Re: Electric Security Plan of Ohio Edison Company, The Cleveland Electric Illuminating Company and The Toledo Edison Company, Case No: 14-1297-EL-SSO

Dear Chairman Johnson:

I support the FirstEnergy utilities' Economic Stability Program proposed in PUCO Case No. 14-1297-EL-SSO.

As an employee of the Davis-Besse Nuclear Power Station in Oak Harbor, Ohio, I believe the Economic Stability Program is essential to ensuring reliable, affordable service for FirstEnergy utilities' customers, as well as greater certainty for my power plant and the highly skilled Ohioans it employs.

The program will help ensure economic growth and prosperity in our region by supporting Ohio jobs and fuel-diverse baseload power plants operating in Ohio. This economic development and job retention program will help keep Davis-Besse and the W.H. Sammis Plant in Stratton, Ohio, serving as strong, Ohio-based sources of energy and jobs for the 15 years of the proposed program.

The employment implications are substantial – at the plants as well as regionally and statewide. The Economic Stability Program is estimated to preserve \$1 billion annually in statewide economic benefits, nearly 3,000 direct and indirect jobs, and more than \$52 million in annual state and local property and income taxes. The program also is projected to benefit Ohio's economy by saving FirstEnergy customers \$2 billion over the 15-year period.

FirstEnergy has been an active partner and supporter of economic development efforts in Ottawa County for many years. It has provided not only funding support for these efforts, but also personnel in the field to assist with job-creating projects and initiatives.

For these and other reasons, I ask that you approve the Economic Stability Program.

Sincerely, MARTIN J ROIDL

November 15, 2014

The Honorable John Kasich
Governor of Ohio
Riffe Center, 30th Floor
77 South High Street
Columbus, OH 43215-6117

Dear Governor Kasich:

On behalf of WESCO Distribution, Inc., and our 9,000 hard-working employees, we want to keep affordable and reliable electricity available to support our economy in the years ahead. With hundreds of Ohio based employees and their families, coupled with our ongoing commitment to multiple brick and mortar locations operating throughout Ohio, we support common sense energy policy and results.

FirstEnergy has been a valuable customer of my company and we believe they have done an excellent job keeping electric prices affordable for businesses and consumers. However, FirstEnergy and others have been challenged in recent years by regulatory issues and market pressures that have led to the closing of many of Ohio's largest power plants, and more retirements are expected. I'm concerned that these factors could drive up electricity prices and affect the reliability of our service at a time when we're still recovering from a difficult economy.

We can't afford to wait on the sidelines for the market to react or the federal government to intervene. The time is now for Ohio to take action and secure our energy future.

That's why I'm urging your support of FirstEnergy's proposed Electric Security Plan, *Powering Ohio's Progress*, which will help keep future price increases in check while enabling Ohio to preserve its vital energy resources. FirstEnergy's plan also provides economic development funding to help Ohio create more jobs and attract new business growth.

We truly appreciate FirstEnergy's commitment to serving Ohio's energy needs, and we hope you will support this solid plan for our state's energy future. In the meantime, we would appreciate it if your staff could docket this letter as part of the record in this proceeding (14-1297-EL-SSO).

Best regards,

Ken Fountain
Power Generation Segment Leader

DATE: November 3, 2014

The Honorable John Kasich
Governor of Ohio
Riffe Center, 30th Floor
77 South High Street
Columbus, OH 43215-6117

Dear Governor Kasich:

Ohio's power plants create thousands of union jobs and produce major infrastructure projects that put our members to work.

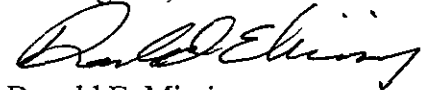

We are greatly concerned that numerous power plants in Ohio have permanently shut down in recent years, and many more are expected to close in the years ahead. Further decline in Ohio's electric power industry could cost thousands of union jobs and discourage industrial development opportunities across the state.

This is an outcome Ohio cannot afford. Already, a struggling economy and other factors have led to reductions in operations and capital improvement expenditures at numerous power production and manufacturing facilities across Ohio. Industrial construction hours for certain segments of the industry are down 53 percent from 2008, very much to the detriment of our members and Ohio's economy.

Consistent with our interest in creating construction job opportunities, we're urging your support of FirstEnergy's proposed Electric Security Plan, *Powering Ohio's Progress*. FirstEnergy's plan strikes the right balance between keeping electricity affordable for customers while helping to ensure the continued operation of Ohio power plants, including the Davis-Besse Nuclear Power Plant in Oak Harbor, the W.H. Sammis Plant in Stratton, and the OVEC plant in Gallipolis, Ohio. These plants provide a huge economic benefit to the state of Ohio. Together, the ongoing operations of these plants create an economic impact in the state of more than \$1 billion annually, and directly and indirectly support an estimated 3,000 jobs.

