I Cases*) whose term continued from January 2009, through September 2012; and the Commission approved an ESP for AEP Ohio in Case Nos. 11-346-EL-SSO and 11-348-EL-SSO (*ESP II Cases*) whose term continued from September 2012 through June 2015.

WHEREAS, R.C. 4928.143(F) contains a significantly excessive earnings test (SEET) applicable to AEP Ohio's approved ESP adopted in the *ESP II Cases*;

WHEREAS, on May 15, 2014, AEP Ohio made a filing to initiate Case No. 14-875-EL-UNC as required by Ohio Adm. Code 4901:1-35-10 (2013 SEET Case), including prefiled direct testimony which supports findings and conclusions that OPCo did not have significantly excessive earnings during, and passed the SEET for, 2013;

WHEREAS, the Signatory Parties agree on how to resolve the issues presented in the 2013 SEET Case, as reflected in their recommendations set forth below;

WHEREAS, the Signatory Parties believe that the agreements herein represent a fair and reasonable solution to all of the issues raised in the 2013 SEET Case;

WHEREAS, the Stipulation represents the product of serious bargaining among capable, knowledgeable parties;

WHEREAS, the Stipulation as a package benefits consumers and the public interest; and

WHEREAS, the terms and conditions of this Stipulation satisfy the policies of the State of Ohio as set forth in R.C. 4928.02 and do not violate any important regulatory policies or principles.

NOW, THEREFORE, the Signatory Parties stipulate, agree and recommend that the Commission should issue its Opinion and Order in these proceedings accepting and adopting this Stipulation and relying upon its provisions as the basis for resolving all issues raised by these proceedings:

IV. RECOMMENDATIONS

The Signatory Parties recommend the Commission find as follows:

A. Based upon the Company's testimony and OPCo's FERC Form 1 filing, OPCo's 2013 earned return on equity (ROE) was 11.28 % after adjustments for Off System Sales (OSS) and special accounting items (adjustments) are made in accordance with the methodology used by the Commission in Case Nos. 11-4571-EL-UNC

and 4572-EL-UNC (Opinion and Order) (Oct. 23, 2013) (the 2010 SEET Order) and in Case Nos. 13-2249-EL-UNC and 13-2250-EL-UNC (Opinion and Order) (Mar. 26, 2014) (the 2011 SEET Order);

- B. The Company's testimony supports a finding that the comparable risk group's mean earned ROE is 9.09 %. The Staff's testimony supports a finding of 9.04%. For purposes of the SEET analysis conducted in this proceeding in accordance with R.C. 4928.143(F), the Signatory Parties recommend that the Commission find that the comparable risk group's mean earned ROE for 2013 is between 9.04 and 9.09 %.
- C. The 2010 SEET Order applied an adder to that baseline mean earned ROE using 1.64 standard deviations. In this case that adder would be 5.29% resulting in a SEET threshold of 14.38% using the Company's calculation. The adder would be 5.20% resulting in a SEET threshold of 14.24% using the Staff's calculation. The decision in the ESP II Cases also established a SEET threshold of 12 %. Regardless of which SEET threshold calculation is used, OPCo's 2013 adjusted earned ROE does not constitute significantly excessive earnings.
- D. OPCo did not have significantly excessive earnings for 2013 pursuant to R.C. 4928.143(F).

V. GENERAL CONDITIONS

This Stipulation, if adopted by the Commission, will resolve all issues arising from the proceedings referenced above. The settlement agreement embodied in this Stipulation was reached only after negotiations between the Company and Staff, and it reflects a bargained compromise involving a balancing of competing interests. Because the Stipulation is an integrated settlement, it is expressly conditioned upon the Commission adopting the same in its entirety without material modification. Rejection of all or any part of the Stipulation and Recommendation by the Commission shall be deemed to be a material modification for purposes of this provision. Upon the Commission's issuance of a decision that does not adopt this Stipulation in its entirety without material modification, or the alternative proposal, if one is submitted, a Signatory Party may withdraw from the Stipulation by filing a notice with the Commission within thirty (30) days after the Commission's decision. Upon the filing of a notice of termination and withdrawal, the Stipulation shall immediately become null and void.

In such event, this proceeding shall go forward from the procedural point at which the Stipulation was filed, and the parties will be afforded the opportunity to present evidence through witnesses, to cross-examine all witnesses, to present rebuttal testimony, and to brief all issues which shall be decided based upon the record and briefs, as if this Stipulation had never been executed. AGREED this 9th day of October, 2014.

PREFILED TESTIMONY OF JOSEPH P. BUCKLEY UTILITIES DEPARTMENT CAPITAL RECOVERY & FINANCIAL ANALYSIS DIVISION PUBLIC UTILITIES COMMISSION OF OHIO

Staff Exhibit _____

October 9, 2014

| 1 | 1. | Q. | Please state your name and your business address. |
|----|----|----|--|
| 2 | | A. | My name is Joseph P. Buckley. My business address is 180 E. Broad |
| 3 | | | Street, Columbus, Ohio 43215. |
| 4 | | | |
| 5 | 2. | Q. | By who are you employed? |
| 6 | | А. | I am employed by the Public Utilities Commission of Ohio (PUCO). |
| 7 | | | |
| 8 | 3. | Q. | Would you please state your background? |
| 9 | | A. | I received a Bachelor of Science Degree in Economics from the Ohio State |
| 10 | | | University and a Master's Degree in Business Administration from the |
| 11 | | | University of Dayton. In 2000, I earned the Certified in Financial Manage- |
| 12 | | | ment (CFM) designation, awarded by the Institute of Management |
| 13 | | | Accountants. Also I attended, The Annual Regulatory Studies Program |
| 14 | | | sponsored by The National Association of Regulatory Utility Commission- |
| 15 | | | ers (NARUC) and The Training for Utility Management Analyst also spon- |
| 16 | | | sored by NARUC. I have been employed by the PUCO since 1987. Since |
| 17 | | | that time I have progressed through various positions and was promoted to |
| 18 | | | my current position of Utility Specialist 3, in 2000. In addition, I have |
| 19 | | | worked on several joint Federal Communication Commission (FCC) and |
| 20 | | | NARUC projects and audits and served on the Midwest ISO's Finance |
| 21 | | | Committee as Vice-Chairman and Chairman. Also, in 2011, I was awarded |
| 22 | | | the professional designation Certified Rate of Return Analyst (CRRA) by |

