Subject: Proposed rate increase #14-1297-EL-SSO

I am objecting to the rate increase sought by First Energy on behalf of two generating plants. In the recent past First Energy claimed to no longer have control of generating costs by these plants. They said that they would have to purchase energy on the open market. It is common knowledge that even though they claim to have no control of these plants, they still own them. If money is needed for maintenance and upgrades, it should come out of First Energy revenues which were enhanced by there previous deregulatory shenanigans. In no case should First Energy customers be required to pick up the bill.

Subject: Case # 14-1297-EL-SSO. Opposed to FirstEnergy's proposed Purchased Power Agreement to bailout !

PUCO,

My family and I, along with our all electric neighbors, are 100% opposed to FirstEnergy's proposed Purchased Power Agreement to bailout their failing power plants.

We work hard and do what we can to be as efficient as we can in running our households and we need FirstEnergy to do the same with their company and stand behind the promise that the all electric homeowners were given.

Please see that our electric bills are not raised because of this bailout plan; it's not our fault!!!

Thank you,
