Subject: PLEASE STOP FIRST ENERGY'S PROPOSED PURCHASE POWER AGREEMENT

file these comments into the docket for case #14-1297-EL-SSO

Dear PUCO,
please help us consumers in our efforts vs First Energy. As a retiree in an all-electric home living on a fixed income, I cannot afford to pay the proposed increased rates that First Energy wants to charge, in their campaign to bailout the failing power plants. Please use the regulatory jurisdiction in your office to stop this unfair and unreasonable request.

sincerely,
Richard Biasella

Subject: At it again

I am tired of these guys sticking their hands in my pockets every time they get bored. My electric rates keep going up and the service is no better. I just lost my job one month ago and can not, repeat can not afford another rate hike. They have to make cut backs just like I have done to live within there means. NO TO THE RATE HIKE. Thank you for letting me respond. Steven M Salo

Unhappy and tired of being taken to the cleaners every .No WAY IN HELL TO THE RATE HIKE Sent from my iPod

As customers of First Energy (Ohio Edison) we want to voice our opinion concerning electric usage increases in price.

We have two total electric homes, one built in 1975 and one in 1996. At the time we were promised special rates for going total electric. The rates continue to increase without any special rates for total electric homes.

We oppose First Energy's proposed Purchased Power Agreement to bailout their failing power plants.

Hello.

I am an all-electric homeowner who is tired of battling The Illuminating Company in their attempts to bleed customers. Their intent seems to resemble that of their 19th century counterparts, which I understand from history to have been outlawed. Why must we always remain prepared to fend off their efforts to charge us unfairly for their losses? Personally, I have had nothing but satisfaction when dealing with their competition.....and I'm disgusted by the thought of their potential for success. Will we finally be supported by our own government, who have already been advised to reject this latest scheme by consumer rights' agencies, or will this be another heist, similar to that of the East India Tea Company?

This writer's hands are already cold. Must we be subject to another visit from Scrooge Mc-Illuminating Company? I ask for your help in defeating this greedy hydra once and for all.

Sincerely,
Jennifer McKevitt
Chardon, Ohio

Subject: UNFAIR RATE INCREASES IN A REGULATED MARKET

TO WHOM IT MAT CONCERN@ PUCO:

I AM APPALLED BUT NOT SURPRISED AT FIRST ENERGY'S ATTEMPT TO RECOUP UNREGULATED POWER PLANT EXPENSES FROM SAMMIS AND DAVIS BESSE POWER PLANTS

PLEASE LET THIS LETTER SERVE AS OPPOSITION TO THE RECENT SONG-AN-DANCE SCENARIO FROM FIRST ENERGY COMPANIES REGARDING SAVING JOBS,ETC AS EVIDENCED BELOW.

First Energy also filed in August with the PUCO their three year rate plan that will set electric distribution prices for each of the local distribution companies (Illuminating, Ohio Edison, and Toledo Edison). In this three year rate plan, First Energy has snuck in a provision that will help them cover the loss of the retail market for FES that will cause all of our electric distribution rates to increase.

I AM OPPOSED TO THIS ATTEMPT BY FIRST ENERGY TO COVER THE COST OF LEAVING A RETAIL MARKET VOLUNTARILY. WE SHOULD NOT BE HELD TO A BUSINESS DECISION THAT MAY ADVERSLY AFFECT THEM IN THE FUTURE.

REGARDS,

BRIAN BECK