| 1 | | | the Society of Utility and Regulatory Financial Analysts. This designation |
|----|----|----|---|
| 2 | | | is awarded based upon experience and successful completion of a written |
| 3 | | | examination. |
| 4 | | | |
| 5 | 4. | Q. | What is your involvement in this proceeding? |
| 6 | | A. | I am responsible for determining if Ohio Power (OP) exceeded the common |
| 7 | | | equity threshold to be used in its Significantly Excessive Earnings Test |
| 8 | | | (SEET). Based on Staff's review of the information provided in OP's |
| 9 | | | applications Staff believes that OP fell below the SEET threshold provision |
| 10 | | | in 2013 |
| 11 | | | |
| 12 | | | OP's 2013 earned return on equity (ROE) was 8.95 percent and 11.28 per- |
| 13 | | | cent after adjustments were made for Off System Sales (OSS) and special |
| 14 | | | accounting items (adjustments). These amounts fall below the 14.24 per- |
| 15 | | | cent Staff calculated SEET threshold. |
| 16 | | | |
| 17 | 5. | Q. | What is the Staff's recommendation to the Commission in this proceeding? |
| 18 | | A. | The Staff recommends that the Commission find OP did not exceed the |
| 19 | | | common equity threshold in 2013 and that no refunds are warranted. |
| 20 | | | |
| 21 | б. | Q. | Have OP removed in its calculation Off System Sales (OSS) and special |
| 22 | | | accounting items? |

| 1 | | A. | Yes, as detailed in the direct testimony of Company witness Thomas E. |
|--|----|----------|--|
| 2 | | | Mitchell, OP's return on equity information removed the effects of Off Sys- |
| 3 | | | tem Sales (OSS) and special accounting issues. As outlined in the Opinion |
| 4 | | | and Order in case 10-1261-EL-UNC (on pages 30 and 31), the Commission |
| 5 | | | believes that the effects of OSS should be removed. |
| 6 | | | |
| 7 | 7. | Q. | Has the Staff reviewed OP's 2013 earnings calculation and concur with its |
| 8 | | | results? |
| 9 | | A. | Yes. The Staff has reviewed OP's calculations and supporting information |
| 10 | | | and finds them to be in conformance with the SEET calculation methodol- |
| 11 | | | ogy as approved previously by the Commission and is an accurate repre- |
| | | | |
| 12 | | | sentation of their 2013 earnings. |
| 12 13 | | | sentation of their 2013 earnings. |
| | 8. | Q. | sentation of their 2013 earnings. What methodology did Staff employee to determine significant excessive |
| 13 | 8. | Q. | |
| 13 14 | 8. | Q. A. | What methodology did Staff employee to determine significant excessive |
| 13 14 15 | 8. | | What methodology did Staff employee to determine significant excessive earnings? |
| 13 14 15 16 | 8. | | What methodology did Staff employee to determine significant excessive earnings? Staff used the companies that comprise the SPDR Select Sector Fund –Util- |
| 13 14 15 16 17 | 8. | | What methodology did Staff employee to determine significant excessive earnings? Staff used the companies that comprise the SPDR Select Sector Fund –Util- ity (XLU) as its comparable group. The Staff then totaled the net income |
| 13 14 15 16 17 18 | 8. | | What methodology did Staff employee to determine significant excessive earnings? Staff used the companies that comprise the SPDR Select Sector Fund –Util- ity (XLU) as its comparable group. The Staff then totaled the net income earned by those companies and divided it by the total common equity of |
| 13 14 15 16 17 18 19 | 8. | | What methodology did Staff employee to determine significant excessive earnings? Staff used the companies that comprise the SPDR Select Sector Fund –Util- ity (XLU) as its comparable group. The Staff then totaled the net income earned by those companies and divided it by the total common equity of |

| 1 | | | comparable companies multiplied by 1.64 (using a 95 percent confidence |
|----|-----|----|---|
| 2 | | | threshold). When the ROE is combined with the adder the result is 14.24 |
| 3 | | | percent. Staff determined any result under 14.24 percent would not be con- |
| 4 | | | sidered significantly excessive. |
| 5 | | | |
| 6 | 9. | Q. | Why did Staff use the components of XLU as its comparables group? |
| 7 | | А. | XLU is the most widely traded utility ETF (electronically traded fund) and |
| 8 | | | the components are selected by an independent third party that is not |
| 9 | | | involved in this proceeding. This independence removes any bias in select- |
| 10 | | | ing the comparable group. That is one reason Staff would advocate having |
| 11 | | | an independent party selecting the comparables. |
| 12 | | | |
| 13 | | | Also, Staff believes the use of XLU not only removes bias from the selec- |
| 14 | | | tion of the comparable group, but that it fosters use of a simplistic process |
| 15 | | | that produces consistent reasonable results. Having more parties under- |
| 16 | | | stand the process will allow greater participation in the review. |
| 17 | | | |
| 18 | | | Finally the Commission used this approach in cases 11-4571-EL-UNC and |
| 19 | | | 11-4572-EL-UNC, to determine the comparable ROE. |
| 20 | | | |
| 21 | 10. | Q. | Why did Staff adopt the standard deviation approach in establishing the |
| 22 | | | adder to the ROE? |

| 1 | | A. | In CSP and OP's previous SEET cases (11-4571-EL-UNC and 11-4572- |
|----|-----|----|--|
| 2 | | | EL-UNC), the Commission used this approach 1 in establishing the adder |
| 3 | | | to the XLU comparable group ROE. |
| 4 | | | |
| 5 | 11. | Q. | In Case No. 10-1261-EL-UNC (CSP's and OP's 2009 SEET case) the |
| 6 | | | Commission opinion and order stated that "50 percent is a reasonable guide |
| 7 | | | for establishing an adder." If the 50 percent adder was applied, would Staff |
| 8 | | | consider CSP and / or OP ROEs to be excessive in 2011 and /or 2012? |
| 9 | | A. | No. In 2013 the threshold would be 13.56 percent which Staff would not |
| 10 | | | consider excessive. |
| 11 | | | |
| 12 | 12. | Q. | Does this conclude your testimony? |
| 13 | | A. | Yes, it does. However, I reserve the right to submit supplemental testi- |
| 14 | | | mony as described herein, as new information subsequently becomes avail- |
| 15 | | | able or in response to positions taken by other parties. |

In the Matter of the Application of Columbus Southern Power Company for Administration of the Significantly Excessive Earnings Test under Section 4928143(F), Revised Code, and Rule 4901:1-35-10, Ohio Administrative Code, Case Nos. 11-4571-EL-UNC. et al. (Opinion and Order at 27) (Oct. 23, 2013).