Unless we take action, the long-term viability of these plants – along with the jobs and substantial economic opportunities they bring to our members– may be at risk. We respectfully request that you support this plan to keep energy affordable and protect Ohio jobs. Thank you for your consideration, and please contact me if I can be of any assistance. In the meantime, we would appreciate it if your staff could docket this letter as part of the record in this proceeding (PUCO Case No. 14-1297-EL-SSO).

Best regards,

Donald E. Missig

The program will help ensure economic growth and prosperity in our region by supporting Ohio jobs and fuel-diverse baseload power plants operating in Ohio. This economic development and job retention program will help keep Davis-Besse and the W.H. Sammis Plant in Stratton, Ohio, serving as strong, Ohio-based sources of energy and jobs for the 15 years of the proposed program.

The employment implications are substantial – at the plants as well as regionally and statewide. The Economic Stability Program is estimated to preserve \$1 billion annually in statewide economic benefits, nearly 3,000 direct and indirect jobs, and more than \$52 million in annual state and local property and income taxes. The program also is projected to benefit Ohio's economy by saving FirstEnergy customers \$2 billion over the 15-year period.

FirstEnergy has been an active partner and supporter of economic development efforts in Ottawa County for many years. It has provided not only funding support for these efforts, but also personnel in the field to assist with job-creating projects and initiatives.

For these and other reasons, I ask that you approve the Economic Stability Program.

Sincerely,

KEVIN BROWNING

Re: Electric Security Plan of Ohio Edison Company, The Cleveland Electric Illuminating Company
and The Toledo Edison Company, Case No: 14-1297-EL-SSO

Dear Chairman Johnson:

I support the FirstEnergy utilities' Economic Stability Program proposed in PUCO Case No. 14-1297-EL-SSO.

As an employee of FirstEnergy, I believe the Economic Stability Program is essential to ensuring reliable, affordable service for FirstEnergy utilities' customers, as well as greater certainty for our power plants and the highly skilled Ohioans they employ.

The program will help ensure economic growth and prosperity in our region by supporting Ohio jobs and fuel-diverse baseload power plants operating in Ohio. This economic development and job retention program will help keep the W. H. Sammis Plant in Stratton, Ohio, and the Davis-Besse Nuclear Power Station in Oak Harbor, Ohio, serving as strong, Ohio-based sources of energy and jobs for the 15 years of the proposed program.

The employment implications are substantial – at the plants as well as regionally and statewide. The Economic Stability Program is estimated to preserve \$1 billion annually in statewide economic benefits, nearly 3,000 direct and indirect jobs, and more than \$52 million in annual state and local property and income taxes. The program also is projected to benefit Ohio's economy by saving FirstEnergy customers \$2 billion over the 15-year period.

FirstEnergy has been an active partner and supporter of economic development efforts in Ohio for many years. It has provided not only funding support for these efforts, but also personnel in the field to assist with job-creating projects and initiatives.

For these and other reasons, I ask that you approve the Economic Stability Program.

Sincerely,

Brenda L. Deininger

The Honorable John Kasich
Governor of Ohio
Riffe Center, 30th Floor
77 South High Street
Columbus, OH 43215-6117

Dear Governor Kasich:

As an employee of Campbell Transportation Company, I'm writing in support of FirstEnergy's proposed Electric Security Plan, *Powering Ohio's Progress*. FirstEnergy is a valuable customer of my company, which provides marine, harbor and barge services along the Ohio River.

Many of Ohio's largest power plants have closed in recent years due to market challenges and tougher regulations, and more plant retirements are expected. This means fewer family-sustaining Ohio jobs, and rising electricity prices in the years ahead.

That's why I'm urging your support of FirstEnergy's proposed Electric Security Plan, *Powering Ohio's Progress*. FirstEnergy's plan will keep electricity affordable and help ensure the continued operation of Ohio's power plants, including the W.H. Sammis Plant located along the Ohio River in Stratton, Ohio. As of today, the long-term viability of this plant – along with the jobs and substantial economic benefits it brings to my community – may be at risk.

I hope you will support FirstEnergy's solid plan to keep energy affordable and protect Ohio jobs. In the meantime, I would appreciate it if your staff could docket this letter as part of the record in this proceeding: 14-1297-EL-SSO.

Best regards,

Riffe Center, 30th Floor
77 South High Street
Columbus, OH 43215-6117

Dear Governor Kasich:

As an employee of Campbell Transportation Company, I'm writing in support of FirstEnergy's proposed Electric Security Plan, *Powering Ohio's Progress*. FirstEnergy is a valuable customer of my company, which provides marine, harbor and barge services along the Ohio River.

Many of Ohio's largest power plants have closed in recent years due to market challenges and tougher regulations, and more plant retirements are expected. This means fewer family-sustaining Ohio jobs, and rising electricity prices in the years ahead.

