Re: Gable Substation, Case No. 14-1280-EL-BSB

Mr. and Mrs. Otto,

Your comments concerning American Electric Power Transmission Company's (AEP Transco) proposed Gable Substation were forwarded to the Ohio Power Siting Board (OPSB).

Your correspondence in regards to the Gable Substation project has been docketed in case number 14-1280-EL-BSB. Your previous comments concerning the project were filed on November 10, 2014.

The OPSB Staff continues to review the Application.

Thank you for your continued interest in this case,

Sincerely,

Patrick Donlon, Interim Executive Director  
Ohio Power Siting Board

To whom it may concern:

We are writing this letter out of our concern for the Gable Substation Project, Case Number 14-1280-EL-BSB.

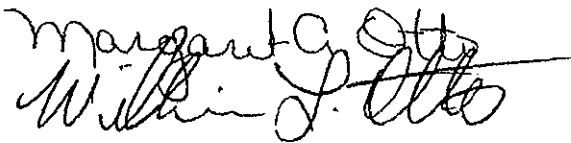

On September 23, 2014 we attended the AEP informational meeting at the Wells Twp. Building in Brilliant Ohio. We understand the need for this project however we have concerns with the proposed Blue site:

Environmental  
Health  
Noise and light pollution  
Property value going down

When comparing the two sites proposed, we feel that the population at the Blue site should be considered since there are many landowners affected at this site compared to Red site.

By sending this letter of concern, we are hoping to influence your decision of location for the Gable project switching station to be placed at the Red site. Any feedback on this letter would be greatly appreciated!

Thank you for your time.  
Concerned Landowners