PROOF OF SERVICE

I hereby certify that a true copy of the foregoing Prefiled Testimony of Joseph P. Buckley submitted on behalf of the Staff of the Public Utilities Commission of Ohio, was served by regular U.S. mail, postage prepaid, hand-delivered, and/or delivered via electronic mail, upon the following parties of record, this 9th day of October, 2014.

> Thomas W. McNamee Assistant Attorney General

BEFORE THE PUBLIC UTILITIES COMMISSION OF OHIO DIRECT TESTIMONY OF WILLIAM A. ALLEN ON BEHALF OF OHIO POWER COMPANY

1 PERSONAL DATA

2 Q. PLEASE STATE YOUR NAME AND BUSINESS ADDRESS.

3 A. My name is William A. Allen, and my business address is 1 Riverside Plaza, Columbus,
4 Ohio 43215.

5 Q. BY WHOM ARE YOU EMPLOYED AND WHAT IS YOUR POSITION?

- A. I am employed by the American Electric Power Service Corporation (AEPSC) as
 Managing Director of Regulatory Case Management. AEPSC supplies engineering,
 regulatory, financing, accounting, and planning and advisory services to the electric
 operating companies of the American Electric Power System, one of which is Ohio
 Power Company ("OPCo" or "AEP Ohio").
- 11 Q. WOULD YOU PLEASE DESCRIBE YOUR EDUCATIONAL AND
 12 PROFESSIONAL BACKGROUND?

A. Yes. I received a Bachelor of Science in Nuclear Engineering from the University of
Cincinnati in 1996 and a Master of Business Administration from the Ohio State
University in 2004.

I was employed by AEPSC beginning in 1992 as a Coop Engineer in the Nuclear
 Fuels, Safety and Analysis department and upon completing my degree in 1996 was hired
 on a permanent basis in the Nuclear Fuel section of the same department. In January
 1997, the Nuclear Fuel section became a part of Indiana Michigan Power Company

1 (I&M) due to a corporate restructuring. In 1999, I transferred to the Business Planning section of the Nuclear Generation Group as a Financial Analyst. In 2000, I transferred 2 back to AEPSC into the Regulatory Pricing and Analysis section as a Regulatory 3 Consultant. In 2003, I transferred into the Corporate Financial Forecasting department as 4 5 a Senior Financial Analyst. In 2007, I was promoted to the position of Director of Operating Company Forecasts. In that role, I was primarily responsible for the 6 7 supervision of the financial forecasting and analysis of the AEP System's operating companies, including AEP Ohio. In 2010, I transferred to the Regulatory Services 8 9 Department as Director of Regulatory Case Management. I was named to my current 10 position in January 2013.

11 Q. WHAT ARE YOUR RESPONSIBILITIES AS MANAGING DIRECTOR OF 12 REGULATORY CASE MANAGEMENT?

A. I am primarily responsible for the supervision, oversight and preparation of major filings
with state utility commissions and the Federal Energy Regulatory Commission (FERC).

15 Q. HAVE YOU PREVIOUSLY SUBMITTED TESTIMONY IN ANY REGULATORY 16 PROCEEDINGS?

A. Yes. I have previously testified before the Public Utilities Commission of Ohio
(Commission) on behalf of AEP Ohio. I have also submitted testimony or testified
before the Michigan Public Service Commission, the Indiana Utility Regulatory
Commission, the West Virginia Public Service Commission and the Virginia State
Corporation Commission on behalf of various other electric operating companies of the
American Electric Power system.

23

1 PURPOSE OF TESTIMONY

2 Q. WHAT IS THE PURPOSE OF YOUR TESTIMONY?

A. I am AEP Ohio's overall policy witness supporting the position that AEP Ohio passes the
statutory Significantly Excessive Earnings Test (SEET) for 2013. My testimony takes
into account the Commission's Finding and Order in Case No. 09-786-EL-UNC (09786), Opinion and Order in the 2009 SEET, Case No. 10-1261-EL-UNC (10-1261), and
Opinion and Order in the 2010 SEET, Case Nos. 11-4571 and 11-4572-EL-UNC (114571). Additionally, I am sponsoring the AEP 2013 Form 10K annual report and the
Federal Energy Regulatory Commission (FERC) Form 1 (Form 1) for OPCo¹.

10 Q. ARE YOU SPONSORING ANY EXHIBITS AS A PART OF YOUR 11 TESTIMONY?

A. Yes. I am sponsoring Exhibit WAA-1 which presents the 2013 return on common equity
 for the companies comprising the Utilities Select Sector SPDR. I am also sponsoring
 Exhibit WAA-2 which sets forth the actual capital investments for 2013 and the projected
 capital investments for the period June 2015 through May 2018 as presented in the
 Company's recently filed ESP proceeding in Case No. 13-2385-EL-SSO.

17 OVERVIEW OF THE SEET

18 Q. PLEASE BRIEFLY DESCRIBE THE SEET PROCESS.

A. Senate Bill 221 (SB 221) required electric distribution utilities (EDUs), beginning
 January 1, 2009, to provide consumers with a standard service offer (SSO) including a
 firm supply of electric generation service, consisting of either an Electric Security Plan

¹Both reports for 2013 can be found at the following sites: <u>http://www.aep.com/investors/FinancialFilingsAndReports/Filings/</u> http://www.aep.com/investors/FinancialFilingsAndReports/FERCFilings/

1 (ESP) or a market rate offer (MRO). Section 4928.143(F), Ohio Revised Code, requires 2 EDUs operating under an ESP to demonstrate that their earned return on common equity (ROE) is not significantly in excess of the ROE earned during the same period by 3 4 publicly traded companies that face comparable business and financial risk. I have been 5 advised by Counsel, that the SEET filing requirements, as detailed in Rule 4901:1-35-6 03(C)(10)(a), O.A.C., state that the EDU with an established ESP shall provide testimony 7 and analysis which shall include: 1) the EDU's ROE earned during the annual review period as compared to the ROE earned by comparable companies during the same period; 8 9 2) the FERC Form 1 in its entirety for the annual review period for the EDU; 3) the latest 10 SEC Form 10K for the EDU; and 4) the capital budget requirements for future committed 11 investments in Ohio for each annual period remaining in the ESP for the EDU.