That's why I'm urging your support of FirstEnergy's proposed Electric Security Plan, *Powering Ohio's Progress*. FirstEnergy's plan will keep electricity affordable and help ensure the continued operation of Ohio's power plants, including the W.H. Sammis Plant located along the Ohio River in Stratton, Ohio. As of today, the long-term viability of this plant – along with the jobs and substantial economic benefits it brings to my community – may be at risk.

I hope you will support FirstEnergy's solid plan to keep energy affordable and protect Ohio jobs. In the meantime, I would appreciate it if your staff could docket this letter as part of the record in this proceeding: 14-1297-EL-SSO.

Best regards,

Ronald A. Coleman

FirstEnergy's plan will keep electricity affordable and help ensure the continued operation of Ohio's power plants, including the W.H. Sammis Plant located along the Ohio River in Stratton, Ohio. As of today, the long-term viability of this plant – along with the jobs and substantial economic benefits it brings to my community – may be at risk.

I hope you will support FirstEnergy's solid plan to keep energy affordable and protect Ohio jobs. In the meantime, I would appreciate it if your staff could docket this letter as part of the record in this proceeding: 14-1297-EL-SSO.

Best regards,

Columbus, OH 43215-6117

Dear Governor Kasich:

As an employee of Campbell Transportation Company, I'm writing in support of FirstEnergy's proposed Electric Security Plan, *Powering Ohio's Progress*. FirstEnergy is a valuable customer of my company, which provides marine, harbor and barge services along the Ohio River.

Many of Ohio's largest power plants have closed in recent years due to market challenges and tougher regulations, and more plant retirements are expected. This means fewer family-sustaining Ohio jobs, and rising electricity prices in the years ahead.

That's why I'm urging your support of FirstEnergy's proposed Electric Security Plan, *Powering Ohio's Progress*. FirstEnergy's plan will keep electricity affordable and help ensure the continued operation of Ohio's power plants, including the W.H. Sammis Plant located along the Ohio River in Stratton, Ohio. As of today, the long-term viability of this plant – along with the jobs and substantial economic benefits it brings to my community – may be at risk.

I hope you will support FirstEnergy's solid plan to keep energy affordable and protect Ohio jobs. In the meantime, I would appreciate it if your staff could docket this letter as part of the record in this proceeding: 14-1297-EL-SSO.

Dear Governor Kasich:

As an employee of Campbell Transportation Company, I'm writing in support of FirstEnergy's proposed Electric Security Plan, *Powering Ohio's Progress*. FirstEnergy is a valuable customer of my company, which provides marine, harbor and barge services along the Ohio River.

Many of Ohio's largest power plants have closed in recent years due to market challenges and tougher regulations, and more plant retirements are expected. This means fewer family-sustaining Ohio jobs, and rising electricity prices in the years ahead.

That's why I'm urging your support of FirstEnergy's proposed Electric Security Plan, *Powering Ohio's Progress*. FirstEnergy's plan will keep electricity affordable and help ensure the continued operation of Ohio's power plants, including the W.H. Sammis Plant located along the Ohio River in Stratton, Ohio. As of today, the long-term viability of this plant – along with the jobs and substantial economic benefits it brings to my community – may be at risk.

I hope you will support FirstEnergy's solid plan to keep energy affordable and protect Ohio jobs. In the meantime, I would appreciate it if your staff could docket this letter as part of the record in this proceeding: 14-1297-EL-SSO.

Best regards,

Karl Churman

That's why I'm urging your support of FirstEnergy's proposed Electric Security Plan, *Powering Ohio's Progress*. FirstEnergy's plan will keep electricity affordable and help ensure the continued operation of Ohio's power plants, including the W.H. Sammis Plant located along the Ohio River in Stratton, Ohio. As of today, the long-term viability of this plant – along with the jobs and substantial economic benefits it brings to my community – may be at risk.

I hope you will support FirstEnergy's solid plan to keep energy affordable and protect Ohio jobs. In the meantime, I would appreciate it if your staff could docket this letter as part of the record in this proceeding: 14-1297-EL-SSO.

Best regards,

Joseph W. Gray

Columbus, OH 43215-6117

Dear Governor Kasich:

As an employee of Campbell Transportation Company, I'm writing in support of FirstEnergy's proposed Electric Security Plan, *Powering Ohio's Progress*. FirstEnergy is a valuable customer of my company, which provides marine, harbor and barge services along the Ohio River.

Many of Ohio's largest power plants have closed in recent years due to market challenges and tougher regulations, and more plant retirements are expected. This means fewer family-sustaining Ohio jobs, and rising electricity prices in the years ahead.

That's why I'm urging your support of FirstEnergy's proposed Electric Security Plan, *Powering Ohio's Progress*. FirstEnergy's plan will keep electricity affordable and help ensure the continued operation of Ohio's power plants, including the W.H. Sammis Plant located along the Ohio River in Stratton, Ohio.
