Dear Chairman Johnson, Commissioner Lesser, Commissioner Haque, Commissioner Slaby, and Commissioner Trombold:

I chose to enroll in First Energy Solutions discount program and I like it and I am grateful to this corporation. However, consumers count on you to do your best to balance corporate profits with consumer needs. For First Energy to ask all electric home owners, whose payments already provide a fair and reasonable profit, to subsidize two unregulated and unprofitable power plants will **totally reverse any benefits gained from the 1999 deregulation of a competitive market for the generation of electricity.**

For PUCO to tilt the scales in favor of corporate interest to this degree **undercuts the very reason PUCO was established.** I ask you as a little old lady on a fixed income to help me and many others to allow us to live out our remaining years in our beloved homes. So far, your help has made that possible along with First Energy's program that I joined.

Thank you for your kind and thoughtful consideration. I remain grateful for whatever you can do.

Sincerely yours,

Eileen Fisco