12 Q. PLEASE BRIEFLY DESCRIBE THE HISTORY OF THE SEET WITH RESPECT 13 TO AEP OHIO.

14 Α. On March 18, 2009, the Commission issued an Opinion and Order in Case Nos. 08-917 15 and 08-918-EL-OSS modifying and approving the Companies' ESP for the years 2009 16 through 2011 (ESP I). In 2009, the Commission initiated Case No. 09-786 to provide 17 SEET guidance to Ohio EDUs. Through the 09-786 case, the Commission provided guidance and interpretations regarding how it would apply the SEET. As a result, in 18 September 2010, AEP Ohio filed their 2009 SEET application in 10-1261, and on 19 20 January 11, 2011, the Commission issued its Opinion and Order. The Company filed its 2010 SEET application in 11-4571 on July 29, 2011, and on October 23, 2013 the 21 Commission issued its Opinion and Order. On August 8, 2012, the Commission issued 22 an Opinion and Order in Case Nos. 11-346 and 11-348-EL-SSO modifying and 23

1 approving AEP Ohio's proposed ESP for the period of September 2012 through May 2 2015 (ESP II). In that case the Commission established a SEET threshold of 12% for the ESP II term.² I have been advised by Counsel that this aspect of the Commission's 3 4 Opinion and Order is the subject of an Appeal before the Ohio Supreme Court in Case 5 No. 2013-0521. Accordingly, the methodology I have employed is based on the 6 approach established by the guidance presented in Case No. 09-786-EL-UNC and prior 7 Commission orders. The Company's 2011 and 2012 SEET cases have been settled and 8 approved by the Commission.

9 **ROE OF THE COMPARABLE RISK GROUP OF PUBLICLY TRADED COMPANIES**

Q. WHAT IS THE LEVEL FOR 2013, ABOVE THE AVERAGE EARNED ROE OF 11 THE COMPARABLE RISK GROUP OF COMPANIES, WHERE THE EARNED 12 ROE MAY BECOME SIGNIFICANTLY EXCESSIVE, IF ONE USED THE THRESHOLD METHODOLOGY AS DESCRIBED BY THE COMMISSION 13 **OPINION AND ORDER IN CASE NO. 11-4571 AND RECOGNIZED IN THE** 14

15 SETTLEMENT OF THE 2011 AND 2012 SEET CASES FOR AEP OHIO?

16 The mean earned ROE for 2013 of the "Utilities Select Sector SPDR (XLU)" comparable Α. 17 risk group that the Commission utilized in its order in 11-4571 and recognized in the settlement of the 2011 and 2012 SEET cases for AEP Ohio is 9.09%. The 11-4571 order 18 applied an adder to that baseline mean earned ROE using 1.64 standard deviations. In 19 20this case that adder would be 5.29% resulting in a SEET threshold of 14.38%. These 21 calculations are provided in Exhibit WAA-1.

22

² Opinion and Order in Case Nos. 11-346-EL-SSO et. al, dated August 8, 2012, at page 37.

1 AEP OHIO'S EARNED ROE FOR 2013

2 Q. WHAT IS AEP OHIO'S EARNED ROE FOR 2013 FOR THE SEET?

A. Company witness Mitchell has determined that AEP Ohio's earned ROE for 2013 is
11.28%. For details on the AEP Ohio ROE calculations, please see Company witness
Mitchell's direct testimony.

6 Q. HOW DOES AEP OHIO'S EARNED ROE FOR 2013 COMPARE TO THE 7 COMPARABLE RISK GROUP'S THRESHOLD ROE?

- 8 A. AEP Ohio's earned ROE for 2013 of 11.28% is below the comparable risk group's SEET
- 9 ROE threshold of 14.38% that results from calculating the threshold in a manner similar
 10 to how the Commission calculated it for 2010. It is also below the 12.00% level provided
 11 for in the Commission's Opinion and Order in the ESP II case.
- 12 Q. DID THE COMMISSION ESTABLISH OTHER THRESHOLD GUIDANCE IN

13 THE 09-786 CASE REGARDING ROE CALCULATIONS FOR EDUs?

A. Yes. The Commission also concluded that for SEET purposes, any Ohio electric utility's earnings found to be less than 200 basis points above the mean ROE of the comparable risk group of companies would not be significantly excessive.³ This 200 basis point threshold is what is referred to as a "safe harbor."

18 Q. DOES THE 200 BASIS POINT "SAFE HARBOR" APPLY TO AEP OHIO FOR 19 2013?

A. No. AEP Ohio's earned ROE is slightly higher than 11.09%, which is 200 basis points
above the 9.09% mean earned ROE of the Utilities Select Sector SPDR (XLU) group.
Thus, AEP Ohio's 2013 earned ROE of 11.28% is not within the "safe harbor"
established by the Commission.

³ 09-786, Order at 29 (June 30, 2010) and 11-4571, Order at 27-28 (October 23, 2013)

1 ADJUSTMENTS TO THE SEET

2 Q. HOW ARE OFF-SYSTEM SALES NET MARGINS TREATED IN THE 2013 3 SEET?

A. Consistent with the Commission's orders, AEP Ohio excluded off-system sales (OSS) net
margins, after federal and state income tax, from the calculation of the 2013 ROE. This
adjustment aligns to the Commission's interpretation and guidance under Section
4928.143(F), Revised Code, that OSS net margins and the related equity should be
excluded from the SEET calculation⁴ since OSS net margins are not a result of rate
adjustments included in AEP Ohio's ESP.

10 Q. DID THE COMPANY HAVE OTHER ADJUSTMENTS TO THE 2013 SEET?

11 A. Yes. As detailed by Company witness Mitchell, adjustments were made to the 12 Company's 2013 earned ROE calculations for special accounting items, related to the 13 impairment of certain OPCo generating assets and certain restructuring charges. Please 14 see witness Mitchell's testimony for additional details on these adjustments.

15 Q. WHY ARE THESE OTHER ADJUSTMENTS REMOVED FROM THE EARNED

- 16 ROE FOR THE 2013 SEET?
- In accordance with Commission guidance, these adjustments to AEP Ohio's 2013 SEET
 ROE are considered special accounting items and thus, removing them from the earned
 ROE maintains comparability with the earned ROEs of the comparable risk group of
 companies.
- 21

⁴11-4571, Order at 14-15 (October 23,2013)

1 CAPITAL INVESTMENTS AND OTHER CONSIDERATIONS

Q. WHAT ARE SOME ADDITIONAL FACTORS, BESIDES THE EARNED ROE
CALCULATIONS DISCUSSED ABOVE, THAT THE COMMISSION
INDICATED IN ITS 09-786 ORDER THAT IT WOULD CONSIDER IN
EVALUATING WHAT IS SIGNIFICANTLY EXCESSIVE?

- 6 A. In the Commission's June 30, 2010, Finding and Order at page 29, the Commission
- 7 provided the following guidance:

8 The Commission notes that within Ohio's electric utilities, there is 9 significant variation, including, for example, whether the electric 10 utility provides transmission, generation, and distribution service or only distribution service. For this reason, the Commission will give 11 12 due consideration to certain factors, including, but not limited to, the 13 electric utility's most recently authorized return on equity, the electric 14 utility's risk, including the following: whether the electric utility owns 15 generation; whether the ESP includes a fuel and purchased power 16 adjustment or other similar adjustments; the rate design and the 17 extent to which the electric utility remains subject to weather and 18 economic risk; capital commitments and future capital requirements; 19 indicators of management performance and benchmarks to other 20 utilities; and innovation and industry leadership with respect to meeting industry challenges to maintain and improve the 21 22 competitiveness of Ohio's economy, including research and 23 development expenditures/investments in advanced technology, and 24 innovative practices; and the extent to which the electric utility has 25 advanced state policy. We therefore, direct the electric utilities to 26 include this information in their SEET filings.

27

28 Q. WHAT IS THE CURRENTLY APPROVED ROE FOR AEP OHIO?

29 A. The Company's most recently approved ROE is 10.2%.

30 Q. DID AEP OHIO OWN GENERATION IN 2013?

- 31 A. Yes. AEP Ohio owned generating capacity exceeding 11,500 MW during 2013. During
- 32 2013 the Company faced uncertainty and risk associated with the operation of these units.

- 1 In addition, during 2013, the Company faced significant uncertainty and risk associated 2 with the corporate separation of those units out of AEP Ohio. Corporate separation was 3 completed at the close of 2013.
- 4 Q. DID THE ESP INCLUDE A FUEL AND PURCHASED POWER ADJUSTMENT?
- 5 A. Yes. In 2013 the ESP included a fuel adjustment clause mechanism.

6 Q. DOES THE COMPANY'S RATE DESIGN SUBJECT THE COMPANY TO 7 WEATHER AND ECONOMIC RISK?

8 Α. Yes. The Company has a Pilot Throughput Balancing Adjustment Rider (PTBAR) 9 mechanism for residential and small commercial customers. This mechanism helps to 10 limit the weather impact on revenues but does not insulate the company from the effects 11 of weather. Larger commercial and industrial customers are not included in the PTBAR 12 mechanism and any weather effect on these customers impacts the earnings of AEP Ohio. 13 In addition, the Company faces economic risk in the form of changes in customer usage 14 resulting from the overall economic condition of the state or pressures to specific 15 industries. Throughout 2013 the Company continued to face substantial financial risks 16 resulting from customer switching and the associated loss of revenues.

17 Q. HOW DOES AEP MAINTAIN ENERGY INDUSTRY LEADERSHIP?

A. Throughout its century-plus history, AEP has led the industry through enhancements and
 technological advances to the generation, transmission, and distribution components of
 the electric industry. Some examples of these advancements are the first supercritical and
 ultra-supercritical coal-fired generating plants, development and construction of 765-kV
 transmission lines, and deployment of sodium-sulfur (NAS) batteries. AEP has also
 created new and innovative ways to provide power for today while preparing for the

needs of tomorrow, such as developing and operating a product validation facility for carbon capture and storage and then partnering with the Department of Energy (DOE) on an engineering study to scale the technology commercially. Our commitment to environmental compliance is evidenced by our focus on finding reasonable, achievable, and affordable solutions that meet increasingly stringent state and federal energy regulations that properly address environmental issues in a realistic, cost effective manner.

8 In implementing the Commission's Alternative Energy Portfolio Standard rules, 9 AEP Ohio led a demand side management (DSM) collaborative to develop energy efficiency and peak demand response programs (EE/PDR) and gridSMART[®] initiatives. 10 11 As a result of implementing these programs, AEP Ohio customers have the potential to 12 save through reduced electricity bills over the life of the programs and help reduce power 13 plant emissions. As our Portfolio Status Report indicates, AEP Ohio's energy efficiency 14 and peak demand response programs have been very successful, meeting or exceeding 15 the benchmark requirements for both areas. Additionally, AEP Ohio has been undertaking infrastructure and technology enhancements for the gridSMART[®] Phase 1 16 17 project. This project demonstrates AEP Ohio's leadership in the industry and includes the installation of smart meters, distribution automation equipment, demand dispatch and 18 19 integrated volt-var control circuits to enhance the electricity infrastructure. Additionally, 20 meeting certain project requirements, obligations, and data collection criteria allowed the gridSMART[®] project to obtain 50 percent funding through the Department of Energy and 21 thus limit Ohio customer impact while enhancing their ability to save energy. AEP Ohio 22 is building on this through its proposed gridSMART[®] Phase 2 project. 23

In response to SB 221, AEP Ohio has demonstrated its leadership in the industry by embracing and harnessing new generation resources such as wind, biomass and solar to comply with Ohio's renewable portfolio standard. For example, AEP Ohio facilitated development of an 80-acre solar project located in Wyandot County, as Ohio's first utility-scale solar power facility in which all the output is purchased through contract by AEP Ohio. Thus, AEP Ohio is promoting diversity of electricity supplies and suppliers while maximizing Ohio economic development value within the state.

8

Q. PLEASE EXPLAIN THE REGULATORY RISK IMPACTS ON CUSTOMERS.

9 Α. Balancing customer expectations for better EDU performance while continuing to be a 10 low cost utility within the state of Ohio is an ever increasing risk for AEP Ohio. As the 11 result of a struggling economy the increased pressure on regulators to maintain existing utility electric rates can create regulatory lag issues for EDUs. One way regulators can 12 alleviate pressure to control rates is to defer previously spent utility costs to the balance 13 14 sheet. And, while deferrals delay the immediate collection of rates in the near term, 15 deferrals can increase regulatory risk and eventually impact customers when the time 16 comes to pay for those deferrals. This rate volatility impacts the timing of cash flow 17 which can also potentially impact an EDU's credit ratings. Rate volatility, combined 18 with our desire to fulfill increased customer expectations regarding reliability, increasing 19 infrastructure mandates and investment requirements, put electric utilities and regulators 20 under very different demands. In Ohio, a combination of outstanding deferred assets, SB 21 221 requirements, environmental mandates, and ESP timing, has forced AEP Ohio into 22 an elevated level of risk.

23

1 Q. PLEASE EXPLAIN CUSTOMER SERVICE RELIABILITY RISKS.

2 A. The information shown in the following table reflects both the System Average 3 Interruption Frequency Index (SAIFI) and the Customer Average Interruption Duration 4 Index (CAIDI) indices used to gauge service reliability for AEP Ohio. The 2013 SAIFI 5 of 1.03 for frequency of interruption was significantly below the SAIFI standard for AEP 6 Ohio of 1.20. The 2013 CAIDI of 141.0 for outage duration was significantly below the 7 CAIDI standard for AEP Ohio of 150.0. While these reliability indices indicate steady to 8 improving performance over recent years, AEP Ohio will need to make substantial and 9 continuing investments in infrastructure to maintain or improve its reliability 10 performance.

11 AEP Ohio Reliability Indices

12 (Per O.A.C. Rule 1-10-10(B))

| 12 Months Ending | SAIFI | CAIDI |
|---------------------|-------|-------|
| Dec-10 | 1.09 | 138.2 |
| Dec-11 | 1.23 | 145.6 |
| Dec-12 | 0.98 | 145.0 |
| Dec-13 | 1.03 | 141.0 |

13

14 Q. PLEASE EXPLAIN CUSTOMER MIGRATION RISKS.

15 A. The state of Ohio is unique compared to fully-regulated jurisdictions in that significant 16 customer switching has occurred during recent years. Additionally, there is a potential 17 that high customer switching levels will continue into the future due to increases in 18 governmental aggregation. At December 31, 2013, 64% of AEP Ohio's load has switched to Competitive Electric Retail Service (CRES) providers. This was an increase
 of 15% over the level of 49% experienced at the end of 2012. Additionally, migrating
 customers can return at any point to their jurisdictional EDU based on the decision of
 their CRES provider and/or the market price fluctuations. As defined by SB 221, these
 customer shopping risks are unique to the state of Ohio.

6 Q. WHAT INFORMATION HAS AEP OHIO PROVIDED TO IDENTIFY THE 7 CAPITAL REQUIREMENTS OF FUTURE INVESTMENTS?

- A. AEP Ohio's actual annual capital expenditures for 2011 through 2013, those budgeted for 2014 and those projected for the ESP III term are contained in Exhibit WAA-2 attached to my testimony. Exhibit WAA-2 shows that AEP Ohio invested approximately \$640 million during 2013. The Company plans to spend approximately \$400M in 2014 with an additional \$1.0 billion forecast in the ESP III period – a tremendous amount of capital to invest. These factors should be taken into consideration by the Commission when determining the 2013 SEET decision.
- 15 Q. HAS AEP OHIO ADVANCED STATE POLICY?

Yes. AEP Ohio and its employees are active members of the communities we serve. Not 16 Α. only is AEP Ohio investing capital assets and facilities within the state of Ohio, but 17 18 during 2013, AEP Ohio also paid more than \$634 million in Ohio payroll taxes and approximately \$337 million in property, state, and local taxes. These amounts do not 19 20 include expenditures for philanthropic contributions and purchases of Ohio goods and 21 services. Additionally, as explained above, AEP Ohio is currently advancing SB 221 and other state policies in Ohio. AEP Ohio's gridSMART[®] project is advancing electric 22 23 infrastructure development by testing and implementing advanced smart grid technologies. Contributions to the emerging solar power industry through AEP Ohio's commitment to purchase and invest in Ohio renewable solar power on a commercial basis beginning in 2010 and beyond demonstrates AEP Ohio's advancement of Ohio renewable goals. Finally, AEP Ohio has made contributions to the Partnership with Ohio Fund during the 2013 to be used across the AEP Ohio territory for food banks, United Way programs, and other public-private partnerships in the state and local economic development arenas.

8 Q. DOES THAT CONCLUDE YOUR DIRECT TESTIMONY?

9 A. Yes.

Utilities Select Sector SPDR Comparison

1

BEFORE THE PUBLIC UTILITIES COMMISSION OF OHIO DIRECT TESTIMONY OF THOMAS E. MITCHELL ON BEHALF OF OHIO POWER COMPANY

1 PERSONAL BACKGROUND

- 2 Q. PLEASE STATE YOUR NAME AND BUSINESS ADDRESS.
- A. My name is Thomas E. Mitchell and my business address is 1 Riverside Plaza
 Columbus, Ohio 43215.
- 5 Q. ON WHOSE BEHALF ARE YOU TESTIFYING IN THIS PROCEEDING?
- 6 A. I am testifying on behalf of Ohio Power Company (OPCo or AEP Ohio or the
 7 Company).

8 Q. BY WHOM ARE YOU EMPLOYED AND IN WHAT CAPACITY?

9 A. I am employed by American Electric Power Service Corporation (AEPSC), a
10 subsidiary of American Electric Power Company, Inc. (AEP), as Managing Director
11 of Regulatory Accounting Services. AEP is the parent company of OPCo.

12 Q. WHAT ARE YOUR RESPONSIBILITIES AS MANAGING DIRECTOR OF
 13 REGULATORY ACCOUNTING SERVICES?

14 A. My primary responsibilities include providing the AEP System operating 15 subsidiaries, including OPCo, with accounting support for regulatory filings. This 16 support includes the preparation of cost-of-service adjustments, accounting 17 schedules, and accounting testimony. I direct a group of professionals who provide 18 accounting expertise, compile necessary historical accounting schedules, present 19 expert accounting testimony and respond to data requests in connection with rate filings for eleven state regulatory commissions and the Federal Energy Regulatory
 Commission (FERC).

3 Q. PLEASE DESCRIBE YOUR EDUCATIONAL BACKGROUND AND 4 PROFESSIONAL EXPERIENCE.

5 Α. I received a Bachelor of Science Degree in Accounting from Virginia Polytechnic 6 Institute and State University (Virginia Tech) in 1977. I also hold a Master of 7 Business Administration Degree from Virginia Tech and a Bachelor of Arts Degree 8 in Government from the University of Notre Dame. I have been a Certified Public 9 Accountant since 1978. I was first employed by Appalachian Power Company 10 (APCo) in 1979, an affiliated operating company of OPCo and, except for 11 employment with Norfolk Southern Corporation as an Assistant Accounting 12 Manager (1984-1985), have held various positions in the AEPSC Accounting 13 Department continuously since that date. In 1998, I was promoted to Director, 14 Accounting Policy & Research and in 2008, I was promoted to my present position 15 as Managing Director of Regulatory Accounting Services. I have served as 16 Chairman of the Accounting Standards Committee of the Edison Electric Institute 17 (EEI) and am currently Chairman of the Joint Accounting Liaison Committee of the 18 EEI which meets annually with the FERC Accounting Staff to discuss accounting 19 issues of mutual interest to EEI and the FERC.

20 Q. HAVE YOU PREVIOUSLY TESTIFIED OR SUBMITTED TESTIMONY IN 21 ANY REGULATORY PROCEEDINGS?

A. Yes, I testified on behalf of AEP Ohio before the Public Utilities Commission of
 Ohio (PUCO or the Commission) to establish a Standard Service Offer (SSO) in
 Case No. 11-346-EL-SSO and Case No. 11-348-EL-SSO. In addition, I testified

| 1 | before the PUCO on behalf of the Company regarding the 2010 Significantly |
|----|---|
| 2 | Excessive Earnings Test (SEET) proceeding, Case No. 11-4571-EL-UNC and Case |
| 3 | No. 11-4572-EL-UNC and 2009 SEET proceedings, Case No. 10-1261-EL-UNC |
| 4 | and the 2012 storm cost recovery proceeding in Case No. 12-3255-EL-RDR. I also |
| 5 | filed accounting testimony in the Company's distribution base rate case in Case |
| 6 | Nos. 11-351-EL-AIR and 11-352-EL-AIR, rebuttal testimony in the Ohio Remand |
| 7 | Case No. 08-917-EL-SSO and Case No. 08-918-EL-SSO, the 2011 and 2012 SEET |
| 8 | Reviews in Case Nos. 13-2249-EL-UNC and 13-2251-EL-UNC and the Company's |
| 9 | request to establish an SSO in Case Nos. 13-2385-EL-SSO and 13-2386-EL-AAM. |
| 10 | I have filed accounting testimony and testified on behalf of APCo and Wheeling |
| 11 | Power Company before the Public Service Commission of West Virginia, and on |
| 12 | behalf of APCo before both the Virginia State Corporation Commission and the |
| 13 | FERC. Finally, I have also filed accounting testimony on behalf of Indiana |
| 14 | Michigan Power Company before the Indiana Utility Regulatory Commission and |
| 15 | on behalf of Kentucky Power Company before the Kentucky Public Service |
| 16 | Commission. |

17 PURPOSE OF TESTIMONY

18 Q. WHAT IS THE PURPOSE OF YOUR TESTIMONY IN THIS 19 PROCEEDING?

A. My testimony describes the method I used for calculating the Company's earned return on common equity (ROE) including adjustments to exclude Off-System Sales (OSS) net margins and special accounting items. No adjustments were made to remove extraordinary items, minority interest or non-recurring items for 2013 because there were no such items recorded. However, I did remove certain special

| 1 | | items as detailed later in my testimony. I then calculated the earned ROE for OPCo |
|----------|------------|---|
| 2 | | for the year ended December 31, 2013 and provided my calculations to AEP Ohio |
| 3 | | witness Allen. As in the previous 2011 - 2012 SEET Reviews, I have not |
| 4 | | calculated those provisions of AEP Ohio's ESP that directly produce earnings which |
| 5 | | serve as a cap to ESP amounts that might be subject to being returned to customers |
| 6 | | in the event that OPCo had excessive earnings in 2013 because OPCo's ROE for |
| 7 | | 2013 falls below the SEET threshold. |
| 8 | <u>EXH</u> | <u>IBIT</u> |
| 9 | Q. | ARE YOU SPONSORING ANY EXHIBITS IN THIS PROCEEDING? |
| 10 | A. | Yes, I am sponsoring Exhibit TEM-1: Earned ROE |
| 11 | <u>RET</u> | URN ON EQUITY |
| 12 | Q. | PLEASE DESCRIBE THE METHOD YOU USED TO CALCULATE THE |
| 13 | | ROES FOR OPCO AS SHOWN IN EXHIBIT TEM-1. |
| 14 | A. | The calculation of the ROEs was performed in two steps. I first calculated the per |
| 15 | | books (unadjusted) 2013 ROE (refer to Exhibit TEM-1) for OPCo using the |
| 16 | | amounts for 2013 net earnings available to common shareholders compared to the |
| 17 | | average of the beginning and ending equity for the year ended December 31, 2013. |
| 18 | | The use of average equity was determined by the PUCO to be appropriate in the |
| 19 | | previous SEET Reviews and is consistent with the calculation of the average equity |
| | | providus SEET Reviews and is consistent whit the calculation of the average equity |
| 20 | | for the comparable risk group supported by Company witness Allen. |
| | Q. | |
| 20 | Q. | for the comparable risk group supported by Company witness Allen. |
| 20 21 | Q. | for the comparable risk group supported by Company witness Allen. RECOGNIZING THAT OPCO TRANSFERRED ITS GENERATION |

RELATED TO OPCO'S TOTAL 2013 EARNINGS PRIOR TO CORPORATE SEPARATION?

3 Α. Yes, corporate separation occurred at the end of the day on December 31, 2013. 4 Accordingly, it was appropriate to use the equity balance just prior to corporate 5 separation of \$4.635 billion as shown on Exhibit TEM-1, page 1 using amounts from OPCo's 2013 SEC Form 10-K. The reconciliation of equity in OPCo's SEC 6 7 Form 10-K on page 194 detailed the amounts for the distribution of equity to 8 OPCo's parent for the transfer of generation assets and liabilities as well as a related 9 state income tax rate adjustment. I excluded both of these corporate separation 10 amounts from the calculation of ending equity as of December 31, 2013 in order to 11 determine the equity balance prior to corporate separation.

12 Q. WHAT WAS THE SECOND STEP FOR YOUR DETERMINATION OF THE 13 APPROPRIATE ROES?

A. In accordance with the PUCO order in previous SEET Reviews, I made adjustments
(after federal and state income tax) to remove certain special accounting items from
the net earnings available to common shareholders (or numerator) and common
shareholder equity (or denominator), as well as adjustments related to the removal
of OSS net margins. For 2013, there were no minority interest, non-recurring or
extraordinary items

- 20
- 21
- 22
- 23

24 Q. WHAT ARE THE RESULTS OF THE TWO STEPS OF THE

1 CALCULATION OF THE ROES?

2 A. The results are summarized as follows:

| | | Step OPCo |
|----|----|---|
| | | Step 1: Per Books ROE8.95% |
| | | Step 2: Adjusted SEET ROE 11.28% |
| 3 | Q. | DID YOU PROVIDE THE RESULTS OF YOUR CALCULATIONS OF THE |
| 4 | | 2013 ROE FOR OPCO TO AEP OHIO WITNESS ALLEN? |
| 5 | А. | Yes. |
| 6 | Q. | PLEASE DESCRIBE HOW YOU MADE ADJUSTMENTS TO THE |
| 7 | | NUMERATOR. |
| 8 | A. | I took the net total amount of all the adjustments as shown on page 1 of Exhibit |
| 9 | | TEM-1 for the twelve months ended December 31, 2013 and removed their impact |
| 10 | | on earnings for purposes of the 2013 SEET review. The amounts derived for each |
| 11 | | of these adjustments are shown on page 2 of Exhibit TEM-1 and are discussed later |
| 12 | | in my testimony. |
| 13 | Q. | HOW DID YOU MAKE ADJUSTMENTS TO THE DENOMINATOR? |
| 14 | Α. | For all adjustments except OSS net margins and the 2010 SEET refund, I used the |
| 15 | | same after tax amount calculated for the numerator to adjust the denominator. |
| 16 | Q. | DID YOU ADJUST THE DENOMINATOR FOR OSS NET MARGINS |
| 17 | | CONSISTENT WITH THE METHOD APPROVED BY THE PUCO IN THE |
| 18 | | 2010 SEET REVIEW? |
| 19 | A. | Yes, I compared the Megawatt hours (MWh) sold for OSS to the MWh generated |
| 20 | | by those plants as shown on page 5 of Exhibit TEM-1. This MWh ratio was then |
| 21 | | multiplied by the amount of equity related to generation and transmission plant net |

-

7

1

| 1 | | book value (NBV) as shown on page 4 of Exhibit TEM-1. The inclusion of an |
|----|----|--|
| 2 | | allocated portion of transmission plant is based on the Commission's order in |
| 3 | | OPCo's 2010 SEET proceeding. |
| 4 | Q. | WHAT WAS THE RESULT OF YOUR CALCULATION OF OPCO'S OSS |
| 5 | | NET MARGIN ADJUSTMENT TO EQUITY (DENOMINATOR) USING |
| 6 | | THE MWH METHOD DISCUSSED ABOVE? |
| 7 | A. | My adjustments to OPCo's equity are a reduction of \$603.607 million and \$137.855 |
| 8 | | million, for generation and transmission respectively as shown on page 4 of Exhibit |
| 9 | | TEM-1. |
| 10 | Q. | PLEASE DESCRIBE THE ADJUSTMENTS (AFTER FEDERAL AND |
| 11 | | STATE INCOME TAX) MADE TO REMOVE SPECIAL ACCOUNTING |
| 12 | | ITEMS FROM THE NET EARNINGS AVAILABLE TO COMMON |
| 13 | | SHAREHOLDERS (OR NUMERATOR) AND COMMON SHAREHOLDER |
| 14 | | EQUITY (OR DENOMINATOR). |
| 15 | A. | The special accounting items relate to impairment of certain OPCo generating units |
| 16 | | and certain restructuring charges. The 2013 after-tax amounts for each specific item |
| 17 | | have been added back to net earnings available for common shareholders and |
| 18 | | common shareholder equity which is used in the calculation of average equity and |
| 19 | | are shown on page 2 of Exhibit TEM-1. |
| 20 | Q. | PLEASE DESCRIBE THE 2010 SEET ADJUSTMENT (AFTER FEDERAL |
| 21 | | AND STATE INCOME TAX) MADE TO REMOVE SPECIAL |
| 22 | | ACCOUNTING ITEMS FROM THE NET EARNINGS AVAILABLE TO |
| 23 | | COMMON SHAREHOLDERS (OR NUMERATOR) AND COMMON |
| | | |

.

24 SHAREHOLDER EQUITY (OR DENOMINATOR).

A. The after-tax amount of the 2010 SEET refund ordered by the Commission in 2013
 in Case Nos. 11-4571-EL-UNC & 11-4572-EL-UNC has been added back to
 earnings. No adjustment was made to the 2013 equity balance as that would have
 the impact of removing the lower equity value already reflected in the 2013 equity
 balance due to the Commission order in 2013.

6 Q. DOES THIS CONCLUDE YOUR DIRECT TESTIMONY?

7 A. Yes.
